Clarification of News Report

We refer to the letter of the PSE, asking us to clarify or confirm today the quoted statements below in relation to the following news article entitled "Proposal to develop Sangley airport pitched" posted in BusinessMirror (Online Edition) in November 8, 2021. The article reported in part that:

"A consortium composed of local and foreign groups, including the Yuchengco Group and billionaire Lucio C. Tan, has submitted a \$10.9-billion unsolicited proposal to the provincial government of Cavite for the development of the Sangley Point International Airport (SPIA).

The SPIA Development Consortium said it submitted the proposal after the government declared a second failed auction for the airport development project on October 20. The consortium members that submitted a fresh proposal are: the Yuchengco Group of Companies, MacroAsia Corp., Samsung C&T Corp., Munich Airport International GmbH, and Cavitex Holdings Inc., an entity that is not related to the Metro Pacific group.

....

In a text message, a consortium representative said the proposal of the consortium involves the development of the SPIA in two phases.

Phase 1A involves the development of the first runway and terminal building that can handle up to 15 million passengers per annum. It has a price tag of \$2.3 billion. Phase 1B, meanwhile, will expand the airport's capacity to 25 million passengers per year through a \$2-billion investment.

The second phase, meanwhile, will cost \$6.6 billion. It involves the construction of a second runway and the expansion of the airport's capacity to 75 million passengers per annum.

.... "

MAC has been invited to be a non-equity partner in a consortium to develop the Sangley Airport Project. The proposed role of MacroAsia as a supporting non-equity member of the consortium is to provide management and technical services for the aviation support and logistics components of the project in case the consortium gets the project award.
