

MACROASIA CORPORATION

NOTICE OF ANNUAL STOCKHOLDERS' MEETING

Notice is hereby given that the Annual Stockholders' Meeting of MACROASIA CORPORATION will be conducted virtually through <http://www.macroasiacorp.com/asm> on Thursday, 11 May 2023, at 3:00 P.M.

The Agenda for the meeting is as follows:

1. Call to Order
2. Certification of Notice and Quorum
3. Approval of the Minutes of the Annual Stockholders' Meeting held on 12 May 2022
4. President's Report
5. Financial Report on Results of Operations for 2022
6. Approval of the Audited Financial Statements for the year ended 31 December 2022
7. Ratification of all Acts, Proceedings and Resolutions of the Board of Directors and Management since the Annual Stockholders' Meeting held on 12 May 2022 up to 11 May 2023
8. Election of Directors
9. Appointment of External Auditor
10. Other Matters
11. Adjournment

Record Date. The Board of Directors has fixed 11 April 2023 as the record date for the determination of stockholders entitled to notice of, to participate and to vote at, the Annual Stockholders' Meeting.

Attendance and Pre-Registration. In order to safeguard the health and ensure the safety of our stockholders and stakeholders, stockholders may attend and participate in the meeting only by remote communication, and may vote either *in absentia* or by voting through the Chairman of the meeting as their proxy.

Stockholders who wish to participate in the meeting via remote communication and to vote *in absentia* should pre-register through <http://www.macroasiacorp.com/asm> by 2 May 2023.

Qualified pre-registered stockholders will be provided access to the live streaming of the meeting and can then cast their votes *in absentia* through the Company's secure online voting facility. All votes cast shall be subject to validation.

Proxies. The Company is not soliciting your proxies. Stockholders who wish to vote by proxy must submit their duly accomplished proxy forms through email to macasm@macroasiacorp.com not later than 26 April 2023.

Procedural Information. The procedure and requirements for participating in the meeting through remote communication, as well as voting *in absentia* or by proxy, are set forth in the Definitive Information Statement.

Queries. You may send your questions regarding the agenda items through <http://www.macroasiacorp.com/asm> or via email at macasm@macroasiacorp.com on or before 5 May 2023.

Electronic Copies of Relevant Documents. Pursuant to the SEC Notice dated 13 March 2023, electronic copies of the Company's Definitive Information Statement, Management Report, SEC Form 17-A, and other relevant documents are accessible through the Company's website at the following link <http://www.macroasiacorp.com/asm>.

Video and Audio Recording. Pursuant to SEC Memorandum Circular No. 6, Series of 2020, please be informed that there will be an audio and video recording of the meeting.

Makati City, 23 March 2023.

FLORENTINO M. HERRERA III
Corporate Secretary

Explanation and Rationale for Each Item in the Agenda

1. Call to Order

The Chairman of the Board of Directors, Dr. Lucio C. Tan, will call the meeting to order. Thereafter, the Chairman shall ask the President and Chief Operating Officer, Mr. Eduardo Luis T. Luy to preside over the meeting.

2. Certification of Notice and Quorum

The Corporate Secretary will certify the date when written notice of the meeting was published in two (2) newspapers of general circulation for two (2) consecutive days.

The Corporate Secretary will further certify to the presence of a quorum in the meeting. The number of the shares represented at the meeting shall be validated by PNB Trust, the stock transfer agent of the Corporation.

3. Approval of the Minutes of the Annual Stockholders' Meeting held on 12 May 2022

The Minutes of the Annual Stockholders' Meeting of the Corporation held on 12 May 2022 may be viewed at the Corporation's website, <http://www.macroasiacorp.com/>.

The affirmative vote of stockholders representing at least a majority of the outstanding capital stock of the Corporation present at the meeting shall be necessary to approve the Minutes of the Meeting.

4. President's Report

The President and Chief Operating Officer of the Corporation, Mr. Eduardo Luis T. Luy, will deliver the President's Report on the results of operations of the Corporation and its subsidiaries, together with the projected business outlook for 2023.

5. Financial Report on Results of Operations for 2022

The Corporation's Chief Financial Officer, Mr. Amador T. Sendin, will present the Financial Report for the year ended 31 December 2022.

6. Approval of the Annual Report and the Audited Financial Statements for the year ended 31 December 2022

The Audited Financial Statements of the Corporation, as audited by SGV & Company ("SGV") for the year ended 31 December 2022 will be contained

in the Annual Report to be emailed to the stockholders upon their successful registration for the Annual Stockholders' Meeting. The same shall also be posted on the Corporation's website at <http://www.macroasiacorp.com/asm>, as part of its Definitive Information Statement (SEC Form 20-IS).

The Audit Committee has recommended, and the Board of Directors has approved the Audited Financial Statements of the Corporation for the year ended 31 December 2022.

A resolution for the approval of the Annual Report and Audited Financial Statements shall be submitted to the stockholders.

The affirmative vote of stockholders representing at least a majority of the outstanding capital stock of the Corporation present at the meeting shall be necessary to approve the resolution.

7. Ratification of all Acts, Proceedings and Resolutions of the Board of Directors and Management since the Annual Stockholders' Meeting held on 12 May 2022 up to 11 May 2023

The acts and resolutions of the Board of Directors and Management since the 2022 Annual Stockholders' Meeting that are submitted for the approval, confirmation, and ratification by the stockholders are enumerated in Item 18 of SEC Form 20-IS.

A motion for the approval, confirmation, and ratification of the acts, proceedings and resolutions of the Board of Directors and Management since the 2022 Annual Stockholders' Meeting shall be presented to the stockholders.

The affirmative vote of stockholders representing at least a majority of the outstanding capital stock of the Corporation present at the meeting shall be necessary to approve the resolution.

8. Election of Directors

In accordance with the Corporation's By-Laws and Manual on Corporate Governance, the Corporate Governance Committee received the nominations to the Board of Directors.

During its meeting on 24 March 2023, the Corporate Governance Committee determined that all the nominees, including the nominees for independent directors, possess all the qualifications of a director pursuant to the Corporation's By-Laws, Manual on Corporate Governance, and applicable laws, rules and regulations. Copies of the directors' profiles are

provided in the Definitive Information Statement and posted on the Corporation's website: <http://www.macroasiacorp.com/>.

Memorandum Circular No. 4, series of 2017 of the Securities and Exchange Commission ("SEC MC No. 4") provides that an independent director shall serve a maximum cumulative term of nine (9) years reckoned from 2012. The nine-year term may be extended in case there is a meritorious justification for such extension and such extension is approved by the stockholders. Pursuant to SEC MC No. 4, the Corporation's Board of Directors and stockholders approved the extension of the term of Mr. Johnip G. Cua ("Mr. Cua") as an independent director of the Corporation for two (2) years from 2021 to 2023. SEC MC No. 4 further provides that an independent director who is perpetually barred from re-election as an independent director due to the expiration of the nine-year cumulative term or any extension thereof may continue to qualify as a non-independent director.

Based on the foregoing, the Corporate Governance Committee has screened the nomination of Mr. Cua as a non-independent director and has found him to possess all the qualifications needed for said position. Hence, Mr. Cua has been included in the slate of directors to be elected during the Annual Stockholders' Meeting of the Corporation.

The Corporate Secretary shall present to the stockholders the names of the individuals who were nominated in the Final List of Candidates for directors of the Corporation.

The election of the directors shall be by plurality of votes. Every stockholder may vote such number of shares owned by him for as many persons as there are directors to be elected; or he may cumulate his votes by giving one candidate as many votes as the number of such directors multiplied by the number of his shares shall equal; or he may, based on the same principle, distribute such votes among as many candidates as he sees fit.

The eleven (11) directors receiving the highest number of votes will be declared elected as directors of the Corporation.

The Office of the Corporate Secretary shall oversee the tabulation of the votes, subject to verification by the external auditor, SGV.

9. Appointment of External Auditor

The Audit Committee has recommended, and the Board has approved the appointment of SGV as the external auditor of the Corporation.

The profile of the proposed external auditor is provided in the Information Statement.

A resolution for the appointment of SGV as the Corporation's external auditor will be presented to the stockholders for their approval.

The affirmative vote of stockholders representing at least a majority of the outstanding capital stock of the Corporation present at the meeting shall be necessary to approve the resolution.

10. Other Matters

The Chairman of the Meeting will hold an Open Forum to address the queries of the stockholders.

Only questions submitted in advance by the stockholders will be addressed during the Meeting. As stated in the Notice, the questions must be submitted through the **Queries** tab found in the Annual Stockholders' Meeting page (<http://www.macroasiacorp.com/asm>) not later than 5 May 2023.

Questions/comments received but not entertained during the Open Forum due to time constraints will be addressed separately by the Corporation's Investor Relations Officer.

11. Adjournment

Upon confirmation by the Corporate Secretary that there are no other matters to be considered, and on motion by a stockholder duly seconded, the Chairman of the meeting will declare the meeting adjourned.

WE ARE NOT SOLICITING YOUR PROXY

Stockholders may cast their votes via the method provided for voting in absentia, or by accomplishing the proxy form provided below.

PROXY

The undersigned stockholder of **MACROASIA CORPORATION** (the "Corporation") hereby appoints the Chairman of the Meeting as proxy to represent the undersigned stockholder at the Annual Stockholders' Meeting of the Corporation to be held through remote communication on 11 May 2023, and any adjournment or postponement thereof, and to vote all the shares registered in the name of the undersigned stockholder in the books of the Corporation for the purpose of acting on the following matters as fully, for all intents and purposes as he/she/it might do if present and acting in person, hereby ratifying and confirming all that said proxy shall lawfully do or cause to be done by virtue of these presents:

	FOR	AGAINST	ABSTAIN
1. Approval of the Minutes of the Annual Stockholders' Meeting held on 12 May 2022	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

A. GENERAL INFORMATION

In this Information Statement, the “Corporation” or “MAC” refers to MacroAsia Corporation. Similarly, the “MacroAsia Group” or the “Group” refers to MacroAsia Corporation and its subsidiaries/affiliates.

Item 1. Date, Time and Place of Meeting of Security Holders

The meeting will be conducted virtually on **Thursday, May 11, 2023**, at **3:00 P.M.** The details of the meeting can be found at <http://www.macroasiacorp.com/asm>.

The complete mailing address of the Corporation is: **12th Floor, PNB Allied Bank Center, 6754 Ayala Avenue, Makati City, Philippines**

The approximate date on which the Information Statement is first to be sent or given to Security Holders is **April 18, 2023**.

**THE PARENT COMPANY IS NOT ASKING YOU FOR A PROXY
AND YOU ARE REQUESTED NOT TO SEND US A PROXY**

Item 2. Dissenters’ Right of Appraisal

Under Title X of the Revised Corporation Code of the Philippines, any stockholder of a corporation shall have the right to dissent and demand payment of the fair value of his shares in the following instances: (i) any amendment to the articles of incorporation which has the effect of changing or restricting the rights of any stockholder or class of shares, or of authorizing preferences in any respect superior to those of outstanding shares of any class; (ii) extending or shortening the term of corporate existence; (iii) any sale, lease, exchange, transfer, mortgage, pledge or other disposition of all or substantially all of the corporate property and assets; (iv) merger or consolidation; and (v) in case of investment of corporate funds for any purpose other than the primary purpose of the Corporation.

The appraisal right may be exercised by any dissenting stockholder who shall have voted against the proposed corporate action, by making a written demand on the Corporation within thirty (30) days after the date on which the vote was taken for payment of the value of his shares. If the proposed corporate action is implemented or effected, the Corporation shall pay to such stockholder, upon surrender of the certificate or certificates of stock representing his shares, the fair value thereof as of the day prior to the date on which the vote was taken, excluding any appreciation or depreciation in anticipation of such corporate action. No payment shall be made to dissenting stockholder unless the Corporation has unrestricted retained earnings in its books to cover such payment.

None of the proposed corporate actions of the Corporation qualify as an instance which allows the exercise by the stockholders of their appraisal rights.

Item 3. Interest of Certain Persons in or Opposition to Matters to be Acted Upon

- (a) No director or officer of the Corporation, or nominee for election as director or associate of the foregoing persons, has any substantial interest, direct or indirect, by security holdings or otherwise, in any matter to be acted upon, other than election to office.

- (b) No director has informed the Corporation in writing that they intend to oppose any action to be taken by the Corporation at the meeting.

B. CONTROL AND COMPENSATION INFORMATION

Item 4. Voting Securities and Principal Holders Thereof

- (a) MacroAsia Corporation has 1,890,958,323 common shares issued and outstanding as of February 28, 2023. All issued and outstanding common shares of the Corporation as of the record date are entitled to vote at the Annual Stockholder's Meeting. Each share is entitled to one (1) vote.
- (b) The record date for purposes of determining the stockholders entitled to vote is April 11, 2023.
- (c) A stockholder entitled to vote at the meeting shall have the right to vote through remote communication/ *in absentia* or by proxy, the number of shares registered in his name in the stock transfer book of the Corporation for as many persons as there are directors to be elected. Each stockholder shall have the right to cumulate said shares and give one nominee as many votes as the number of directors to be elected multiplied by the number of his shares shall equal, or he may distribute them on the same cumulative voting principle among as many nominees as he shall see fit; provided, that the number of votes cast by a stockholder shall not exceed the number of his shares multiplied by the number of directors to be elected.

No discretionary authority to cumulate votes is solicited.

(d) Security Ownership of Certain Record & Beneficial Owners & Management

1. Security Ownership of Certain Record and Beneficial Owners of more than 5% of the Corporation's Securities as of February 28, 2023 are:

A - Absent

ED - Executive Director

NED - Non-Executive Director

ID - Independent Director

A Director's term of office is one year. Election for the Board of Directors is conducted during the annual stockholders' meeting held every third Thursday of May each year.

The Corporate Governance Committee is tasked with ensuring compliance with and proper observance of corporate governance principles and practices. The Committee oversees the periodic performance evaluation of the Board and its committees as well as the executive management, and conduct an annual self-evaluation of its performance. It will also ensure that the results of the Board evaluation are shared, discussed, and that concrete action plans are developed and implemented to address the identified areas for improvement. The Committee may also identify and recommend relevant trainings to keep the members up to date with corporate governance best practices and other areas of concerns.

(b) Information required of Directors and Executive Officers:

1. Directors and Executive Officers - Please refer to Annex A
2. Chairman and Members of the Corporate Governance Committee

Ms. Marixi R. Prieto is the Chairman of the Corporate Governance Committee while Mr. Lucio C. Tan III, Mr. Johnip G. Cua, Mr. Ben C. Tiu and Mr. Samuel C. Uy are the

committee members. Atty. Marivic T. Moya is a non-voting member of the Corporate Governance Committee.

The Corporate Governance Committee pre-screened and shortlisted all candidates nominated in accordance with the qualifications and disqualifications set forth in the Corporation's Amended By-laws and the Manual on Corporate Governance.

Memorandum Circular No. 4, series of 2017 of the Securities and Exchange Commission ("SEC MC No. 4") provides that an independent director shall serve a maximum cumulative term of nine (9) years reckoned from 2012. The nine-year term may be extended in case there is a meritorious justification for such extension and such extension is approved by the stockholders. Pursuant to SEC MC No. 4, the Corporation's Board of Directors and stockholders approved the extension of the term of Mr. Johnip G. Cua ("Mr. Cua") as an independent director of the Corporation for two (2) years from 2021 to 2023. SEC MC No. 4 further provides that an independent director who is perpetually barred from re-election as an independent director due to the expiration of the nine-year cumulative term or any extension thereof may continue to qualify as a non-independent director.

Based on the foregoing, the Corporate Governance Committee has screened the nomination of Mr. Cua as a non-independent director and has found him to possess all the qualifications needed for said position. Hence, Mr. Cua has been included in the slate of directors to be elected during the Annual Stockholders' Meeting of the Corporation.

The following are the Final List of Candidates for directors as determined by the Corporate Governance Committee during its meeting held on March 24, 2023:

- | | | | |
|-----|---------------------|---|--------------------------------------|
| 1. | Dr. Lucio C. Tan | – | Executive Director (Chairman & CEO) |
| 2. | Carmen K. Tan | – | Non-Executive Director |
| 3. | Lucio C. Tan III | – | Non-Executive Director |
| 4. | Eduardo Luis T. Luy | – | Executive Director (President & COO) |
| 5. | Vivienne K. Tan | – | Non-Executive Director |
| 6. | Michael G. Tan | – | Non-Executive Director |
| 7. | Kyle Ellis C. Tan | – | Executive Director (Treasurer) |
| 8. | Johnip G. Cua | – | Non-Executive Director |
| 9. | Ben C. Tiu | – | Independent Director |
| 10. | Marixi R. Prieto | – | Independent Director |
| 11. | Samuel C. Uy | – | Independent Director |

Dr. Lucio C. Tan, Mrs. Carmen K. Tan, Mr. Lucio C. Tan III, Mr. Eduardo Luis T. Luy, Ms. Vivienne K. Tan, Mr. Michael G. Tan, Mr. Kyle Ellis C. Tan and Mr. Johnip G. Cua were formally nominated to the Corporate Governance Committee of the Corporation by a stockholder, Ms. Charmaine Pacleb.

Mr. Ben C. Tiu, Ms. Marixi R. Prieto and Mr. Samuel C. Uy, incumbent independent directors, were nominated as independent directors by Mr. Ike Tom Tolentino for the ensuing year. Mr. Tolentino is not related to any of the nominees for independent directors.

The Corporation has adopted the requirements under SRC Rule 38 (Requirements on Nomination and Election of Independent Directors) and compliance with such Rule has been made.

Guidelines on the Nomination and Election of Independent Directors

- A. Independent director means a person who is independent from the management and controlling stockholders, and is free from any business or other relationship which could, or could reasonably be perceived to, materially interfere with his exercise of independent judgment in carrying out his responsibilities as a director in any covered company and includes, among others, any person who:
1. Is not, or has not been a senior officer or employee of the Corporation, unless there has been a change in the controlling ownership of the Corporation;
 2. Is not, and has not been in the three years immediately preceding the election, a director of the Corporation; a director, officer, employee of the Corporation's subsidiaries, associates, affiliates or related companies; or a director, officer, employee of the Corporation's substantial stockholders and its related companies, except if he also serves as an independent director of the Corporation's subsidiaries, associates, affiliates or related companies;
 3. Is not an owner of more than two percent (2%) of the outstanding shares of the Corporation, its subsidiaries, associates, affiliates or related companies;
 4. Is not a relative of a director, officer, or substantial stockholder of the Corporation or any of its related companies or of any of its substantial stockholders. For this purpose, relatives include spouse, parent, child, brother, sister and the spouse of such child, brother or sister;
 5. Is not acting as a nominee or representative of any director of the Corporation or any of its related companies;
 6. Is not a securities broker-dealer of listed companies and registered issuers of securities. "Securities broker-dealer" refers to any person holding any office of trust and responsibility in a broker-dealer firm, which includes, among others, a director, officer, principal stockholder, nominee of the firm to the Exchange, an associated person or salesman, and an authorized clerk of the broker or dealer;
 7. Is not retained, either in his personal capacity or through a firm, as a professional adviser, auditor, consultant, agent or counsel of the Corporation, any of its related companies or substantial stockholder, or is otherwise independent of Management and free from any business or other relationship within the three years immediately preceding the date of his election;
 8. Does not engage or has not engaged, whether by himself or with other persons or through a firm of which he is a partner, director or substantial stockholder, in any transaction with the Corporation or any of its related companies or substantial stockholders, other than such transactions that are conducted at arm's length and could not materially interfere with or influence the exercise of his independent judgment;

9. Is not affiliated with any non-profit organization that receives significant funding from the Corporation or any of its related companies or substantial stockholders; and
10. Is not employed as an executive officer of another company where any of the Corporation's executives serve as directors.

Related companies, as used in this section, refer to (a) the Corporation's holding/parent company; (b) its subsidiaries; and (c) subsidiaries of its holding/parent company.

- B. No person convicted by final judgment of an offense punishable by imprisonment for a period exceeding six (6) years, or a violation of the SRC, committed within five (5) years prior to the date of his election, shall qualify as an independent director. This is without prejudice to other disqualifications provided for in the Corporation's Manual on Corporate Governance.
- C. Any controversy or issue arising from the selection, nomination or election of independent directors shall be resolved by the SEC through the appointment of independent directors from the list of nominees submitted by the stockholders.
- D. Qualifications and Disqualifications
 1. An independent director shall have the following qualifications:
 - (i) He shall be at least a college graduate or have sufficient knowledge, skills, and experience, (and independence of mind in case of non-executive directors) in managing the business to substitute for such formal education;
 - (ii) He shall be at least twenty-one (21) years old;
 - (iii) He shall have been proven to possess integrity and probity;
 - (iv) He shall have the ability to promote smooth interaction between board members;
 - (v) He shall be assiduous;
 - (vi) He shall have sufficient time to carry out his responsibilities.
 2. No person disqualified, either permanently or temporarily, under the Corporation's Manual on Corporate Governance shall be allowed to serve as an independent director.

E. Number of Independent Directors

1. The Corporation shall have at least three (3) independent directors, or such number of directors such that they constitute at least one-third (1/3) of the members of the Board of Directors, whichever is higher. The nomination and election of independent directors shall be in accordance with the Amended By-Laws of the Corporation.

F. Nomination and Election of Independent Director/s

1. The nomination of independent directors shall be conducted by the Corporate Governance Committee prior to the stockholders' meeting. All recommendations shall be signed by the nominating stockholders together with the acceptance and conformity by the would-be nominees.

2. The Committee shall pre-screen the recommended nominees for qualifications and disqualification, and thereafter prepare a final list of all candidates. The Committee shall put in place screening policies and parameters to enable it to effectively review the qualifications of the nominees for independent directors.
 3. After the nomination, the Committee shall prepare a Final List of Candidates which shall contain all the information about all the nominees for independent directors, as required under Part IV(A) and (C) of Annex "C" of SRC Rule 12.
 4. Only nominees whose names appear on the Final List of Candidates shall be eligible for election as Independent Director/s. No other nominations shall be entertained after the Final List of Candidates shall have been prepared. No further nominations shall be entertained or allowed on the floor during the actual annual stockholders'/memberships' meeting.
 5. Election of Independent Director/s
 - (i) The conduct of the election of independent director/s shall be made in accordance with the standard election procedures of the Corporation or its by-laws.
 - (ii) It shall be the responsibility of the Chairman of the Meeting to inform all stockholders in attendance of the mandatory requirement of electing independent director/s. He shall ensure that an independent director/s is elected during the stockholders' meeting.
 - (iii) Specific slot/s for independent directors shall not be filled-up by unqualified nominees.
 - (iv) In case of failure of election for independent director/s, the Chairman of the Meeting shall call a separate election during the same meeting to fill up the vacancy.
- G. Independent Directors are only allowed to serve for a maximum cumulative term of nine (9) years. After which, the independent director is perpetually barred from re-election as such.

An independent director barred from re-election as such may continue to qualify for nomination and election as a non-independent director.

In the event that the Corporation wants to retain the independent director after serving nine (9) years, the Board should provide meritorious justification/s and seek the approval of the stockholders in the Annual Stockholders' Meeting.

3. Significant employee

Ronald Ron D. Dimatatac. Mr. Dimatatac, 31, Filipino, Certified Public Accountant (CPA) and Real Estate Broker and Appraiser has served as Financial Accountant since August 2018. He worked with SyCip Gorres Velayo & Co. (SGV & Co.) from September 2014 to September 2016 as an Assurance Associate and Senior Assurance Associate from October 2016 to July 2018.

4. Family Relationships

Dr. Lucio C. Tan, Chairman and CEO, is the husband of Ms. Carmen K. Tan, incumbent director; is the father of Ms. Vivienne K. Tan and Mr. Michael G. Tan, incumbent

directors. Eduardo Luis T. Luy, President and COO, Kyle Ellis C. Tan, Treasurer and Lucio C. Tan III, incumbent directors, are grandsons of Dr. Lucio C. Tan.

5. Involvement in Certain Legal Proceedings

None of the directors, nominees for election as director, executive officers or control persons of the Corporation have been involved in any legal proceeding being the subject of any (a) bankruptcy petition, (b) conviction by final judgment in a criminal proceeding, domestic or foreign, or a pending criminal proceeding, domestic or foreign, excluding traffic violations and other minor offenses, (c) order, judgment or decree of any court of competent jurisdiction, domestic or foreign, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities, commodities or banking activities, which is not subsequently reversed, suspended or vacated, or (d) judgment of violation of a securities or commodities law or regulation by a domestic or foreign court of competent jurisdiction (in a civil action), the SEC or comparable foreign body, or a domestic or foreign exchange or other organized trading market or self-regulatory organization, which has not been reversed, suspended or vacated, for the past five (5) years up to the latest date that is material to the evaluation of his ability or integrity to hold the relevant position in the Corporation.

During the last two (2) years, the Corporation has not had any transaction or proposed transaction in which any director, executive officer, nominee or stockholder had a direct or indirect interest.

6. Certain Relationships and Related Transactions

The Company is committed to serve and protect the interests of its stockholders, management, employees, government regulatory agencies and stakeholders. Guided with a well-defined corporate governance structure, it will continue to do business with the principles of integrity, objectivity, accountability, and transparency.

It is the obligation of every member to declare and divulge in writing his own involvement in any conflict of interest with the company.

In 2022, none of the Company's directors entered into self-dealing and related party transactions involving the Company.

For a detailed discussion of our material related party transactions, see Note 18 of the MacroAsia Group's Notes to Consolidated Financial Statements (pages 62-65).

- a. Part of the Group's excess cash are deposited in savings and current accounts and placed with Philippine National Bank, an affiliated company under common control, at very competitive rates and based on the outstanding cash balance at the end of the interest earning period. MacroAsia Corporation also leases the office space it currently occupies from the said bank at the bank's current prevailing rental rate. MacroAsia Mining Corporation also entered into a five-year lease contract with Philippine National Bank (formerly Allied Banking Corporation) for its office space starting January 1, 2021. The Parent Company and its subsidiaries have not been given any preferential treatment in any of its transactions with the bank and continues to lease the office space under the last term and condition.
- b. MAPDC, as an ecozone operator, leases land from MIAA and subsequently leases the same to its Ecozone locators which include LTP, an affiliate. The rental charge, which is at normal market rate, is subject to a fixed price escalation and deposit. Monthly

fees due from LTP are equivalent to MAPDC's cost of leasing the land from MIAA, plus administrative fees. In Cebu, LTP has assigned its lease agreement with MCIAA to MAPDC for MAPDC to administer and sublease. The arrangement is similar to the lease setup between MAPDC and LTP in the MacroAsia Ecozone in Pasay City, except that for Cebu, it will be a lease pass-on arrangement. MAPDC has outstanding advances to WBSI, CBRI, PWBRI, MPRDC, SNVRDC, BTSI and NAWASCOR which were eliminated in the consolidation process.

- c. MASCORP provides ground handling services to various airline companies at NAIA and MCIA, including Air Philippines, an affiliate under common control. In September 2011, MASCORP started providing ground handling services to Philippine Airlines (PAL), an affiliated company under common control. The ground handling service rates being charged to Air Philippines and PAL are competitive and were the results of negotiations between the companies. MASCORP bills LTP for ground handling services rendered on behalf of its clients. MASCORP also leases ground-handling equipments from PAL and pays AirPhil (PALEx) for its shares on the rental and utilities in NAIA.
- d. In September 2011, MACS started providing some catering services to PAL under competitive rates. MACS also leases airline catering equipment from PAL. Subsequently, MACS formed MSIS, as a fully-owned subsidiary to be the dedicated service provider for PAL. In March 2019, MSIS took over the operation and management of PAL's Inflight Kitchen from a third-party contractor. The Parent Company and its subsidiaries have a trust fund for the employees' retirement plan with Philippine National Bank (formerly Allied Bank Corporation) as the fund manager. The Group has not been given any preferential treatment in any of its transactions with the Bank.
- e. There are no other on-going contractual or other commitments between the Group and the aforementioned affiliates.
- f. There are no other material transactions with and/or dependence on related parties not discussed above and in the Notes to Consolidated Financial Statements.

There are no other parties that fall outside the definition of "related parties" under Philippine Accounting Standards (PAS) 24 with whom the Corporation or its related parties have a relationship that enabled the parties to negotiate terms of material transactions which would otherwise not have been available from others or independent parties on an arm's length basis.

7. Commercial relations between holders of significant equity (5% or more)

PAL Holdings, Inc. (formerly Baguio Gold Holdings Corp.) (7.10%), Conway Equities, Inc. (6.87%) and Pan Asia Securities Corporation (5.53%) own more than 5% of the total outstanding common stock of the Corporation.

8. Resignation of Directors

No director has resigned or declined to stand for re-election to the board of directors since the date of the last Annual Stockholders' Meeting (May 12, 2022) due to disagreement with the Corporation on any matter relating to the Corporation's operations, policies or practices.

Item 6. Compensation of Directors and Executive Officers

(a) Executive Compensation:

The following table summarizes the actual aggregate compensation of all directors and officers of the Corporation for 2021 and 2022, as well as the estimated aggregate compensation for the year 2023:

Summary Compensation Table

Name and Principal Position	Year	Salaries (P'mil)	Bonus	Other Annual Compensation*
Four (4) Most Highly Compensated Executive Officers <ul style="list-style-type: none"> • Lucio C. Tan, Chairman/CEO¹ • Joseph T. Chua, President / COO until October 8, 2021 • Eduardo Luis T. Luy, President / COO starting October 8, 2021 • Atty. Marivic T. Moya, SVP-Human Resources, Legal and External Relations, Chief Compliance Officer/Corporate Information Officer • Amador T. Sendin, Chief Financial Officer, Chief Risk Officer, SVP-Administration • Belgium S. Tandoc, Data Protection Officer, VP-Business Development² • 	2021 (Actual)	32.0	2.3	42.3
	2022 (Actual)	28.2	4.5	2.4
	2023 (Estimated)	28.7	16.9	3.6
Directors	2021 (Actual)	-	-	6.50
	2022 (Actual)	-	-	5.9
	2023 (Estimated)	3.4	1.4	1.5
All Other Officers - Unnamed	2021 (Actual)	0.91	0.07	1.33
	2022 (Actual)	-	-	2.7
	2023 (Estimated)	3.4	1.4	1.5

*Includes Per Diem of Director

¹ One (1) of the Four (4) Most Highly Compensated Executive Officers in 2023 only

² One (1) of the Four (4) Most Highly Compensated Executive Officers in 2021 and 2022

(b) Compensation of Directors

- In accordance with the Corporation's By-laws, members of the Board do not receive any regular compensation from the Corporation, except for per diems for every regular or special Board meeting, or committee meeting actually attended. For their attendance at the said meetings, members of the Board of Directors receive a per diem ranging from ₱30,000 to ₱200,000.

2. The Corporation's By-Laws also specify that the directors are entitled to additional compensation in an aggregate amount not exceeding five percent (5%) of the Corporation's net profit before tax. This variable pay plan for the Board of Directors was implemented starting 2005 in accordance with a performance-based schedule and such additional pay for the Board is contingent entirely on the financial results of the Group.

There are no material terms of, nor any other arrangements with regard to compensation as to which directors are compensated, or are to be compensated, directly or indirectly, for any services provided as a director other than those specified in the By-laws.

(c) **Employment Contracts and Termination of Employment and Change-in-Control Arrangements.**

1. Executive officers' compensation consists of a monthly negotiated salary, a fixed monthly allowance, and 13th month pay. Since 2005, a performance-based incentive plan has also been authorized for officers and staff, resulting in additional variable pay which may or may not occur in a reporting year, depending on the Corporation's audited results from its operations.
2. There are no other compensatory plans or arrangements with the named executive officers, which result or will result from the resignation, retirement or any other termination of the executive officer's employment with the Corporation and its subsidiaries or from a change-in-control of the Corporation or a change in the named executive officer's responsibilities following a change-in-control.

(d) **Warrants and Options Outstanding**

The Corporation has no outstanding warrants and options.

Item 7. Independent Public Accountants

- (a) SyCip Gorres Velayo & Co. (SGV) will be recommended to security holders as the Corporation's independent public accountants for the current year (2023). SGV was the Corporation's external auditor for the previous year. SGV has already implemented SRC Rule 68 paragraph 3(b)(iv) which requires the rotation of assignments of audit engagement partners every five (5) years.
- (b) There were no changes in, nor disagreements with, SGV during the last three (3) years or any subsequent interim periods.
- (c) Representatives of the independent public accountants are expected to be present at the Annual Stockholders' Meeting. They will have the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions.
- (d) The Audit Committee reviewed, evaluated and approved the policies and procedures for the professional services rendered by SGV. The Corporation's Audit Committee is composed of Mr. Johnip G. Cua, as Chairman, with Messrs. Lucio C. Tan III, Michael G. Tan, Ben C. Tiu, Samuel C. Uy, and Ms. Marixi Prieto, as members.

Item 8. Retirement Plan

The Group's retirement plan covers substantially all of its regular employees and provides benefits based on years of service and compensation on the last year of employment. (For additional details on retirement benefits plan, refer to Notes 18 and 21 of the attached Notes to the Financial Statements on Related Party Transactions and Retirement Benefits, respectively.)

There are no agreements between the Group and any of its directors and executive officers providing for benefits upon termination of employment, except for such benefits to which they may be entitled under the Group's retirement plan.

C. ISSUANCE AND EXCHANGE OF SECURITIES

Item 9. Authorization or Issuance of Securities Other than for Exchange

There are no matters or actions to be taken up in the meeting with respect to the authorization or issuance of securities.

Item 10. Modification or Exchange of Securities

There are no matters or actions to be taken up in the meeting with respect to the modification of the Corporation's securities or the issuance of authorization for issuance of one class of the Corporation's securities in exchange for outstanding securities of another class.

Item 11. Financial and Other Information

- (a) The audited consolidated financial statements of the Group as of December 31, 2022 and 2021, and Management's Discussion and Analysis are attached hereto as Annex C. The Group's Market Price of Shares and Dividends and other data related to the Corporation's financial information are attached hereto as Annex D. The Schedules required under Part IV (e) of Rule 68 are included in the Annual Report (SEC Form 17-A).
- (b) The consolidated financial statements of the Group have been prepared under the historical cost method, except for available-for-sale (AFS) investments, which are carried at fair value.

Item 12. Mergers, Consolidations, Acquisitions and Similar Matters

There are no matters or actions to be taken up in the meeting with respect to merger, consolidation, acquisition by, sale or liquidation of the Corporation.

Item 13. Acquisition or Disposition of Property

There are no matters or actions to be taken up in the meeting with respect to acquisition or disposition of any property by the Corporation.

Item 14. Restatement of Accounts

The consolidated financial statements of the Group have been prepared in compliance with the Philippine Financial Reporting Standards (PFRS).

The accounting policies adopted are consistent with those of the previous financial year except for the adoption of new accounting pronouncements starting January 1, 2022. See Note 2 – Summary of Significant Accounting and Financial Reporting Policies of the attached Notes to the Consolidated Financial Statements for a more detailed discussion (pages 2-29).

There are no matters or actions to be taken up in the meeting with respect to the restatement of any asset, capital, or surplus account of the Group.

D. OTHER MATTERS

Item 15. Action with Respect to Reports

The Board of Directors of the Corporation recommends a vote for confirmation, ratification and approval of the following matters:

1. Approval of the Minutes of the Annual Stockholders' Meeting held on May 12, 2022

The minutes of the Annual Stockholders' Meeting held on May 12, 2022 (pages 63 to 83) will be submitted for approval of the stockholders. A copy of the minutes of the Minutes of the 2022 Annual Stockholders' Meeting is attached hereto.

The minutes of the May 12, 2022 Annual Stockholders' Meeting contain the following items:

- i. Call to Order
- ii. Certification of Notice
- iii. Meeting Procedures
- iv. Certification of Quorum
- v. Approval of the Minutes of the Annual Stockholders' Meeting held on 17 July 2020
- vi. Presentation of 2020 Annual Report and Financial Report
- vii. Approval of the Annual Report and the Audited Financial Statements for the year ended 31 December 2020
- viii. Ratification of all Acts, Proceedings and Resolutions of the Board of Directors and Management since the 2020 Annual Stockholders' Meeting up to 13 May 2021
- ix. Election of Directors
- x. Appointment of External Auditor
- xi. Other Matters
- xii. Adjournment

The minutes of the Annual Stockholders' Meeting ("ASM") held on May 12, 2022 contains the following information:

- a. List of directors and officers who attended the ASM;
- b. A description of the voting and vote tabulation procedures used during the ASM;
- c. Matters discussed and resolutions adopted;
- d. A record of the voting results for each agenda item; and
- e. A description of the opportunity given to the stockholders to ask questions

2. Approval of President's Report and the Audited Financial Statements

The President's Report and the Corporation's Audited Financial Statements as of December 31, 2022 will be presented to the stockholders for approval.

Stockholders shall be furnished copies of the above-mentioned reports/minutes on or before the date of the Annual Stockholders' Meeting.

The President's Report will apprise the shareholders of developments during the past year and provide highlights for the ensuing year.

Item 16. Matters not required to be submitted

All matters or actions to be taken up in the meeting require the vote of the security holders.

Item 17. Amendment of Charter, By-laws or Other Documents

There are no matters or actions to be taken up in the meeting with respect to amendment of charter, by-laws, and other documents.

Item 18. Other Proposed Actions

- (a) Ratification/Approval of all other acts and resolutions of the Board of Directors duly adopted in the normal course of trade or business, such as election of directors, appointment of officers and external auditors, filing of cases, opening of bank accounts, execution of contracts, procurement of loans, sale and/or acquisition of assets and applications for permits and incentives.
- (b) There are no other acts and resolutions of the Board of Directors from May 12, 2022 up to the present that need ratification.

Item 19. Voting Procedures

- (a) Vote Required for Approval of Matters/Election of Directors:
 - Approval of Minutes of Previous Stockholders' Meeting - majority vote
 - President's Report - majority vote
 - Financial Report on Results of Operations for 2022 – majority vote
 - Audited Financial Statements - majority vote
 - Ratification/Approval of all Acts and Resolutions of the Board of Directors - majority vote
 - Election of Directors - The eleven (11) nominees with the highest number of votes will be elected directors.
 - Appointment of External Auditors - majority vote.
- (b) Method By Which Votes Will Be Counted

The Company's By-laws does not prescribe a specific manner of voting by stockholders. For this year's Annual Stockholders' Meeting, the Board of Directors approved a resolution allowing stockholders to participate in the meeting via remote communication and to vote *in absentia* or by proxy.

Stockholders as of Record Date who have successfully registered their intention to participate in the annual meeting via remote communication and to vote *in absentia*, duly verified and validated by the Corporation, shall be provided with unique log-in credentials to securely access the voting portal.

Stockholders and proxy holders can then cast their votes on specific matters for approval, including the election of directors. Each common share shall be entitled to one vote. The votes of the stockholders or proxy holders must be cast on or before May 5, 2023.

Total votes cast shall be accounted for/tabulated manually during the meeting. Only the Corporate Secretary and staff of Stock and Transfer Agent are the persons authorized to count the votes.

Pursuant to the Corporation's By-laws, duly accomplished proxy forms must be submitted to the Corporate Secretary at least ten (10) business days before opening of the annual meeting. Duly accomplished proxies must be submitted via email to macasm@macroasiacorp.com, not later than April 26, 2023. A sample format of the proxy form for individual, corporate stockholder and PCD participants/brokers is hereto attached as part of the *Guidelines for Participating via Remote Communication and Voting In Absentia* and are also available at the Corporation's website at <http://www.macroasiacorp.com/asm>.

The Corporate Secretary will lead the validation of proxies, in coordination with the Corporation's stock and transfer agent. Any questions and issues relating to the validity and sufficiency of proxies, both as to form and substance, shall be resolved by the Corporate Secretary. The Corporate Secretary's decision shall be final and binding on the stockholders, and those not settled at such forum shall be deemed waived and may no longer be raised during the meeting.

The detailed guidelines for participation and voting for this meeting are set forth in the "Guidelines for Participating via Remote Communication and Voting *in Absentia*" on pages 91-93.

UNDERTAKING

Upon written request of the stockholders, the Corporation undertakes to furnish a copy of SEC Form 17-A free of charge. Any written request for a copy of SEC Form 17-A shall be addressed to the following:

**MACROASIA CORPORATION
12th Floor PNB Allied Bank Center
6754 Ayala Avenue, Makati City**

**Attention: Ms. Gladys Lorraine S. Pastrana
Assistant Compliance Officer/
Investor Relations Officer**

At the discretion of management, a charge may be made for exhibits, provided such charge is limited to reasonable expenses incurred by the Corporation in furnishing such exhibits.

(since 2016).

Atty. Herrera holds a Bachelor of Arts in Political Science degree and a Bachelor of Laws degree (Cum Laude, Salutatorian) both from the University of the Philippines.

ANNEX B – NATURE AND SCOPE OF BUSINESS

Originally under the name Infanta Mineral & Industrial Corporation, MacroAsia Corporation (the Parent Company or MAC) was incorporated in the Philippines on February 16, 1970 to engage in the business of geological exploration and development. As a mining firm, it had exported to Japan, nickel ore from its mine in Brooke's Point, Palawan during the 1970's. On January 26, 1994, its Articles of Incorporation was amended to change its primary purpose from geological exploration and development to that of engaging in the business of a holding company and to change its corporate name to Cobertson Holdings Corporation. On November 6, 1995, the SEC approved the amendment to the Company's Articles of Incorporation to change its name from Cobertson Holdings Corporation to its present name, MacroAsia Corporation.

In June 1996, the Parent Company incorporated two of its 100% wholly-owned subsidiaries namely: MacroAsia Properties Development Corporation (MAPDC), which operates the only special economic zone at the Ninoy Aquino International Airport (NAIA) and MacroAsia Air Taxi Services, Inc. (MAATS), which provides helicopter chartering services. The Company started its first in-flight catering business in August of 1996 through its associate - Cebu Pacific Catering Services, Inc. (CPCS), the only full-service airline catering company in Mactan-Cebu International Airport (MCIA) today. By November 1996, the Company incorporated its second in-flight catering venture, MacroAsia Catering Services, Inc. (MACS), which is the dominant caterer of foreign airlines in NAIA since it operated in 1998. Another subsidiary, MacroAsia Airport Services Corporation (MASCORP) was incorporated in 1997 to service the ground handling requirements of commercial passenger, cargo and military aircrafts.

Lufthansa Technik Philippines, Inc. – A Joint Venture with MacroAsia Corporation (LTP), an associate, was incorporated in December 1999, to do aircraft maintenance, repair and overhaul (MRO) in NAIA. With its facilities, LTP is a globally competitive company offering aircraft and engine maintenance, repair, and overhaul in the Philippines, with airline clients from almost all parts of the world.

MacroAsia Mining Corporation (MMC), another wholly owned subsidiary, was incorporated on September 25, 2000 to be an institutional vehicle through and under which the business of a mining enterprise may be explored, established, operated and maintained.

In 2016, MAC started to enter into water business in different locations outside Manila through its subsidiary, MAPDC. SNV Resources Development Corporation (SNVRDC) was established to complete waterworks system in Solano, Nueva Vizcaya, started operations in March 2016. In December 2016, MADPC acquired 67% of Boracay Tubi System, Inc. (BTSI), one of two current water concessionaires in Boracay Island. In August 2017, MAPDC acquired 100% of Naic Water Supply Corporation (NAWASCOR), a water utility company in Naic, Cavite.

MAC established a new business segment to support the growing demand for pilots through First Aviation Academy, Inc. (FAA). This company was incorporated in December 2017 to establish a training and skills assessment center for aviation professionals. Inauguration of FAA was held in February 2019 and started its first class in May 2019.

In October 2018, a subsidiary of MAC, Allied Water Services, Inc. (AWSI), formerly Airport Specialists' Services Corporation, acquired 60% of Summa Water Resources, Inc. (Summa) which operates in Bulacan and Albay. Summa's 40% owned subsidiary, Citicore Summa Water Corporation operates in Iloilo. Also, in July 2019, AlliedKonsult Eco-Solutions Corporation (AlliedKonsult), 51% owned by AWSI was incorporated to engage in construction of sewage and septage treatment plants and facilities including related collections, treatment and disposal services. In addition, in September 2019, Cavite AlliedKonsult Services Corporation, 100% owned by AlliedKonsult was incorporated to engage in construction of sewage and septage treatment plants and facilities including related collections, treatment and disposal services.

On March 16, 2019, MacroAsia Group took over Philippine Airlines' ground handling (through MASCORP) and catering requirements (through MacroAsia SATS Inflight Services Corporation (MSIS). Also, in March 2019, MacroAsia SATS Food Industries Corporation (MSFI) started producing meals for institutional clients.

On November 5, 2019, MAC has set its first footprint outside the Philippines through a partnership with Konoike Transport Co., Ltd. (Konoike). MAC acquired a 30% stake in Japan Airport Service Co. Ltd. (JASCO), while a 20% stake in MASCORP was acquired by Konoike. This expands the ground handling business of the MacroAsia Group.

On February 11, 2021, MAC incorporated Tera Information and Connectivity Solutions, Inc. (TICS) primarily to provide information management and data connectivity, including radio trunking and other services.

In 2022, MAC continued to operate mainly through its eight (8) subsidiaries and three (3) affiliates, as fully discussed below.

MacroAsia Catering Services, Inc.

MacroAsia Catering Services, Inc. (MACS) was incorporated on November 5, 1996, then with a corporate name of MacroAsia-Eurest Catering Services, Inc. (MECS), to primarily provide in-flight catering services in NAIA. When MACS started commercial operations on September 1, 1998, it was a joint venture between MacroAsia Corporation (67%) and two foreign partners: SATS Ltd. (then known as Singapore Airport Terminal Services at 20%) and Compass Group International B.V. (then known as Eurest International B.V., at 13%). By mutual agreement of the three JV partners, a sale and purchase agreement with Compass Group International B.V. was executed on June 28, 2006 whereby MAC acquired the 13% shareholdings of the Compass Group. Since then, MACS continued to operate as a joint venture between MAC (80%) and SATS (20%). In the same year, the Board of Directors of MACS decided to change its company name to MacroAsia Catering Services Inc. On September 14, 2015, MAC signed a deed of absolute sale covering the assignment and transfer of part of its MACS' stake (13%) to SATS Ltd., thus changing the ownership structure in MACS to 67% MAC and 33% SATS.

MACS' in-flight kitchen facility is situated in a two-hectare lot being leased from the Manila International Airport Authority (MIAA). MACS' inflight operations is based on a concession agreement with MIAA that grants the right to operate an in-flight catering service for civil and/or military aircraft operating at the NAIA and/or the Manila Domestic Airport. MACS secures such right by remitting the monthly Concessionaire's Privilege Fee (CPF) which is 7% of its gross income.

MACS consistently complies with both local and international hygiene standards and environmental regulations. MACS also holds HACCP and HALAL certificates conferred by independent and professional certifying organizations. To ensure that high standards are followed at all times, MACS maintains an in-house laboratory manned by licensed microbiologists who are capable of performing advanced testing.

Capturing 48% of the in-flight catering market based on the number of clients, MACS is the catering service provider to 16 full-service foreign carriers, freighters, VIP flights and General Aviation clients and 4 major airport lounges operating at the NAIA. MACS also has contract with several airlines to provide top-up meals and ground feeding in case of flight delays.

MACS is also providing food services management and meals to non-airline institutional clients outside NAIA. This business has grown in line with the expansion plans of MACS to go beyond its

airline catering portfolio. Because of the significant growth of this business, MACS incorporated MacroAsia SATS Food Industries Corporation (MSFI) on July 14, 2015 as a fully-owned subsidiary to operate a new food commissary near the East Service Road, Muntinlupa City, to service the food production requirements of institutional clients and to support the inflight kitchens inside NAIA. This commissary has a 25,000 meals-per-day capacity with average utilization rate of 89% or 22,300 meals per day in 2022. MSFI also caters part of the food requirements of Cebu Pacific Air and operates the cafeteria and coffee shop in the new building of SMRI located in Diokno St. Pasay City. The property for this commissary is leased from MacroAsia Properties Development Corporation and has been operational since March 26, 2019.

As part of the company's expansion, MACS incorporated MacroAsia SATS Inflight Services Corporation (MSIS) on May 16, 2016 (a fully-owned subsidiary) which started to operate the inflight catering kitchen at the PAL Inflight Center, PAL Gate 3, Baltao St. cor MIA Road, Pasay City last March 16, 2019. Pre-pandemic, the subsidiary currently provides inflight catering services for an average of 21,000 meals per day to Philippine Airlines (PAL). In 2022, MSIS produced an average of 15,000 meals per day.

MACS has been the recipient of several awards and commendations for outstanding service, besting other service providers from all over the world. Last September 2019, EVA Air presented the 2018 Excellence in Catering Award – South East Asia to MACS, this is the second consecutive year that MACS ranked no.1 among 7 stations in SEA region. In 2018, MACS ranked 4th in Qatar Airways' network-wide catering service provider evaluation program. MACS was also a recipient of the ADB SPC Excellence Award in December 2018. In 2017, MACS was recognized by Qantas (QF) for its "On-time Performance, Safety and Service Delivery" and also by Japan Airlines for being part of the "2016 Best Airport Performance Award" received by the Manila Station. Last March 2017, Singapore Airlines awarded MACS the SQ Merit Award for catering excellence for fiscal year 2015-2016, a consistent feat for several years.

MACS has a wide supplier's base, both local and international and it is not dependent on any single raw material supplier. MACS operates a bonded warehouse facility inside NAIA under a Bonded Warehouse License and monitored by a Bureau of Customs representative. Based on its quality standards, regular supplier quality audits (SQA) are conducted by MACS' Quality and Food Safety Department Officers together with Purchasing and Production Department representatives at the supplier's premises to inspect and verify the compliance to its manufacturing and supply standards.

In 2022, 2021, and 2020, MACS' sales contributions to MAC's consolidated gross operating revenues were 17%, 16% and 24%, respectively. MACS' airline clients include Air Niugini (PX), All Nippon Airways (NH), Cathay Pacific (CX), China Airlines (CI), China Eastern (MU), Eva Air (BR), Gulf Air (GF), Japan Airlines (JL), Korean Air (KE), Oman Air (WY), Qantas Airways (QF), Qatar Airways (QR), Royal Brunei (BI), Saudia Airlines (SV), Singapore Airlines (SQ) and Xiamen Airlines (MF). MACS is also the preferred caterer for VIP flights from NAIA. Pre-pandemic MACS delivered as high as 6.2 million meals in 2019, at an average production of about 17,138 meals a day and services an average of 42 international flights a day, serving more than half of the foreign airlines that fly out of Manila. In 2022, MACS' average production is 6,000 meals a day and servicing an average of 18 flights per day. This is because of the travel restrictions imposed by multiple countries to contain the spread of the COVID-19 virus.

As of December 31, 2022, MACS and its subsidiaries, MSFI and MSIS, have core manpower complement of 640 individuals, excluding the 712 staffs contracted from external providers.

MACS is not aware of any existing or probable government regulations that would have an adverse impact on its on-going operations. It has no research and development activities/costs during the last three fiscal years.

MacroAsia Airport Services Corporation

MacroAsia Airport Services Corporation (MASCORP) was incorporated on September 12, 1997 to provide, manage, promote and/or service any and all ground handling requirements of military and/or commercial aircraft for passengers and cargo. MASCORP commenced its ground handling operations on April 19, 1999 at the NAIA, and has been generating both domestic and export sales. As of December 31, 2022, its work force consisted of 3,281 organic staff and 2,898 outsourced staff or a total of 6,179 which is 58% higher compared to same period in 2021.

On June 15, 1999 the company originally signed a joint venture agreement with Ogden Aviation Philippines B.V. to expand its international resource. Ogden Aviation Philippines B.V. was subsequently acquired by Menzies Aviation Group in 2001. By April 12, 2007, MacroAsia Corporation (MAC) acquired the 30% share of Menzies making MASCORP a wholly-owned subsidiary of MAC. On November 5, 2019, Konoike Transport Co. Ltd., a leading service contracting and logistics service provider in Japan, acquired 20% shares of the Company from MAC. Thus, decreasing MAC's shareholdings to 80%.

Through its marketing efforts, coupled with the capability to offer a total aviation services product (in synergy with the catering and MRO business of MAC), and price competitiveness, MASCORP entered into new ventures in 2015. It started providing cargo services for PAL Express in Manila, apron cleaning of Lufthansa Technik Philippines' (LTP) and Philippine Airlines' (PAL) Terminal 2 ramp parking areas and ground support maintenance services for LTP in Manila, Cebu and Davao.

Aside from its current ground handling services to local and foreign clients in Manila for NAIA Terminals 1, 2, & 3, MASCORP is also operating in most key domestic destinations open to international flights to include Cebu, Kalibo, Davao, Clark, and Puerto Princesa. In 2017, its ground handling operations expanded to 17 more stations to support the operations of PALex.

The year 2018 opened doors to new opportunities for MASCORP to expand its foreign airline market share in Manila, Cebu, Clark, Kalibo and Davao. In the first half of the year, MASCORP started to handle the operations at Manila station of Jeju Air, Kuwait Airways, Turkish Airlines and Jetstar Japan and Cebu station operations of Jeju Air, Jin Air, Silk Air and Vanilla Air. Davao Station welcomed Silk air as its foreign airline client. In the last quarter of 2018, MASCORP started handling Philippine Airlines' International Flight in Cebu - Terminal 2, Air Seoul in Kalibo, Tiger Air Taiwan in Cebu and Jeju Air in Clark Station.

In the first quarter of 2019, MASCORP took over full ground handling and cargo operations for Philippine Airlines and PAL Express at NAIA Terminals 2 and 3 as well as Mactan Cebu International Airport. MASCORP has also started its service partnership with the two major foreign carriers. Qatar Airways has chosen MASCORP as its ground handling agent for its Davao operations and MASCORP also started servicing United Airlines.

The effect of the COVID-19 pandemic was felt by MASCORP as early as the first quarter of 2020. With global travel restrictions limiting flight activities, majority of its operations were forced to stop, and airline service requirements were scaled down drastically. Without any certainty on when this pandemic will end, MASCORP had to adapt to a new reality and come up with solutions to continue to safeguard the safety and well-being of its employees and passengers due to COVID-19. With the

reduction of flight activities and service requirements brought about by the COVID -19 pandemic, in order to ensure that its costs are managed, MASCORP had to put in place a retrenchment program to address labor cost issues as the decrease in flights has resulted in a surplus of manpower.

MASCORP continues to streamline its operations by keeping its workforce lean and ensuring full utilization of its resources to ensure its sustainability. While the 1st half of 2021 showed a promising uptrend on flight activities for both domestic and international sectors, the emerging threat of the highly transmissible delta variant of COVID-19 once again puts up yet another challenge to the travel industry. With 98% of its total organic workforce already inoculated as of December 31, 2021, MASCORP has given the assurance to its esteemed clients that its most important resources are protected to guarantee that its service commitments will not be compromised.

The demand for more manpower continues to increase as more flights are mounted both for Philippine Airlines and other foreign airlines clients. As of 3rd quarter of 2022, the flight activity has reached almost 85% of pre-pandemic flight levels for international travel and domestic travel has shown potential to surpass pre-pandemic flight activities. This surge in passenger movement has made a significant positive effect on MASCORP's revenues and projections shows that this will be sustained and shall continue for the rest of the year. MASCORP continues to double its efforts to comply with the service requirements and consciously endeavor to maximize cost efficiency.

MASCORP contributes 41%, 53% and 46% of the Group's total operating revenues for the year ended December 31, 2022, 2021 and 2020, respectively.

MASCORP's operations is dependent upon its concession agreements with Manila International Airport Authority (MIAA) for Manila station (Terminal 1, 2 & 3), GMR Megawide Cebu Airport Corporation (GMCAC) for Cebu station, Luzon International Premier Airport Development Corporation (LIPAD) which took over Clark International Airport Corporation (CIAC) for Clark Station, and Civil Aviation Authority of the Philippines (CAAP) for Kalibo, Davao, General Santos, Basco, Laoag, Puerto Princesa, Busuanga, San Vicente, Bacolod, Iloilo, Antique, Legazpi, Tacloban, Roxas, Butuan, Cotabato, Dipolog, Camiguin, Siargao, Zamboanga, Tawi-tawi, Cagayan De Oro, Davao. Its concessions agreement with the new stations is currently being processed with CAAP.

MASCORP secures its concessions by regularly paying the monthly Concession Privilege Fee (CPF), which is computed at 7% for MIAA (Manila Station), and CAAP (Davao Station), 7% and 10% for domestic and international flight, respectively for GMCAC (Cebu Station), and 4.9% for LIPAD (Clark Station), of the monthly gross revenues on both domestic and international services.

MASCORP is not aware of any existing or probable government regulations that would have an adverse effect on its business. Given the nature of its business, it has no research and development activities during the last three fiscal years.

MacroAsia Air Taxi Services, Inc.

MacroAsia Air Taxi Services, Inc. (MAATS) is a wholly-owned subsidiary of MAC which was incorporated in June of 1996. MAATS is a licensed, non-scheduled domestic flight operator providing helicopter chartering services from its base at the General Aviation Area, Manila Domestic Airport to any point within the Philippines. The Company has five (5) regular employees as of December 31, 2021.

MAATS started commercial operations in October 1996 utilizing its Ecureuil AS350-B2, a 5-passenger rotary aircraft for its flight operations. In August 22, 2016, MAATS suffered the fortuitous

unfortunate incident of losing its helicopter and crew in one flight mission hampered by unforeseen weather conditions. This tragic event halted MAATS' charter operations temporarily, and kept the revenue source as solely coming from FBO ground handling services.

Since January 2013, MAATS has added to its service portfolio the provision of services for Fixed-Based Operations (FBO), mainly to support the maintenance, repair, overhaul (MRO) clients of Lufthansa Technik Philippines. FBO work entails the provision of airport solutions or logistical support, facilitating and securing all the necessary permits for a smooth and trouble-free entry and exit of MRO flights. The airport solutions provided by MAATS enhances the marketing of LTP-Manila as an attractive MRO station for foreign airlines.

Today, MAATS has continued to focus on FBO services, rather than helicopter chartering.

There are no existing or probable government regulations that may have an adverse effect on MAATS operations. MAATS did not incur any research and development expenditures during the last three fiscal years.

MacroAsia Properties Development Corporation

MacroAsia Properties Development Corporation (MAPDC), another wholly owned subsidiary, was incorporated on June 4, 1996 to primarily engage in the acquisition, development and sale of real properties. After it completed its first infrastructure project in 1997 and following the Asian economic crisis, the company suspended pursuing further property development projects as a core business and refocused its efforts on aviation-support activities.

On August 31, 2000, MAPDC was registered as an Economic Zone (Ecozone) Developer/Operator with the PEZA. As such, it enjoyed tax incentives. It restarted commercial operations on the same date, this time as the ecozone developer/operator of the 23-hectare MacroAsia Special Ecozone at the NAIA, with LTP as its anchor locator for the next 25 years. LTP is an associated company of MAPDC as LTP is 49% owned by MAC.

MAPDC has a 25-year lease covering the 23-hectare property occupied by the Ecozone with the Manila International Airport Authority (MIAA). Today, the MacroAsia Special Ecozone is the only operational ecozone at the NAIA.

The MacroAsia Special Ecozone is presently managed by a lean team of core employees. The support services needed to maintain the ecozone are provided by contracted local service providers. Early in 2014, MAPDC acquired a 3-storey building near the East Service Road close to the Sucat Toll area in Muntinlupa City, which was developed and leased out as the commissary for food services to non-airline clients.

In 2015, MAPDC has entered into 2 long-term lease agreements with Mactan Cebu International Airport Authority for a total of 4.3 hectares inside the airport. Also in 2015, LTP assigned its leased area inside the Mactan Cebu International Airport to MAPDC, comprising 2.7-hectares of developed land proximate to MAPDC's new leased areas in the airport. On October 2, 2018, 5 hectares of these leased areas was approved and designated as a special ecozone for aviation-related services, to be known as MacroAsia Cebu Special Ecozone.

MAPDC serves as the vehicle for the entry of the Group into water services like bulk water supply or commercial retail of treated surface water in selected localities. Starting 2012, MAPDC has ventured into projects in various provinces outside of Metro Manila. One project entails the treatment of surface water from the Magat River in Cagayan Valley, and the piped distribution of the treated

water to the homes of residents in the town of Solano, Nueva Vizcaya. To implement this project, MAPDC formed a 100%-owned subsidiary, SNV Resources Development Corporation (SNVRDC). Its commercial operations started in the first quarter of 2016. In December 2, 2016, MAPDC acquired 67% of Boracay Tubi System, Inc. (BTSI), one of the two water service providers in Boracay Island, Aklan. Geared toward building its water business segment, this was followed by the 100% acquisition of Naic Water Supply Corporation (NAWASCOR) in August 2017. NAWASCOR is a water utility company in Naic, Cavite which started its operations in 2003. In November 2020, MAPDC's NAWASCOR entered into a joint venture agreement with Maplecrest Group, Inc. (49% ownership) and incorporated Aqualink Resources Development, Inc. (ARDI) for a joint water project in Cavite. Aqualink started its operations in June 2021. Also in 2021, the construction of the 5MLD Water Treatment Plant for the Maragondon, Cavite Bulk Water Project was completed.

For the past three years, MAPDC's contributes minimal administrative revenues in effect of PFRS 16, while the water companies under MAPDC contributed 11% in 2022.

As of December 31, 2022, MAPDC has 21 regular employees and 34 outsourced staffs.

MAPDC is subject to PEZA rules and regulations and is not aware of any other existing or probable government regulations that may have any adverse effects on its business. MAPDC does not have any other significant agreements or patents, copyrights, licenses, franchises, concessions, or royalty agreement. It did not incur any research and development costs during the last three fiscal years.

First Aviation Academy, Inc.

First Aviation Academy Inc, (FAA) was incorporated on December 5, 2017 and has its training facility established and inaugurated in March 2019 in Subic Bay International Airport as an aviation career and resource center. Its business model was built on addressing the forecast shortage of professional pilots not only in the Philippines but worldwide. FAA is a joint venture flight school between MACroAsia (51%) and PTC Holdings Corporation (49%).

Initially, FAA will provide ab initio pilot training, certification and aviation-related career development courses. Each graduate pilot will be a certified holder of a Private Pilot License (PPL), an Instrument Rating (IR), a Multi-Engine Rating (MER) and a Commercial Pilot License. They shall also be given an introductory course on Airline Transport Pilot Training (ATPT) that will guide them to their career goal of becoming professional airline pilots. Top graduates will also have a chance to become Flight Instructors (FI), providing a unique way to build up their flying hours while honing their instructor skills.

Other main features that set FAA apart from other flying schools in the country are its fleet of relatively brand new TECNAM Planes with full glass cockpit electronics instrumentation and the 2-brand new Redbird MCX simulators, the Redbird CE510 Citation Mustang, the TD2 G-1000 Trainers and the Redbird SD/CL Simulator. In June 2021, FAA has purchased 9 Cessna 172 planes and 1 Redbird Flight Simulator from the former Philippine Air Lines Aviation School (PALAV) to augment its fleet. Five (5) of these Cessna planes are equipped with glass cockpit instrumentation, known as the Garmin 1000. A newly built ATPT Sim trainer is also an added advantage in the FAA training program, wherein the student's knowledge and skills in flying the sophisticated Airbus planes will be enhanced in anticipation for their entry to Type Rating Course before becoming a full-pledged airline pilot. With bigger number of assets, FAA is able to train more pilots and become a major resource provider in aviation industry.

As of December 31, 2022, FAA has 73 pilot trainees and a workforce of 25 employees including 3 outsourced staffs.

FAA is compliant with DOH and CAAP safety and health protocols for operation during the ECQ. There are no existing or probable government regulations that may have an adverse effect on FAA operations. FAA did not incur any research and development expenditures during the last three fiscal years.

Allied Water Services, Inc.

On July 2, 1999, Airport Specialists' Services Corporation (ASSC), initially a wholly-owned subsidiary of MASCORP, was incorporated primarily to manage and to promote, service and/or provide manpower support for any and/or all ground handling requirements of private, military and/or commercial aircraft. ASSC commenced operations immediately after its incorporation but had ceased operations shortly thereafter. Toward the end of 2006, MAC acquired MASCORP's 100% ownership in ASSC. The effective ownership of MAC in ASSC was thus increased from 70% to 100%. Through the restructuring, the Company effectively acquired the 30% minority interest of Menzies Aviation Group in ASSC. Consequently, ASSC became a direct subsidiary of MAC.

Incorporated primarily as an aviation-support entity, ASSC was converted into a water holding company under the new name, Allied Water Services, Inc. (AWSI) on August 22, 2019. AWSI will establish, maintain and operate waterworks systems for potable water supply and/or wastewater treatment systems. Currently, there are two subsidiaries under AWSI namely, Summa Water Resources, Inc. (SWRI), and AlliedKonsult Eco-Solutions Corporation (AlliedKonsult) which remains under the project development stage. On September 13, 2019, Cavite AlliedKonsult Services Corporation (Cavite Allied) was incorporated. This is a wholly-owned subsidiary of AlliedKonsult that will engage in the construction of septage treatment plants and facilities. Inclined toward a spinoff of water business units, MAC is preparing its water segment to be transferred fully under AWSI from MAPDC.

On October 1, 2018, ASSC, purchased 60% shares of stock held by the former individual shareholders of SWRI. SWRI has supplied water treatment equipment and bulk water to private and government entities in several locations in the Philippines – Balesin, Mactan, Iloilo, Albay, Bulacan, and Cavite to name a few. In September 2018, Summa and Citicore Power Inc. formed a joint venture company named Citicore Summa Water Corporation (CS Water) of which the former holds 40% ownership. The joint venture was established to develop raw water sources and supply treated bulk water for its customers. In June 2019, CS Water signed a Joint Venture Agreement for the financing, development, rehabilitation, expansion, improvement, operation and maintenance of the water supply and septage management of Janiuay Water District.

There are no existing or probable government regulations that may have an adverse effect on AWSI operations. It did not incur any research and development costs during the last three fiscal years.

MacroAsia Mining Corporation

MacroAsia Mining Corporation (MMC), another wholly owned subsidiary of MAC, was incorporated on September 25, 2000 to serve as an institutional vehicle through and under which the business of a mining enterprise may be established, operated and maintained.

MMC temporarily focused on providing consultancy and mining exploration services, particularly on nickel areas and projects, in the 2010s. This started in 2013 wherein MMC served the exploration and drilling requirements for the nickel laterite deposits of some of the major nickel producers in the country.

Bulawan Mining Corporation (BUMICO) and Management Development Corporation (MADECOR), former subsidiaries of Philippine National Bank (PNB), have already been transferred to MMC. The former was officially purchased from PNB on November 15, 2018 and is now known as MMC BUMICO. The latter, meanwhile, was acquired on March 2, 2020 and is now called MMC MADECOR. The move is part of a bigger program on the spinning-off of the mining segment of MacroAsia Corporation.

The acquisition of BUMICO included its right for their Exploration Permit Application (EXPA 103-VII) over a 506-hectare area in Basay, Negros Oriental. The area has a high potential for copper-gold molybdenum–silver mineralization. Several copper and gold mining companies have shown interest in the area. In addition, MMC BUMICO also inherited the Operating Agreement with Philex Mining Corporation (PMC) in relation to the Bulawan Mining Project. Furthermore, MLC MRD 510 and EP 008-2010-VI which are under an agreement with Philex Gold Philippines, Inc. (PGPI) are now likewise part of the MMC portfolio. MLC MRD 510 is currently under the implementation stage of the Final Mine Rehabilitation and Decommissioning Plan (FMRDP). On the other hand, the application for renewal of EP 08-2010-VI is still pending MGB. Philex which has already made a partial submission of the requirements and has yet to provide an LGU Resolution attesting to the presentation of the EXPA.

On the other hand, MMC MADECOR has acquired EXPA 000100-VI from PNB MADECOR. It is covered by an agreement with PGPI. The said application has been granted Clearance for issuance of the permit based on a July 4, 2019 memorandum from MGB Central Office but subject to several conditions. The First Letter Notice regarding the conditions to be met was communicated to PGPI in July 10, 2020 and forwarded to PNB Madecor on August 19, 2020. MMC MADECOR, which has acquired PNB MADECOR, then transmitted the required documents to PGPI in September 29, 2020. PGPI has since submitted the documents to MGB Regional Office No. VI on October 14, 2020. MGB Region VI informed PGPI through a May 6, 2022-dated Second Letter Notice of the deficiencies for compliance. The revised tenement map requested by MGB was already submitted last June 15, 2022. There has been no feedback yet from MGB as of end of the year.

MMC has pending exploration permit applications (EXPAs) to mineralized areas in Carigara and Baybay City in Northern Leyte denominated as EXPA 000091-VII and 000092-VII. MGB Regional Office No. VII has endorsed the Environmental Work Program (EWP) for both EXPAs to the Office of the Director (MGB Central Office) on August 10, 2022.

On June 7, 2019, MAC, executed Deeds of Assignment (DOAs) in favor of MMC, wherein MAC assigned to the latter, all its rights and interests under its Mineral Production Sharing Agreements (MPSA) in Palawan. These DOAs were submitted for approval of the DENR as required by law. The Mines and Geosciences Bureau (MGB-DENR) approved the transfer on February 1, 2021.

The MPSAs that were assigned to MMC are Mineral Production Sharing Agreement (MPSA) Nos. 220-2005-IVB and 221-2005-IVB covering the 1,113.98 and 410.00 hectares, respectively, situated in Brooke's Point Palawan. With the DENR approval, these tenements are now recorded under MMC. The said MPSAs grant the company the exclusive right to explore, develop and commercially utilize nickel, chromite, iron and other associated mineral deposits within the contract area. MMC started discussions with other nickel mine operators to start the operations of at least the nickel mine due to the demand for this mineral for batteries, among others.

On July 29, 2021, MMC signed a memorandum of agreement with Calmia Nickel, Inc. (CNI) for the exploration and eventual mining operations of the Infanta Nickel Project (MPSA No. 220-2005-IVB). Confirmatory drilling activities commenced in early November 2021 as part of the due diligence work

being conducted by CNI. Initial laterite samples have been sent to a laboratory in Manila for analyses. Current work focused on perfecting the permits for eventual mine operations.

As of December 31, 2022, MMC has three (3) regular employees.

MMC's present operations do not require the intensive use of raw materials. Therefore, it does not have any major existing supply contracts.

MMC is not aware of any other existing or probable government regulations that may have any adverse effects on its business. MMC does not have any other significant agreements or patents, copyrights, licenses, franchises, concessions, or royalty agreement. It did not incur any research and development costs during the last three fiscal years.

Tera Information and Connectivity Solutions, Inc.

Tera Information and Connectivity Solutions, Inc. (TICS) is a fully owned subsidiary of MAC and was incorporated on February 11, 2021. TERA was established with the main objective of serving as the Technology and Tier 1 Service Provider (In-house) of the whole MacroAsia Group (MAC). The pivot to ICT services is a necessity made evident by COVID19 and presents various opportunities that MAC can take advantage and capitalize on. Among the services that TERA will provide include information management, data connectivity, radio trunking and managed services.

There are no existing or probable government regulations that may have an adverse effect on TICS operations. TICS did not incur any research and development expenditures during its first year from incorporation.

Lufthansa Technik Philippines, Inc. – A Joint Venture with MacroAsia Corporation

Lufthansa Technik Philippines, Inc. (LTP) is a joint venture between MAC (49%) and Lufthansa Technik AG of Germany (51%). It provides a wide range of aircraft maintenance, repairs and overhaul (MRO) services at the NAIA, DMIA, MCIA, Kalibo International Airport, and Davao International Airport.

Following the signing of the joint venture agreement on July 12, 2000, and its subsequent registration with the Philippine Economic Zone Authority (PEZA) as an economic zone locator on August 30, 2000, LTP started its commercial operations on September 01, 2000. Since then, it has been recognized as an outstanding company that has consistently generated export revenues for the country.

As an ecozone locator, LTP has a 25-year lease contract with MacroAsia Properties Development Corporation (MAPDC). It has technical services agreements with PAL as a base client, as well as with other airlines, including Lufthansa Technik AG of Germany.

LTP also has a concession agreement with MIAA upon which its business operations are highly dependent. The agreement grants LTP the right to operate as a provider of aircraft MRO services at NAIA Terminals 1, 2 and 3. LTP secures such rights by yearly renewal of the agreement and paying the monthly CPF (7% of gross revenue).

On February 10, 2012, LTP opened its third aircraft hangar to accommodate maintenance works for the Airbus A380, the world's biggest and most technologically advanced commercial aircraft today.

In 2015, LTP completed its project to expand its existing two hangar bays, thus increasing its service capability for A380 heavy maintenance checks, also enabling LTP to enter base maintenance for the B777. The hangar expansion was inaugurated in December 2015 and LTP had the first heavy check in its second A380 hangar in January 2016. In 2016, LTP welcomed its first Asian A380 customer, the South Korean carrier flew to Manila in April and May for C1-checks on two A380s. Furthermore, the B777 base maintenance capability build-up was completed in the later part of 2016 and having Philippine Airlines' B777 as its first customer in the first quarter of 2017.

In 2022, LTP completed the construction of Hangar 1A as part of its expansion project. The expansion aims to support business growth both in volume and in product portfolio. The new hangar can serve up to four more (4) narrow-body aircraft or alternatively, one (1) widebody and two (2) narrow-body. Its hangars are equipped with platform systems, overhead cranes, engine, tail, and wing docks. Modern and process-oriented workshops support aircraft overhaul, major modifications, cabin reconfiguration, and aircraft painting. In April 2022, Hangar 1A welcomed its first base maintenance customer.

LTP has sustained and further strengthened partnership with Philippine Airlines (PAL) as its major client for aircraft base and line maintenance, repair and overhaul services not only in LTP's Manila base maintenance facility but also in Line Stations in Clark, Cebu, Kalibo and Davao.

LTP has also intensified collaboration with Lufthansa Group operators to gain new long-term commitments for Lufthansa Airlines, Lufthansa Cargo and other LHT group affiliates for base maintenance. Extending the global clientele for Aircraft Base Maintenance LTP has welcomed the following operators in the facility: Air Busan, Asiana Airlines, British Airways, Cebu Pacific Air, Eurowings Discover, Indigo, Jetstar Japan, Korean Air, Saudia Airlines and VietJet Air.

Through improvement of products and services for Aircraft Line Maintenance, LTP has increased its capability to include the B787 for line maintenance providing services to the following customers ANA, Royal Brunei, and Etihad. With continued confidence, the following customers have renewed their commitments: Air Busan, Air China, Etihad, Jeju Air and Jin Air.

Aviation Authorities who have airworthiness oversight on these airline customers issue Approvals/Certifications to LTP for it to be able to provide MRO services to these airlines. LTP is approved/certificated by 20 Aviation Authorities worldwide as a provider of aircraft MRO services, including the Civil Aviation Authority of the Philippines (CAAP), the United States' Federal Aviation Administration (FAA), European Aviation Safety Agency (EASA), Korea MOLIT, Japan Civil Aviation Bureau (JCAB), Kingdom of Saudi Arabia GACA, India Directorate General of Civil Aviation (DGCA), Kuwait Directorate General of Civil Aviation (DGCA), and Brunei DCA (Department of Civil Aviation) among others. LTP is also an official Design Department of Lufthansa Technik AG EASA Part 21 Design Organization, enabling it to create in-house minor repairs/changes to aircraft. The extent of LTP's work/services largely depend on these Approvals/Certifications, which require/specify that LTP's services must be carried out in accordance with the relevant aviation regulations. These Approvals/Certifications are renewed either annually, every two, three or five years.

LTP's total manpower count and regular employees decreased by 3% from the prior year. They have a labor force of 2,569 by December 31, 2022. Of the total manpower count, 2,562 are regular employees.

LTP is not aware of any existing or probable government regulations that would have an adverse impact on its on-going operations. It has no research and development activities/costs during the last three fiscal years.

Cebu Pacific Catering Services, Inc.

Cebu Pacific Catering Services, Inc. (CPCS) is MacroAsia's first in-flight catering venture which started commercial operations in October of 1996. MAC has 40% equity in this joint venture, while its partners - Cathay Pacific Catering Services of Hongkong and MGO Pacific Resources Corporation hold 40% and 20% equity, respectively.

CPCS is the first and presently still the only full-service airline catering company at the MCI. CPCS is an economic zone locator covering 3,050 sqm in Mactan, Cebu and services both domestic and international airlines.

CPCS owns a two-storey kitchen facility designed to fully meet projected total airline catering demands and to easily accommodate future expansion. The facility was designed and developed by Cathay Pacific Catering Services (HK). With its current portfolio of clients, the facility still has excess capacity to serve the requirements of Mactan Cebu International Airport in the years to come.

It procures its raw materials from the local market and does not have any major raw materials supply contracts. CPCS services Philippine Airlines, Korean Air and Asiana Airlines, Cathay Pacific as well as Cebu Pacific Airlines.

CPCS operations during the COVID-19 quarantine period in Cebu City from March 2020 to the present was impacted heavily due to the closure of Mactan-Cebu Airport at some point, and the slow return of air travel in the airport. Most flights were cancelled and a number of foreign airlines that had to land in Cebu for ferry-flights uplifted meals from their originating hubs.

As of December 31, 2022, CPCS has 52 regular employees.

As a registered entity, CPCS is subject to the rules and regulations of the Philippine Economic Zone Authority (PEZA). It is not aware of any existing or probable government regulations that would have an adverse effect on its operations.

CPCS does not have any other significant agreements or patents, copyrights, licenses, franchises, concessions, or royalty agreements. No research and development costs have been incurred by CPCS during the last three fiscal years.

Japan Airport Service Corporation

Japan Airport Service Co., Ltd. (also known as JASCO in Japan Aviation Industry) was founded on March 25, 1960 as an integrated ground handling company to provide safe flight operations, in addition to value-added quality services marked by on-time performance to 24 carriers operating out of Narita International Airport in Japan.

In 2017, JASCO joined the KONOIKE Group, a global enterprise listed on the First Section of the Tokyo Stock Exchange and has immediately become one of the strengths of KONOIKE Group's Airport Division. In line with the MAC and KONOIKE Group partnership which took place on November 5, 2019, MAC purchased 30% of JASCO through NKS Holding Co. Ltd., 100% Tokyo-based subsidiary of Konoike Transport Co. Ltd on December 6, 2019.

JASCO currently has six major functions including Flight Operation Management, Baggage Handling & Special Passenger Assistance Services, Cabin Cleaning, Loading/Unloading & Aircraft Movement,

Cargo & Mail Handling and self-support GSE Maintenance. It is still organically growing its capacity and capability to support other fields of ground handling.

To fulfill its commitment for safe flight operation with high-quality services, JASCO tailors all Standard Operating Procedures (SOPs) based on the operational requirements of respective customer carriers and exercises “Point-and-Assured” strategy at every critical point of the process to ensure full compliance. Such exercise has earned JASCO a recognition for service excellence, with quite a few awards from its customer carriers.

As Japan government continued stringent cross-border travel restrictions under the spread of COVID-19 and its mutated variants, the flight resumption remained low at 24.8% against the projected 35.4% on the budget for the second quarter, accordingly sales performance fell short of the target regardless of the facts that some newly freighter accounts are successfully procured.

Despite of the slow financial performance, operationally, JASCO was awarded as the Best Ground Handler out of Vietnam Airlines global system under the spread of COVID-19 and a recognition award from UPS in appreciation for the exceptional supports JASCO devoted to UPS operation throughout the global COVID-19 pandemic during the term.

To cope with the continued situation that passenger flight (including P-ferry) operations are still likely to be canceled even after slot application, a close monitoring over the flight performance is carefully exercised to manage temporary employee furlough to the extreme possible to apply for Japanese government financial relief package. At the same time, gradually swap the secondment programs to shorter term with more flexibility in preparation for the possible flight resumption by the lift-off of arrival quarantine requirements to be deregulated by Japanese government by 11 October 2022.

As the flight resumption remains unclear due to various restrictions from certain major markets, subsequent quarter would still be a big challenge while necessary preparations, both human resources and GSE, need to be geared up so as not to miss any possible business opportunities.

JASCO is not aware of any existing or probable government regulations that would have an adverse effect on its operations. JASCO does not have any other significant agreements or patents, copyrights, licenses, franchises, concessions, or royalty agreements. No research and development costs have been incurred by JASCO since it became an affiliate of MAC.

ANNEX C – MANAGEMENT’S DISCUSSION AND ANALYSIS (MD&A)

In 2022, MAC carried on its operations mainly through its eight subsidiaries namely: MacroAsia Catering Services, Inc. (MACS); MacroAsia Airport Services Corporation (MASCORP); MacroAsia Air Taxi Services, Inc. (MAATS); MacroAsia Properties Development Corporation (MAPDC); First Aviation Academy, Inc. (FAA), Allied Water Services Inc. (AWSI), MacroAsia Mining Corporation (MMC), Tera Information and Connectivity Solutions, Inc. (TICS) and through its three associated companies, Lufthansa Technik Philippines, Inc. – A Joint Venture with MacroAsia Corporation (LTP), Cebu Pacific Catering Services, Inc (CPCS) and Japan Airport Service Co., Ltd. (JASCO). The companies were discussed comprehensively under Item 1. Description of the Business.

The two most important factors that affect the revenue levels of the aviation-services subsidiaries are passenger loads and flight frequencies of airlines. Other than the impact of COVID-19 on global and local travel and tourism, the Group is not aware of any other known trends or any other known demands, commitments, events or uncertainties that will have material impact on its liquidity.

The Group is not aware of having or anticipating any cash flow or liquidity problems within the next twelve (12) months. The Group generally sources its liquidity requirements through its increased revenues and collections. These are invested in placements with better yields.

The Group is not aware of any events that will trigger direct or contingent financial obligation that is material to the Group, including any default or acceleration of an obligation.

The Group is not aware of any material off-balance sheet transactions, arrangements, obligations (including contingent obligations) and other relationships of the Parent Company with unconsolidated entities or other persons created during the reporting period.

There are no material commitments for capital expenditures created during the reporting period.

The Group is not aware of any known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations, other than the impact of COVID-19 to aviation and tourism related subsidiaries.

There have been no significant elements of income or loss that did not arise from the Group’s continuing normal operations.

The Group is not aware of any current and future event that will cause a material change in the relationship, vertical and horizontal analyses, of any material item from period to period.

Other than the continuing impact of COVID-19 across all sectors, the Group is not aware of any seasonal aspects that have material effect on the financial statements.

Key Performance Indicators

The Group uses the following major performance measures. The analyses are based on comparisons and measurement on financial data of the current period against the same period of the previous year.

Return on Net Sales (RNS)

This ratio measures the amount of income, after all costs and expenses, including taxes are deducted, for every peso of net revenue earned.

	2022	2021
<i>(In Thousands except for Ratios)</i>		
Return on Net Sales = $\frac{\text{Total Net Income/(loss)}}{\text{Total Net Revenues}}$	$\frac{\text{₱461,434}}{4,883,508}$	$\frac{(\text{₱150,924})}{1,948,865}$
	<u>9.45%</u>	<u>-7.74%</u>

Net revenues pertain to the revenues of the subsidiaries of the Group, while the net income/(loss) includes our share in the profits/(losses) of our associates, LTP, CPCS and JASCO. The improvement in the consolidated RNS in the current period compared to same period last year is caused primarily by income contribution from our aviation-related and water companies especially MRO, and improvement in revenues generated by our operating subsidiaries in the current year compared to the same period last year.

Return on Investment (ROI)

This ratio measures the amount of income earned on invested capital.

	2022	2021
<i>(In Thousands except for Ratios)</i>		
Return on Investment = $\frac{\text{Net income/(loss) attributable to Equity holder of Parent}}{\text{Total Interest-bearing Liabilities + Equity attributable to Equity holder of Parent}}$	$\frac{\text{₱446,084}}{6,822,406}$	$\frac{(\text{₱2,162})}{6,402,429}$
	<u>6.54%</u>	<u>-0.03%</u>

Movement in ROI ratio is parallel to that of the RNS due to the Group's financial performance as discussed above. The Group had loans for a facility construction and equipment acquisition purposes in prior periods, which substantially have outstanding balances as of the period end.

Return on Equity (ROE)

This KPI is a measure of the owner's return for every peso of invested equity.

<i>(In Thousands except for Ratios)</i>		2022	2021
Return on Equity	= $\frac{\text{Net Income/(loss)}}{\text{Total Capital}}$	= $\frac{\text{₱461,434}}{4,381,788}$	= $\frac{\text{(₱150,925)}}{3,935,704}$
		= <u>10.53%</u>	= <u>-3.83%</u>

The ROE in 2022 improved compared to the same period of 2021, mainly due to the improvement in the financial performance of the Group.

Direct Cost and Expense Ratio

This ratio measures the average rate of direct costs and expense on products/services sold.

<i>(In Thousands except for Ratios)</i>		2022	2021
Direct Cost Ratio	= $\frac{\text{Total Direct Cost}}{\text{Total Net Revenues}}$	= $\frac{\text{₱3,969,757}}{4,883,508}$	= $\frac{\text{₱1,992,107}}{1,948,865}$
		= <u>81.29%</u>	= <u>102.22%</u>

<i>(In Thousands except for Ratios)</i>		2022	2021
Operating Expense Ratio	= $\frac{\text{Total Operating Expenses}}{\text{Total Net Revenues}}$	= $\frac{\text{₱793,289}}{4,883,508}$	= $\frac{\text{₱684,684}}{1,948,865}$
		= <u>16.24%</u>	= <u>35.13%</u>

The decrease in direct cost and operating expenses ratio of the group as compared to the previous year are related to the increase in revenues as a result of the improvement in business activities of the Group.

Current Ratio

This ratio measures the Group's ability to settle its current obligations.

<i>(In Thousands except for Ratios)</i>		2022	2021
Current Ratio	= $\frac{\text{Total Current Assets}}{\text{Total Current Liabilities}}$	= $\frac{₱3,057,523}{2,641,468}$	= $\frac{₱2,404,612}{2,174,495}$
		= <u>1.16:1</u>	= <u>1.11:1</u>

The Group still has a healthy current ratio indicating the Group's solid ability to meet its current liabilities, with an adequate portion of current assets held as cash. The decrease in current liabilities was due to the net loans settlement and settlement of amounts owed to suppliers and service providers.

Debt-to-Equity Ratio

This ratio indicates relationship of the Group's debt to the equity of the owners.

<i>(In Thousands except for Ratios)</i>		2022	2021
Debt-to-Equity Ratio	= $\frac{\text{Total Interest-bearing Debts}}{\text{Total Equity}}$	= $\frac{₱1,268,255}{5,668,608}$	= $\frac{₱1,560,252}{4,937,988}$
		= <u>22.37%</u>	= <u>31.60%</u>

The improvement in debt-to-equity ratio is due to the net decline of loans which remained outstanding at period end, while the equity increased due to net income earned and remeasurement gains during the current year.

Interest Coverage Ratio

This ratio measures the number of times the Group could make the interest payments on its debt with its earnings before interest and taxes.

<i>(In Thousands except for Ratios)</i>		2022	2021
Interest Coverage Ratio	= $\frac{\text{Total Earnings/(Loss) before Interest and Taxes}}{\text{Interest Expense}}$	= $\frac{₱703,213}{148,955}$	= $\frac{(₱83,080)}{159,710}$
		= <u>4.72 : 1</u>	= <u>-0.52 : 1</u>

As the Group started to report positive operating results during the current reporting period, it will be able to cover interest payments arising from its debts.

Asset-to-Equity Ratio

This ratio of the Group's total assets to its stockholder's equity measures the Group's leverage and long-term solvency. The equity multiplier is a measurement of a company's financial leverage.

(In Thousands except for Ratios)

		2022	2021
Asset-to-	Total Assets	₱11,504,694	₱10,470,087
Equity Ratio	Total Equity	5,668,626	4,937,988
		= 2.03 : 1	2.12 : 1

Ratio between total assets and total equity, indicates that the assets of the Group continue to be supported principally by shareholders' capital rather than debt.

2022 compared with 2021

The Group recorded a consolidated net income after tax of ₱461.43 million for the year 2022, a turnaround from the consolidated net loss after tax of ₱150.92 million in 2021. This income turnaround was driven largely by business volume growth across all the Group's business units.

In 2022, the Group's operations, particularly those related to aviation and travel have experienced a recovery in business volumes, although still below pre-pandemic levels for some business units like foreign airlines catering and groundhandling. During the pandemic period, the Group has been successful in growing its non-airline related businesses (water distribution and non-airline food business), contributing to overall revenue and net income growth.

Revenues from in-flight catering contributed 47% of the total revenues. Catering segment revenue significantly improved from last year's ₱592.16 million to the current year's ₱2,288.52 million a 286% increase compared to 2021. The improvement in revenue is aligned with the increase in meal count by 411% from 2.9 million to 14.98 million due to the sustained growth in meal volume.

The revenues from ground-handling and aviation services posted a revenue of ₱2.00 billion from ₱1.04 billion in 2021, a 93% improvement compared to 2021 driven largely by flight volume growth in the airports. Flights handled increased by a total of 63,805 flights (91%), from 70,457 in 2021 to 134,262 flights in the current year. The ground handling and aviation revenue contributed 41% of the total revenues.

Revenues from water operations contributed 11% of the total revenues. Revenues increase by ₱237.82 million (86%) to ₱515.01 million from ₱277.19 million during the same period last year. This increase is attributable to the increase in commercial water sales in Boracay, as the island has benefitted from more relaxed entry policies for visitors, and the revenue contribution of Aqualink Resources Development Inc. (ARDI), a new JV of our fully-owned Naic Water Services Corporation with Lancaster New City's developer, PRO-FRIENDS.

Billed volume of water in cubic meters ("cu.m.") have increased by 65% from 10.6 million cu.m. in 2021 to 17.5 million cu.m. in 2022.

Administrative revenues from ecozone remains flat as rates charge remains unchanged other than the short-term discount given to an ecozone locator during the pandemic in prior year. No revenues are being derived from chartered flights since August 2016. Currently, MAATS is generating income only from fixed-based operations (FBO) services.

Exploratory drilling revenue represents MMC's earnings from drilling contracts. The Company has not undertaken drilling contracts during the current year.

The aviation training school, First Aviation Academy ("FAA"), posted an increase in revenue by 258%, from ₱15.18 million in 2021 to ₱54.38 million in 2022. As COVID-19 restrictions eased and more training planes available following completion of license requirements from CAAP, operations started to scale-up during the current period.

Total direct costs in 2022 amounted to ₱4.00 billion, posting a increase of ₱2.00 billion (99%) from 2021. The increase is attributable to the increase in business operations across all business segments of the Group. Consolidated operating expenses increased by ₱325.70 million from last year's ₱467.59 million aligned with the business volume growth.

Share in net income of associates amounted to ₱470.85 million which increased by ₱153.02 million compared to same period in previous year represents MAC's share in the net operating result of its associated companies (LTP, JASCO and CPCS). Changes in equity shares from period to period are dependent upon the results of operations of the associated companies. One of the main contributors of the YTD net income for 2022 is the share in net income from LTP for MRO services amounting to ₱499.8 million, which is ₱149.2 million higher than the share in net income of ₱350.6 million in 2021. The reported net income of LTP in 2022 is attributable to significant improvement in its base maintenance business. Base maintenance revenue increased by 58% compared to 2021. Line maintenance revenue has declined by 11% compared to 2021 due to decline in serviced aircrafts.

CPCS - our catering associate in Cebu, reflected a net loss since airline meal orders were minimal. MAC booked its 40% net loss share in CPCS at ₱5.2 million, compared to last year's share in net loss of ₱5.7 million. JASCO-our ground handling associate in Japan, contributed a loss of ₱35.9 million compared to last year's ₱43.0 million representing the 30% share in net loss of MAC.

The interest income of ₱3.90 million pertains to income earned from short-term investments, and from installment receivables. Financing charges decreased from ₱159.71 million in 2021 to ₱148.95 million in 2022, due to the decrease in interest from loans aligned with the decrease in amount of loan outstanding.

Foreign exchange gains were booked during the year due to currency fluctuations where US\$ strengthens compared to Php.

The Group posted an income tax expense of ₱92.82 million compared to the income tax benefit in the amount of ₱91.86 million in 2021 where the Group utilized its NOLCO aligned with the increase in taxable income during the year.

Financial Position

At the consolidated level as of December 31, 2022, our total assets stood at ₱11.50 billion is posting an increase of ₱1.03 billion (9.9%) from ₱10.47 billion in December 31, 2021. The increase is attributable to the contribution from the investment in associate primarily from share in income contribution of LTP net of dividend declared and from receivables and other contract assets due to business volume growth. Cash and cash equivalents of ₱468.02 million decreased by ₱35.63 million (7%), which is mainly due to debt-servicing and capital expenditures offset by receipt of dividend from LTP. The cash balances of the operating subsidiaries are preserved to meet their currently maturing obligations.

Receivables and contract assets increased by ₱539.83 million (39%) due to due to business volume growth. Inventories of ₱139.35 million were maintained in line with forecasted inventory level requirements. Other current assets of ₱541.28 million represents input taxes, creditable withholding and prepaid taxes and unamortized prepayments for insurance covers, rent, utilities and unconsumed supplies as of December 31, 2022.

Investments in associates are accounted for under the equity method of accounting in the consolidated financial statements. Movements in the account are contributed by the share in cumulative translation adjustments for LTP and JASCO due to foreign exchange fluctuations, share in re-measurement gains and losses on defined benefit plans due to the revised PAS19, share in cash dividends declared during the current period, and the incremental equity share in net earnings/loss of the associated companies. The Group recorded an increase of 33% or ₱600.48 million in this investment account, from ₱1.85 billion in 2021 to ₱2.45 billion in 2022.

The group's property and equipment of ₱2.22 billion decreased by ₱130.20 million from last year's ₱2.35 billion due to straight-line depreciation of depreciable assets over its useful life and is offset by capital expenditures of the water subsidiaries and aviation segment subsidiaries.

Input taxes-net represent VAT paid on purchases of goods and services that can be recovered as tax refund/credit from the Bureau of Internal Revenue (BIR) or the Bureau of Customs. The Group also has input taxes arising from acquisition of property and equipment and other assets.

The carrying amount of deferred income tax assets of ₱115.69 million as of December 31, 2022. Decrease in deferred tax assets pertain decrease in income tax benefit from NOLCO and is offset by the increase in income tax recoverable in the future periods related to the accrual of retirement benefits and monetizable sick leave and vacation leaves as a result of remeasurement. Intangible assets and goodwill increased by ₱4.56 million (2%) due to additions to intangible assets and is offset by straight line amortization. Other noncurrent assets account includes advances to contractors and suppliers of ₱62.06 million, equity investments designated at fair value through other comprehensive income (FVTOCI)/ available for sale (AFS) investments ₱105.16 million, deferred project costs ₱42.78 million, deposits of ₱45.67 million, deferred mine exploration costs of ₱238.51 million, installment receivables-net of current portion ₱4.59 million, contract asset-net of current portion of ₱77.14 million, pension assets of ₱7.74 million, and deferred rent expense of ₱25.57 million. The goodwill recognized by the Group amounting to ₱127.84 million resulted from the Company's acquisition of a non-controlling interest (13%) from a previous stockholder of MACS in 2006 and the purchase by MAPDC of 67% of BTSI in 2016, 100% of NAWASCOR in 2017 and ASSC of 60% of SUMMA in 2018.

Service concession right amounting to ₱415.63 million pertains to incurred construction costs in relation to the construction of water treatment plant and pipe laying activities of SNVRDC and right for water supply and distribution of NAWASCOR. This asset was accounted for in accordance to IFRIC 12, Service Concession Arrangements, under the intangible asset model as SNVRDC received the right to charge users of the public service.

Accounts payable and accrued liabilities increased by ₱612.88 million (41%) as of December 31, 2022. Net increase in the amount pertains to amount owed to suppliers and service provider as a result of business volume growth.

Loans payable of ₱1,268.26 billion refers to the loan availed from local banks by several companies under the Group to finance their asset acquisition as a result of business expansion which remain outstanding as of year-end. Net decrease in loans payable pertains payment of currently matured loans.

Accrued retirement benefits payable of ₱103.03 million and other long term employee benefits amounting to ₱22.58 million is accounted for based on the latest actuarial valuation of the Group. Deferred tax liabilities of ₱95.23 million decreased from prior year's ending balance ₱117.81 million due to deferred tax impact on the changes in fair value of equity investments designated at FVTOCI and amortization of right of use assets. Dividends payable of ₱31.97 million shows the remaining outstanding checks payable by the Parent Company for the cash dividends declared to MAC shareholders and outstanding dividends to non-controlling interest of MAC's subsidiary.

The Group's other reserves pertain to MAC's gain on the sale of 13% of MACS shares of stock to SATS, and the sale of MASCORP's 20% shares to Konoike Transport Co., LTD. ("Konoike"), net of taxes paid. This is accounted for in accordance with International GAAP 2015 on sale of shares of stock without loss of control. Other components of equity pertain to Reserve for fair value changes of financial assets investments amounting to ₱69.72 million, the Parent Company's share in foreign

currency translation adjustments (loss) of LTP and JASCO in the amount of ₱132.78 million which changes in accordance with US\$ and JPY exchange rate fluctuations during the period covered, MAC's share in re-measurements of defined benefit plan of associates, and re-measurements of defined benefit plans of subsidiaries.

Movement in the “non-controlling interests” depends on the results of operations of MACS, AWSI, BTSI and subsidiaries of MAPDC with JV partners. This account reflects the 33% equity share of SATS (JV Partner of MAC) in the catering JV, 40% share of minority shareholders in SUMMA, 33% share of minority shareholders in BTSI, 49% share of PTC Holding, Inc. (“PTC”) in FAA, 20% share of Konoike in MASCORP and 49% share of minority shareholders in Allied Konsult, and 49% share of minority shareholder of ARDI. As of December 31, 2022, non-controlling interests amounted to ₱114.46 million.

2021 compared with 2020

The Group recorded a consolidated net loss after tax of ₱150.92 million for the year 2021, a significant decline in reported loss of (92%) from the reported consolidated net loss after tax of ₱ 1,800.21 million in 2020. The reversal of impairment provisions, together with the share in net earnings of an associate, principally resulted to the decline in reported loss in the current year.

During the current year, the Infanta Nickel Mine generated advanced royalty receipts from a mining operator, justifying the reversal of impairment provision on deferred mine exploration costs amounting to ₱217.0 million. With the agreement that was signed with this mine operator, it is expected that the nickel mine will operate soon, and is expected to provide recurring cash inflow through royalty payments. In addition, an associate Company LTP has turnaround to profitability in the current year and has then contributed a share in net earnings.

Revenues from in-flight catering contributed 30% of the total revenues. Catering segment revenue decline from last year's ₱950.9 million to the current year's ₱592.2 million a 38% drop compared 2020. The decline in revenue is aligned with the decline in meal count by 35% from 4.5 million to 2.9 million due to the decline in demand for air travel as a result of the COVID-19 pandemic, however towards the last quarter of the year relaxation of capacity restrictions was observed in line with the government's efforts to balance reopening of the economy and address the spread of the coronavirus. In addition, the non-airline commissary has obtained new clients which has contributed volume growth in the last quarter of the current year.

The revenues from ground-handling and aviation services posted a revenue of ₱1.042 billion from ₱ 1.035 billion in 2020, a 1% drop compared to 2020. Flights handled declined by a total of 1,626 flights (2%), from 72,083 in 2020 to 70,457 flights in the current year. In 2020, the first 2 and ½ months of the year still saw normal airport operations, as the airport closures and restrictions in the Philippines commenced in mid-March 2020 and has subsequently then started the decline in business operations. However, towards the last quarter of prior year and during the year, the number of flights is slowly improving as quarantine measures are slowly eased. The ground handling and aviation revenue contributed 53% of the total revenues.

Revenues from water operations contributed 14% of the total revenues. Revenues increase by ₱ 55.76 million (25%) to ₱277.19 million from ₱221.42 million during the same period last year. This increase is attributable to the significant revenue contribution of Aqualink Resources Development Inc. (ARDI), a newly incorporated Company for a joint water project in Cavite between MAC through its wholly owned subsidiary NAWASCOR and Lancaster New City developer, PRO-FRIENDS.

The significant boost in revenue from ARDI is offset though by the continuing downturn of commercial water sales in Boracay, as the island was impacted by the tourism health protocol

restrictions due to COVID-19 restrictions but towards the last quarter of 2021, revenue from BTSI has improved, as well as the termination of SUMMA's bulk water supply contract with Marilao Water District. Billed volume of water in cubic meters ("cu.m.") have increased by 163% from 6.5 million cu.m. in 2020 to 10.6 million cu.m. in 2021.

Administrative revenues from ecozone remains flat as rates charge remains unchanged other than the short-term discount given to an ecozone locator during the pandemic in prior year. No revenues are being derived from chartered flights since August 2016. Currently, MAATS is generating income only from fixed-based operations (FBO) services.

Exploratory drilling revenue represents MMC's earnings from drilling contracts. The Company has not undertaken drilling contracts during the current year. The assignment of MAC in favor of MMC of the Mineral Production Sharing Agreement (MSPA) for the Infanta Nickel Project has been approved by the DENR.

The aviation training school, First Aviation Academy ("FAA"), posted a revenue of ₱15.2 million in 2021 which is same level of revenue recognized in 2020 due to stricter restrictions in periods of COVID-19 cases surge which limited conduct of trainings, however in 2nd half of the year, restrictions started to ease up.

Total direct costs in 2021 amounted to ₱2.00 billion, posting a decrease of ₱372.49 million (-16%) from 2020. The decline is a result of cost-containment measures put in place to align with the business volume downturn due to COVID-19. Consolidated operating expenses decreased by ₱ 246.97 million from last year's ₱931.66 million mainly due to cost saving measures implemented by the Group for cash preservation, and in prior year, the Group incurred one-time significant costs for the rightsizing of the operating aviation-related subsidiaries through voluntary retirement and retrenchment, reflecting an decrease in the employee benefits in current year. Also as a result of the COVID-19 pandemic, there was an observable credit deterioration on the receivables in prior year, mostly from airline clients, resulting to the need to accrue provisions for impairment of these financial instruments, however due to improvement in collection, a portion of the provision for expected credit loss has been reversed during the year.

In 2021, a share in net income of associates was booked, amounting to ₱317.83 million in contrast to 2020 where a share in net loss of associates amounting to ₱639.81 million was recorded. This represents MAC's share in the net operating result of its associated companies (LTP, CPCS and JASCO). Changes in equity shares from period to period are dependent upon the results of operations of the three associated companies. Share in net income of LTP amounted to ₱350.6 million compared to share in net loss of ₱599.0 million in 2020. The net income reported by LTP in 2021 is due to reversal of portion of provision for impairment amounting to ₱706.7 million (US\$14.4 million) recognized in prior year. LTP has assessed its receivables to have significant impairment in collectability due to the impact of the pandemic to the aviation industry in prior year however, due to improvement in collection in the current year, portion of the provision was reversed. Revenue from line maintenance improved by 16% compared to prior year due to more flights are mounted although still affected by government-imposed restrictions. Revenue from the base maintenance dropped by 23% compared to prior year due to postponement of checks by the customers. The significant cost saving partially compensated the decline in revenues.

CPCS - our catering associate in Cebu, still reported a losses as the Company was temporarily closed from the declaration of lockdown until the period-end. MAC booked its 40% net loss share in CPCS at ₱5.70 million, compared to last year's ₱10.42 million. Share in net loss from JASCO (Japan) amounted to ₱43.0 million as an aviation related entity, loss is due to the decline in demand from air travel due to the COVID-19.

The interest income of ₱2.79 million pertains to income earned from short-term investments, and from installment receivables. Financing charges increased from ₱132.52 million in 2020 to ₱159.71 million in 2021, due to increase in interest on lease liabilities from the long term leased water facility of ARDI. The portion of the lease payment to the lessor is being amortized as interest expense over the lease term and is offset by the decrease in interest from loans aligned with the decrease in amount of loan outstanding.

Foreign exchange gains were booked during the year due to currency fluctuations where US\$ strengthens compared to Php.

The Group posted an income tax benefit in the amount of ₱91.86 million in 2021, higher compared to 2020's ₱9.30 million tax benefit. Increase in income tax benefit is attributable to NOLCO recognition.

Financial Position

At the consolidated level as of December 31, 2021, our total assets stood at ₱10.48 billion is comparative from last year-end's level of ₱10.40 billion. The increase is attributable to increase in investment in associate primarily from share in income contribution of LTP and in increase in right of use asset for the long-term lease of a water facility by ARDI, a newly incorporated subsidiary of Nawascor which was offset by the decline in cash and cash equivalents and receivables and other contract assets. Cash and cash equivalents of ₱503.10 million decreased by ₱765.13 million (60%), which is mainly due to debt-servicing, capital expenditures and operating cash flow requirements. The cash balances of the operating subsidiaries are preserved to meet their currently maturing obligations.

Receivables and contract assets declined by ₱412.08 million (24%) due to collection of trade receivables. Collection of trade receivables is greater than the increase in credit sales due to gradual phase of recovery in operations of the aviation sector. Inventories of ₱102.30 million were maintained in line with forecasted inventory level requirements. Other current assets of ₱429.61 million represents input taxes, creditable withholding and prepaid taxes and unamortized prepayments for insurance covers, rent, utilities and unconsumed supplies as of December 31, 2021.

Investments in associates are accounted for under the equity method of accounting in the consolidated financial statements. Movements in the account are contributed by the share in cumulative translation adjustments for LTP and JASCO due to foreign exchange fluctuations, share in re-measurement gains and losses on defined benefit plans due to the revised PAS19, share in cash dividends declared during the current period, and the incremental equity share in net earnings/loss of the associated companies. The Group recorded an increase of 36% or ₱485.01 million in this investment account, from ₱1.37 billion in 2020 to ₱1.85 billion in 2021.

The group's property and equipment of ₱2.35 billion decreased by ₱89.15 million from last year's ₱2.44 billion due to straight-line depreciation of depreciable assets over its useful life and is offset by capital expenditures of the water subsidiaries and the aviation school.

Input taxes-net represent VAT paid on purchases of goods and services that can be recovered as tax refund/credit from the Bureau of Internal Revenue (BIR) or the Bureau of Customs. The Group also has input taxes arising from acquisition of property and equipment and other assets.

The carrying amount of deferred income tax assets of ₱172.50 million as of December 31, 2021. Increase in deferred tax assets pertain recognition of NOLCO and is offset by the reversal in income tax recoverable in the future periods related to the accrual of retirement benefits and monetizable sick leave and vacation leaves as a result of remeasurement. Intangible assets and

goodwill decreased by ₱5.04 million (-2%) due to straight line amortization of intangible assets. Other noncurrent assets account includes advances to contractors and suppliers of ₱48.4 million, equity investments designated at fair value through other comprehensive income (FVTOCI)/ available for sale (AFS) investments ₱83.16 million, deferred project costs ₱42.78 million, deposits of ₱40.32 million, deferred mine exploration costs of ₱237.49 million, installment receivables-net of current portion ₱18.67 million, contract asset-net of current portion of ₱91.36 million, pension assets of ₱21.02 million, and deferred rent expense of ₱25.79 million. The goodwill recognized by the Group amounting to ₱127.84 million resulted from the Company's acquisition of a non-controlling interest (13%) from a previous stockholder of MACS in 2006 and the purchase by MAPDC of 67% of BTSI in 2016, 100% of NAWASCOR in 2017 and ASSC of 60% of SUMMA in 2018.

Service concession right amounting to ₱418.80 million pertains to incurred construction costs in relation to the construction of water treatment plant and pipe laying activities of SNVRDC and right for water supply and distribution of NAWASCOR and SUMMA. This asset was accounted for in accordance to IFRIC 12, Service Concession Arrangements, under the intangible asset model as SNVRDC received the right to charge users of the public service.

Accounts payable and accrued liabilities decreased by ₱216.19 million (-13%) as of December 31, 2021. Net decrease in the amount pertains settlement of amount owed to suppliers and service provider and release of retentions from contractors.

Loans payable of ₱1,560.25 billion refers to the loan availed from local banks by several companies under the Group to finance their asset acquisition as a result of business expansion which remain outstanding as of year-end. Net decrease in loans payable pertains payment of currently matured loans.

Accrued retirement benefits payable of ₱99.70 million and other long term employee benefits amounting to ₱21.88 million is accounted for based on the latest actuarial valuation of the Group. Deferred tax liabilities of ₱123.85 million decreased from prior year's ending balance ₱118.80 million due to deferred tax impact on the changes in fair value of equity investments designated at FVTOCI and amortization of right of use assets. Dividends payable of ₱31.97 million shows the remaining outstanding checks payable by the Parent Company for the cash dividends declared to MAC shareholders and outstanding dividends to non-controlling interest of MAC's subsidiary.

The Group's other reserves pertain to MAC's gain on the sale of 13% of MACS shares of stock to SATS, and the sale of MASCORP's 20% shares to Konoike Transport Co., LTD. ("Konoike"), net of taxes paid. This is accounted for in accordance with International GAAP 2015 on sale of shares of stock without loss of control. Other components of equity pertain to Reserve for fair value changes of financial assets investments amounting to ₱51.02 million, the Parent Company's share in foreign currency translation adjustments (loss) of LTP and JASCO in the amount of ₱57.40 million which changes in accordance with US\$ and JPY exchange rate fluctuations during the period covered, MAC's share in re-measurements of defined benefit plan of associates, and re-measurements of defined benefit plans of subsidiaries.

Movement in the "non-controlling interests" depends on the results of operations of MACS, AWSI, BTSI and subsidiaries of MAPDC with JV partners. This account reflects the 33% equity share of SATS (JV Partner of MAC) in the catering JV, 40% share of minority shareholders in SUMMA, 33% share of minority shareholders in BTSI, 49% share of PTC Holding, Inc. ("PTC") in FAA, 20% share of Konoike in MASCORP and 49% share of minority shareholders in Allied Konsult, and 49% share of minority shareholder of ARDI. As of December 31, 2021, non-controlling interests amounted to ₱95.81 million.

Plans and Prospects

With the aviation industry pivoting toward an optimistic recovery, MacroAsia is looking at a promising year ahead. Easing up on border restrictions, the Philippines showed a busier air traffic over the past year which highly benefited the Group's aviation-related businesses. In order to keep up and maintain this momentum, MacroAsia strengthens its support to its main business segments including airline catering, MRO and ground handling services while maximizing the opportunities in water treatment and distribution and non-airline food business. Additionally, MacroAsia has ventured into ICT solutions services within the Group and its affiliates. It has also started utilizing its mining assets. Geared to a steadfast growth and recovery in 2023, MacroAsia continues to effect sustainable cost leadership within the Group.

MRO (Aircraft Maintenance, Repair, Overhaul):

Lufthansa Technik Philippines (LTP) has completed the construction of its new hangar, Hangar 1-A which was initially intended for the base maintenance of narrow-body aircrafts in 2022. However, due to the high demand for the maintenance of A380 aircraft, the new hangar is currently in the process of upgrading its capability. LTP is looking for expansion outside Metro Manila to cater to the requirements of the narrow-body market. In 2023, the line business will inevitably grow and positively return to its pre-pandemic status with the additional capacity.

FOOD SERVICES:

Inflight Food: The Group's inflight catering services business through MacroAsia Catering Services (MACS), and MacroAsia SATS Inflight Services (MSIS), showed a drastic increase in meal volumes in 2022 as compared with its 2021 performance. With the increasing demand for airline catering, Cebu Pacific Catering Services (CPCS) is being revamped for operations this upcoming year. CPCS will be servicing the requirements of PAL for its direct flights in Cebu going to various international airports.

Non-Airline Food: MacroAsia SATS Food Industries (MSFI) breached its 2021 utilization through its high-profile clientele in 2022. Effectively, the institutional catering was able to grow its portfolio through its extensive marketing efforts and partnerships. The Group is also optimistic to further increase its current capacity in anticipation for its additional clients in 2022.

GATEWAY SERVICES:

The Group's ground handling business, through MASCORP which is present in 26 airport stations all over the Philippines saw its workforce decline as airports all over the country went into hibernation. Only 3 key airports (NAIA, Clark, Cebu) became substantial entry points for airline travel during the quarantine period in the Philippines. Due to relaxation of capacity restrictions in line with the government's efforts to balance reopening of the economy and address the spread of the coronavirus and increase in vaccination rates, business volume is expected to improve. The Group's revenues from gateway services will also go beyond ground handling, as this will include apron ramp cleaning, maintenance of ground support equipment (GSE) and cargo handling.

PROPERTY DEVELOPMENT:

Maintaining a status quo in property development, MacroAsia through its wholly owned subsidiary, MacroAsia Properties Development Corporation collaboratively

works with its subsidiaries and affiliates for contracted servicing and construction. This model is being utilized to make way for revenues in 2023.

AVIATION TRAINING:

As the flight restrictions in Subic Bay International Airport (SBIA) were lifted, First Aviation Academy, Inc. (FAA) was able to resume to its training operations. Successfully, FAA had its first batch of graduates of 24 pilot trainees last December 2022. Moving forward, the pilot training academy is preparing for a cross-border partnership that will allow foreign enrollees to get commercial pilot license here in the Philippines.

In previous years, the Group has ventured into natural resources development, considering its rich history as a mining company in the 1970's.

MINING:

With the moratorium in mining getting lifted, MacroAsia has successfully signed an agreement in 2021. In 2022, explorations have been done and affirmed presence of nickel in its properties. The Group is expecting the shipment of nickel starting in 3rd quarter in 2023. This will start providing recurring cash inflow through royalty payments.

WATER BUSINESS:

Proving its flexibility in the pandemic, the Water Segment of the Group has significantly increased its revenues. With the tourism industry getting back to normal, BTSI has shown a massive growth in its performance during the last year. This is further expected to improve in 2023.

The Cavite-based business units, NAWASCOR and Aqualink have both recorded positive results in 2022. Venturing outside their current service areas, NAWASCOR and Aqualink are expected to grow by at least 50% by the end of 2023. Adding to the market share in Cavite, Cavite Alliedkonsult, a project company under the partnership of MacroAsia and EnviroKonsult has been inaugurated in 2022. Cavite AlliedKonsult owns the biggest septage treatment facility in the Philippines with the capacity of 400 to 600 cubic meters per day. Cavite AlliedKonsult will be servicing the septage management of the Group and various private water providers as well as the water districts with the Province of Cavite.

Through its original equipment manufacturer subsidiary, Summa Water Services, Inc., MacroAsia has continuously built portable water treatment plants for various LGUs and government agencies. In 2023, the Group is looking at a more diversified client portfolio for Summa Water while maintaining good relationships with its existing customers.

The Group targets a total of One Billion Pesos of consolidated revenues from its Water Business Segments in 2023.

New Prospects

Foray into telecom (radio trunking)

With the intention to optimize the Group's current ICT requirements, MacroAsia through its wholly owned subsidiary, Tera Information and Connectivity Solutions, Inc. have ventured into providing ICT solutions within the Group. Tera has partnered with several entities to

prepare the Group in its digitalization efforts to further adapt to the impacts of the COVID-19 pandemic.

The MAC Group is anticipated to surpass the effects of the pandemic in 2023. With a more stable cash flow generation from its subsidiaries, MacroAsia aims to further invest in new businesses. Additionally, the positive outturn in its mining and water business segments show their preparedness for the spin-off in the next two years.

Information on Independent Accountant and Other Related Matters

External Audit Fees and Services

	2022	2021
Regular annual audit of financial statements	P6,775,000	P6,110,000
Non audit fees	-	-
Total	P6,775,000	P6,110,000

Audit Fees and Audit-related Fees

SGV & Co. was engaged by the Corporation to audit its annual financial statements in connection with the statutory and regulatory filings or engagements for the years ended 2022 and 2021. The audit-related fees pertain to assurance and services that are reasonably related to the performance of the audit.

Tax Fees

Audit Committee's Approval Policies for the Services of External Auditor

All services to be rendered and fees to be charged by the external auditors are presented to and pre-approved by the Audit Committee. An audit planning meeting is conducted at least one month before the actual performance of work. The meeting includes discussion of the following:

- a. client service team
- b. scope of audit work
- c. updates for management
- d. possible risk areas and suggested Management action plans to strengthen internal controls
- e. coordination with the audit of subsidiaries and associates
- f. audit work plan and critical dates
- g. expectations settings

Independent Public Accountants

SyCip Gorres Velayo & Co. (SGV & Co.) has acted as the Group's independent public accountant. Audit Partner-in-Charge, Mr. Kristopher S. Catalan of SGV & Co. handled the financial audit for the

year ended December 31, 2022. Among his clients are the largest companies in the consumer products, technology, asset management, air transportation, agricultural businesses, industrial goods, construction and real estate industries. He is a member of the SGV & Co.'s Capital Markets Center and the Accounting Standards Group. He is highly knowledgeable in Revenue Recognition, Business Combinations and Leases. He is also a frequent resource person in training on International Financial Reporting Standards (IFRS) and Assurance.

Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

There were no other changes in or disagreements with accountants during the last three (3) calendar years or any subsequent interim period.

Corporate Governance

Evaluation System

The provisions of the Manual on Corporate Governance vis-à-vis the Self-Rating Form on Corporate Governance are regularly reviewed to ensure compliance and identify potential improvements. Deviations, if any, are discussed during the Regular Board Meeting of the Corporation.

Measures To Fully Comply

In line with SEC Memorandum Circular No. 20 Series of 2013, the Corporation's Directors and top-level management attend, on an annual basis, Strategic and Corporate Governance Trainings, primarily to identify and strengthen the mission and vision and the strategies to carry out its objectives based on leading practices on good corporate governance. The trainings attended are conducted by SEC accredited training providers.

The Corporation also holds regular weekly Management Meetings. These meetings are presided by the President/COO and attended by other officers of the Corporation and the management heads of each of the operating subsidiaries and affiliates to discuss their respective financial and operational performances. Business risks and challenges are likewise discussed during these meetings.

Deviations

There are no known deviations from the Corporation's Manual of Corporate Governance except the establishment of the charters of the Board and certain committees; and, that non-executive directors must meet with the external auditor, head of the internal audit, compliance and risk functions without any executive directors present. Compliance with these provisions is now being processed.

Plan to Improve

The Corporation continues to coordinate with regulatory government agencies to further improve in-house corporate governance. It shall also adopt globally proven good governance strategies.

In June 2009, the SEC approved the promulgation of a revised Code of Corporate Governance to make several of its provisions mandatory instead of recommendatory. It issued Memorandum Circular No. 6 (Series of 2009) which took effect on July 15, 2009.

Companies are now obliged to follow SEC's prescribed Corporate Governance Manual. It shall evaluate the corporate governance manuals of companies concerned on an annual basis. The new code doubled the penalty for non-compliance or violation of the provisions thereof. In addition, the new code listed the minimum internal control responsibilities of the board and stipulated specific qualifications for members of the Audit Committee.

With this development, the Corporation undertook a revision of its manual on corporate governance to align with the new SEC code. In December 2009, the Board of Directors of MacroAsia Corporation approved the revised manual and disclosed the same to the Philippine Stock Exchange (PSE).

On May 6, 2014, the SEC issued Memorandum Circular No. 9, series of 2014 which mandated all covered corporations to amend their Manuals on Corporate Governance to include therein provisions on stakeholders. In compliance with the Memorandum Circular, the Corporation updated its Corporate Governance Manual which was approved by the Board of Directors during its meeting held on July 18, 2014 and which was disclosed to the SEC and the PSE.

Subsequently, on November 22, 2016, the SEC issued the Code of Corporate Governance which requires all publicly-listed companies to submit a new Manual on Corporate Governance. The Code will adopt the "comply or explain" approach. This approach combines voluntary compliance with mandatory disclosure. Listed companies do not have to comply entirely with the Code, but they must state in their annual corporate governance reports whether they comply with the provisions of the Code, identify any areas of non-compliance and explain the reasons for non-compliance. In accordance therewith, the Corporation amended its Corporate Governance Manual. This was approved by Board of Directors during its meeting held on March 30, 2017, and such approval was disclosed to the SEC and the PSE.

Legal Proceedings

On May 20, 2015, MacroAsia Corporation, through its legal counsel, filed a Motion for Reconsideration with the Court of Appeals for its April 22, 2015 Decision promulgated by the Special Sixteenth (16th) Division confirming the denial by the National Commission on Indigenous People to issue a Certification Precondition applied for by the Company.

Subsequently, on March 21, 2016, through MacroAsia's legal counsel, the company received a copy of the favorable Decision issued by the Court of Appeals giving due course to the company's Motion for Reconsideration and reversing the above-mentioned ruling.

On December 12, 2016, a Petition for Review on Certiorari pursuant to Rule 45 of the Rules of Court (G.R. No. 226176) was filed before the Supreme Court by the National Commission on Indigenous Peoples (NCIP) and its officers, Zenaida Brigada, Hamda-Pawid, Dionesa O. Banua, Chonchita C. Calzado, Percy Brawner, Cosme Lambayon, Santos Unsad and Basilio Wandag.

The Petition was directed against the Decision of the Court of Appeals dated March 14, 2016 which nullified and set aside NCIP En Banc Resolution No. 011-2012, and directed petitioner NCIP to issue a Certificate Precondition in favor of MacroAsia.

Pursuant to the Resolution of the Supreme Court dated October 19, 2016, MacroAsia filed its Comment/Opposition to the Petition for Review on Certiorari on December 12, 2016. On March 13, 2017, the Supreme Court issued a Resolution noting MacroAsia's Comment/Opposition. The Office of the Solicitor General subsequently filed a Reply which was received by MacroAsia on July 2, 2021. In the interim, the parties have discussed the settlement of the case and are in the process of filing a Joint Motion to put an end to the controversy.

ANNEX D – SECURITIES OF REGISTRANT

A. Market for Issuer’s Common Equity and Related Stockholder Matters

Dividends

The general dividend policy of the Corporation is governed by its By-Laws which provides that dividends upon the capital stock of the Corporation may be declared by the Board of Directors in the manner and form provided by law, after deducting from the net profit of the Corporation any approved bonuses to the members of the Board of Directors in an amount not exceeding five percent (5%) of the Corporation's net profit before tax and the expenses of administration. In each case, no dividend declaration shall be made by the Corporation which would impair its capital.

Dividends shall not be declared if there are major investments/projects which the Corporation and its subsidiaries and associated companies anticipate in the near future.

1. Stock Dividends

On April 30, 2020, the Company's BOD approved the declaration of 20% stock dividends to be paid out from unrestricted retained earnings of the Company as of December 31, 2019. The stock dividend declaration was approved by the shareholders on the Company's Annual Stockholders' Meeting held on July 17, 2020. Record date was August 14, 2020 while payment date was on September 11, 2020.

On March 22, 2018, the Company's BOD approved the declaration of 30% stock dividends to be paid out from unrestricted retained earnings of the Company as of December 31, 2017. The stock dividend declaration was approved by the shareholders on the Company's Annual Stockholders' Meeting held on July 20, 2018. Record date was August 17, 2018 while payment date was on September 12, 2018.

2. Stock Dividends Declared After Balance Sheet Date

No stock dividends were declared after balance sheet date.

3. Cash Dividends

<u>Date Approved</u>	<u>Per share</u>	<u>Stockholder of Record Date</u>	<u>Date Paid/Issued</u>
March 14, 2019	₱0.200	April 12, 2019	May 10, 2019
December 13, 2017	₱0.140	January 5, 2018	January 31, 2018
December 14, 2016	₱0.080	January 6, 2017	February 1, 2017
December 14, 2015	₱0.075	January 4, 2016	January 28, 2016
March 25, 2013	₱0.065	April 24, 2013	May 19, 2013

On April 30, 2020, the Board of Directors approved the amendment of the Php 0.25/share cash dividends declared on March 6, 2020 to shareholders of record as of April 3, 2020 payable on May 4, 2020 to 20% stock dividends discussed in the Stock Dividends section.

4. Cash Dividends Declared After Balance Sheet Date

On March 23, 2023, the Company's BOD approved the declaration of cash dividends amounting to ₱0.05 per share payable on May 18, 2023 to shareholders of record on April 21, 2023.

5. Restriction on Retained Earnings

The retained earnings as of December 31, 2022 are restricted for dividend declaration for the portion equivalent to the following:

- Undistributed net earnings of subsidiaries and equity in net earnings of associates amounting to ₱850.0 million as of December 31, 2022 and 2021.
- Cost of treasury shares amounting to ₱459.4 million as of December 31, 2022 and 2021.
- Deferred income tax asset amounting to ₱150.7 million and ₱157.7 million as of December 31, 2022 and 2021, respectively.

6. Appropriation of Retained Earnings

MAC

On March 22, 2018, the Corporation's Board of Directors approved the reversal of the appropriation for mining development projects amounting to ₱393.1 million for the distribution of 30% stock dividends declared on the same date and approved by the stockholder during MAC's annual stockholders' meeting held on July 20, 2018. The appropriation for water projects was retained for the next few years, for investments in the Groupwide water related projects with periods ranging from two (2) to three (3) years.

On December 12, 2019, the Corporation's Board of Directors approved the reversal of the appropriation for water projects amounting to ₱300.0 million and appropriation of ₱850.0 million for various projects to be undertaken by the Group.

MASCORP

On March 20, 2018, MASCORP's Board of Directors approved the appropriation of another ₱50.0 million from the unrestricted retained earnings for the business expansion program which is expected to run for three (3) years effective December 31, 2017.

On December 6, 2018, MASCORP's Board of Directors approved the reversal of appropriated retained earnings of ₱30.0 million made on June 21, 2012 for business expansion. Further, the Company's BOD approved additional appropriation of ₱65.0 million of the unappropriated earnings for business expansion program which is expected to run for three years effective December 31, 2018.

On March 7, 2019 and July 11, 2019, the MASCORP's Board of Directors approved the additional appropriation of ₱50.0 million and ₱100.0 million, respectively from unrestricted retained

earnings for purposes of various investments to expand business of the Company which is expected to run for three (3) years effective December 31, 2019.

On September 24, 2020, the MASCORP's BOD approved reversal of appropriated retained earnings amounting to ₱265.0 million.

MACS

On December 6, 2019, the MACS' Board of Directors approved the release from appropriation of the ₱100.0 million appropriated in 2017 and 2016 for construction of an offsite commissary. Further, the Board of Directors approved the additional appropriation of ₱210.0 million for the construction of another offsite commissary, catering trucks, and facility equipment upgrade in the next two (2) years of the Corporation.

On November 28, 2018, the MACS' Board of Directors approved the additional appropriation of ₱55.0 million for the construction of the offsite commissary and equipment upgrade of the Company in the following year.

On October 14, 2021, the MACS' BOD approved the reversal of appropriated retained earnings of ₱500.0 million. The facility upgrades and equipment acquisitions to which the previous appropriations were intended, will no longer materialize due to the COVID-19 pandemic impact. Hence, the appropriation of retained earnings is no longer necessary.

B. Description of Registrant Securities

MacroAsia Corporation has already issued 1,933,305,923 shares of stocks from the total authorized capital stock of 2,000,000,000.

On July 16, 2010, the BOD approved a Share Buyback Program involving a total cash outlay of ₱50.0 million for the repurchase of the outstanding common shares of the Parent Company from the open market, using the trading facilities of the Philippine Stock Exchange (PSE). The Program will not involve any active or widespread solicitation for stockholders to sell. Repurchase of shares of stock will be done during the period of the Program at such prices perceived by the Parent Company to be lower than the inherent value of the share. The Program will run until the ₱50 million authorized cash outlay is fully utilized or until such time that the BOD may direct, subject to appropriate disclosures to the PSE and the SEC.

On June 15 2017, the Board of Directors of MacroAsia Corporation approved to allot ₱210.0 million to buy back shares of MacroAsia Corporation at market price. The mechanics of which shall be similar to the ₱50.0 million buyback program implemented in 2010. The Program commenced on June 20, 2017 and will run until the ₱210.0 million authorized cash outlay is fully utilized, or until such time that the Board of Directors of MacroAsia may direct, subject to appropriate disclosures to the PSE and the SEC.

On March 14, 2019, the Board of Directors approved ₱200.0 million additional funding to the 2017 Share Buyback Program.

On March 6, 2020, the Board of Directors approved another ₱200.0 million additional funding to the 2017 Share Buyback Program.

As of December 31, 2022, the Company has reacquired 42,347,600 shares for ₱459,418,212.

Recent Sales of Unregistered or Exempt Securities including Recent Issuance of Securities Constituting an Exempt Transaction

During the year, there were no sales of unregistered or exempt securities that constitute as exempt transactions.

Voting and Preemption Rights

All outstanding common shares of the Corporation as of the record date for the purpose of the Annual Stockholder's Meeting are entitled to one (1) vote per share.

A stockholder entitled to vote at the meeting shall have the right attend the meeting through remote communication and to vote *in absentia* or by proxy the number of shares registered in his name in the stock transfer book of the Corporation for as many persons as there are directors to be elected. Each stockholder shall have the right to cumulate said shares and give one nominee as many votes as the number of directors to be elected, multiplied by the number of his shares shall equal, or he may distribute them on the same cumulative voting principle among as many nominees as he shall see fit; provided, that the number of votes cast by a stockholder shall not exceed the number of his shares multiplied by the number of directors to be elected.

I. CALL TO ORDER

On behalf of the Chairman and CEO, Dr. Lucio C. Tan, Mr. Lucio C. Tan III, Director of the Corporation, delivered the following message to the stockholders of the Corporation:

Years 2020 and 2021 are difficult periods for all of us, even beyond the aviation sector. The MacroAsia Group, which relies heavily on aviation services, is facing a tough period that demands so much from its people. Beyond job losses, we have seen many of our staff suffer from COVID-19 due to the nature of their work in the airports that require direct interaction with customers. Our services to serve the public continued nevertheless, despite the financial losses that we have been bearing as travel volumes continue to be constrained. The early part of 2021 saw recovery of travel volumes, but such trend was immediately derailed by the Covid-19 Omicron variant for most part of 2021.

In coping early on with the business downturn, the MacroAsia Group reorganized and trimmed its workforce rigorously, enabling our current teams today to present a younger, efficient and cost-effective organization than before the crisis. We also took the challenge to move forward, and “Scale The Edges” of our traditional business segments.

Our teams took to heart the drive to generate new sources of cash flow outside of the aviation segment, as this strategy ensures not only survival but a stronger future for MacroAsia.

Beyond 2021, we hope that the trendline of travel recovery will continue, as more people get vaccinated and as governments relax travel restrictions all over the world. We look forward to a brighter future for MAC as the operating environment slowly moves towards a new normal.

On behalf of the Chairman, we thank our operating teams for their passionate service to the public during this crisis.

I will now turn over the floor to Mr. Eduardo Luis T. Luy, President and Chief Operating Officer of MAC, who will preside over this meeting.

The Corporation's President and Chief Operating Officer, Mr. Eduardo Luis T. Luy, called the meeting to order and welcomed the stockholders to the 2022 Annual Stockholders' Meeting of MacroAsia Corporation (the "Corporation").

The President stated that the Corporation is holding its Annual Stockholders' Meeting by remote communication via Zoom Webinar application in order to safeguard the health and ensure the safety of the stockholders and stakeholders of the Corporation.

The Corporate Secretary, Mr. Florentino M. Herrera III, recorded the minutes of the meeting. He informed the stockholders that the meeting is being recorded in video and audio format, in compliance with the requirements of the Securities and Exchange Commission.

II. CERTIFICATION OF NOTICE

The Corporate Secretary certified that the Notice for the meeting was duly sent twenty-one (21) days prior to the date of the meeting to all stockholders of record of the Corporation as of 12 April 2022, the record date set by the Board of Directors, in accordance with the Revised Corporation Code of the Philippines and the rules of the Securities and Exchange Commission.

The Corporate Secretary stated that the Notice for the meeting was published for two (2) consecutive days, on April 19 and 20, 2022, in the business section of two (2) newspapers of general circulation, the Philippine Star and Philippine Daily Inquirer, both in print and online formats. The Affidavits of Publication issued by the Philippine Star and the Philippine Daily Inquirer are attached hereto as Annexes "A" and "B", respectively.

The Corporate Secretary further stated that the Notice and the Definitive Information Statement were posted on the Corporation's website and disclosed to the Philippine Stock Exchange.

III. MEETING PROCEDURES

The President noted that although the Corporation is holding its Annual Stockholders' Meeting by remote communication due to the COVID-19 pandemic, it strived to provide the stockholders the best opportunity to participate in the meeting.

The President requested the Corporate Secretary to explain the procedures for the holding of the meeting.

The Corporate Secretary stated that the meeting procedures were outlined in the Corporation's Definitive Information Statement. He highlighted the following key points:

1. The Notice advised stockholders who wished to participate in the Annual Stockholders' Meeting by remote communication and vote *in absentia* to pre-register through the Corporation's website by 3 May 2022.
2. Thereafter, pre-registered stockholders were emailed specific log-in credentials to access the voting portal and attend the Annual Stockholders' Meeting.
3. Stockholders were then permitted to submit their votes through the voting portal until 6 May 2022.
4. Stockholders who opted to vote by proxy were required to submit their proxy forms via email to the Corporate Secretary on or before 28 April 2022, in accordance with the By-Laws of the Corporation.
5. The Office of the Corporate Secretary shall tabulate all votes cast *in absentia*. SGV & Co., as the external auditor of the Corporation, will validate the results. The voting results on each matter will be displayed on the screen.
6. For any queries regarding the matters in the Definitive Information Statement or regarding the Corporation in general, the stockholders were encouraged to send in advance their questions regarding the items in the agenda by using the "Queries" tab found in the Annual Stockholders' Meeting page on or before 6 May 2022 so that they may be addressed during the meeting.

The Corporate Secretary stated that no questions were submitted by the stockholders before the aforesaid deadline. Questions received after the deadline were referred to the Corporation's Investor Relations Officer for a response.

IV. CERTIFICATION OF QUORUM

The President then requested the Corporate Secretary to certify the existence of a quorum for the valid transaction of business at the meeting.

The Corporate Secretary stated that based on the online registration record and the proxies on hand, stockholders owning One Billion Three Hundred Seventy Nine Million Seventy Four Thousand One Hundred Fifty Two (1,379,074,152) shares or 72.93% of the total outstanding capital stock of the Corporation were present or represented by proxy in the meeting.

The Certification issued by Ms. Maria Victoria C. Mendoza, Assistant Vice-President and Ms. Emylyn P. Audemard, Manager of the Philippine National Bank Trust Banking Group, the Corporation’s Stock Transfer Agent, on the tabulation of attendance is attached hereto as Annex “C”.

The Corporate Secretary thereafter certified that a quorum existed for the valid transaction of business.

V. APPROVAL OF THE MINUTES OF THE ANNUAL STOCKHOLDERS’ MEETING HELD ON 13 MAY 2021

The President proceeded to the next item in the Agenda, the approval of the Minutes of the Annual Stockholders’ Meeting held on 13 May 2021 (the “Minutes of the 2021 ASM”). The President stated that the Minutes of the 2021 ASM were attached to the Corporation’s Definitive Information Statement, which was posted on the Corporation’s website and disclosed to the Phil. Stock Exchange.

The Corporate Secretary presented Resolution No. SH-2022-01, and based on the votes received, reported the approval by the stockholders of the following resolution which was shown on the screen:

RESOLUTION NO. SH-2022-01

“**RESOLVED**, That the Minutes of the Annual Stockholders’ Meeting held on 13 May 2021 as disclosed in the Corporation’s Definitive Information Statement, be noted and approved.”

	FOR	AGAINST	ABSTAIN
Number of Shares Voted	1,379,074,130	0	0
Percentage of Outstanding Shares	72.93%	0%	0%

VI. PRESENTATION OF 2021 ANNUAL REPORT AND FINANCIAL REPORT

The President reported on the 2021 Annual Report of the Corporation and its subsidiaries (the "MacroAsia Group") and the Business Outlook for 2022. A copy of the President's Report is attached hereto as Annex "D".

Thereafter, the Chief Financial Officer, Mr. Amador T. Sendin, presented the Financial Report on the results of operations for the year ended 31 December 2021, a copy of which is attached hereto as Annex "E".

VII. APPROVAL OF ANNUAL REPORT AND THE AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

The President requested the Corporate Secretary to present the proposed resolution regarding the notation and approval of the Annual Report and the Audited Financial Statements of the Corporation for the year ended 31 December 2021.

The Corporate Secretary presented Resolution No. SH-2022-02, and based on the votes received, reported the approval by the stockholders of the following resolution which was shown on the screen:

RESOLUTION NO. SH-2022-02

"RESOLVED, That the Corporation's Annual Report and Audited Financial Statements for the year ended 31 December 2021 be noted and approved."

	FOR	AGAINST	ABSTAIN
Number of Shares Voted	1,379,074,130	0	0
Percentage of Outstanding Shares	72.93%	0%	0%

VIII. RATIFICATION OF ALL ACTS, PROCEEDINGS AND RESOLUTIONS OF THE BOARD OF DIRECTORS AND MANAGEMENT SINCE THE 2021 ANNUAL STOCKHOLDERS' MEETING UP TO 12 MAY 2022

The President then proceeded to the approval, confirmation and ratification of all acts, proceedings and resolutions of the Board of Directors and Management of the Corporation since the Annual Stockholders' Meeting held on 13 May 2021 up to 12 May 2022.

The President stated that a summary of the acts, proceedings and resolutions of the Board and Management is contained in the Definitive Information Statement.

The Corporate Secretary thereafter presented Resolution No. SH-2022-03, and based on the votes received, reported the approval by the stockholders of the following resolution which was shown on the screen:

RESOLUTION NO. SH-2022-03

“**RESOLVED**, That all acts, proceedings and resolutions of the Board of Directors and of Management since the Annual Stockholders’ Meeting held on 13 May 2021 up to today’s meeting be, as they are hereby approved, confirmed and ratified.”

	FOR	AGAINST	ABSTAIN
Number of Shares Voted	1,379,074,130	0	0
Percentage of Outstanding Shares	72.93%	0%	0%

IX. ELECTION OF DIRECTORS

The President stated that the Articles of Incorporation of the Corporation provides for eleven (11) directors. The Board is composed of seven (7) Regular Directors and four (4) Independent Directors.

The President then requested the Corporate Secretary to explain the procedure for the nomination and election of the directors.

The Corporate Secretary explained that in accordance with the Corporation’s By-Laws and Manual on Corporate Governance, the nomination of the Corporation’s directors was conducted by the Corporate Governance Committee. All recommendations were signed by the nominating stockholders and were submitted to the Corporate Governance Committee and the Corporate Secretary at least thirty (30) days before the date of the Annual Stockholders’ Meeting.

In pre-screening the qualifications of the nominees for independent directors, the Corporate Governance Committee noted the rules outlined in the SEC Memorandum Circular No. 4, Series of 2017, regarding the term limits of Independent Directors, which provides that:

- 1) Independent directors shall serve for a maximum cumulative term of nine (9) years, reckoned from 2012;

- 2) In the instance that a company wants to retain an independent director who has served for nine (9) years, the Board should provide meritorious justification/s and seek shareholders' approval during the annual shareholders' meeting.

The Corporate Secretary stated that Mr. Ben C. Tiu has served the maximum cumulative term of nine (9) years as Independent Director of the Corporation.

The Board of Directors of the Corporation, during its meeting held on 18 March 2022, recognized that Mr. Tiu, backed by his technical expertise and experience in various fields, particularly in mining, banking and equities, has been an invaluable Independent Director of the Corporation. His guidance on projects which are in the process of being implemented, like those in the mining and water segments, is required especially with his perspective as an Independent Director, keenly speaking from experience and on behalf of minority interests. As the Corporation implements the spin-off of the mining business, the MacroAsia Group would benefit from Mr. Tiu's continued guidance and involvement in key committees.

Based on the aforesaid meritorious justifications, the Board approved the eligibility of Mr. Tiu to serve as an Independent Director of the Corporation for another two (2) years.

Based on aforesaid Board approval, the Corporate Governance Committee resolved to approve the re-nomination of Mr. Tiu as Independent Director.

The Corporate Secretary reported that the Corporate Governance Committee approved the following nominees for election as members of the Board of Directors of the Corporation for 2022-2023:

1. Dr. Lucio C. Tan
2. Carmen K. Tan
3. Eduardo Luis T. Luy
4. Lucio C. Tan III
5. Kyle Ellis C. Tan
6. Vivienne K. Tan
7. Michael G. Tan

For Independent Directors:

8. Johnip G. Cua
9. Ben C. Tiu
10. Marixi R. Prieto
11. Samuel C. Uy

The Corporate Secretary thereafter presented Resolution No. SH-2022-04, and based on the votes received by each of the nominees, and considering further that there are only eleven (11) nominees for the eleven (11) seats in the Board, reported the approval of the following resolution which was shown on the screen:

RESOLUTION NO. SH-2022-04

“RESOLVED, That the eleven (11) nominees to the Board of Directors who have been confirmed by the Corporate Governance Committee, namely:

1. Dr. Lucio C. Tan
2. Carmen K. Tan
3. Eduardo Luis T. Luy
4. Lucio C. Tan III
5. Kyle Ellis C. Tan
6. Vivienne K. Tan
7. Michael G. Tan

For Independent Directors:

8. Johnip G. Cua
9. Ben C. Tiu
10. Marixi R. Prieto
11. Samuel C. Uy

are hereby elected as directors of the Corporation for the ensuing year and until the election and qualification of their successors.”

The final votes received by the nominees are as follows:

	FOR	AGAINST	ABSTAIN
Dr. Lucio C. Tan	1,371,980,802	7,093,328	0
Carmen K. Tan	1,371,980,802	7,093,328	0
Eduardo Luis T. Luy	1,379,074,130	0	0
Lucio C. Tan III	1,379,074,130	0	0
Kyle Ellis C. Tan	1,379,074,130	0	0
Vivienne K. Tan	1,371,980,802	7,093,328	0
Michael G. Tan	1,371,980,802	7,093,328	0
Johnip G. Cua	1,371,980,802	7,093,328	0
Ben C. Tiu	1,371,980,802	7,093,328	0
Marixi R. Prieto	1,371,980,802	7,093,328	0
Samuel C. Uy	1,379,074,130	0	0

X. APPOINTMENT OF EXTERNAL AUDITOR

The President then proceeded to the appointment of the external auditor of the Corporation for the ensuing year. He requested the Chairman of the Audit Committee, Mr. Johnip G. Cua, to explain the endorsement of the external auditor.

Mr. Cua explained that the Corporation’s Manual of Corporate Governance provides that the Audit Committee is tasked to select and evaluate the External Auditor of the Corporation which is thereafter endorsed to the Board of Directors and presented to the stockholders for approval.

Mr. Cua reported that, after careful deliberation, and after evaluating the performance of the accounting firm of Sycip Gorres Velayo & Co. (SGV & Co.) for the past year, the Audit Committee endorsed to the Board its appointment as External Auditor of the Corporation for calendar year 2022. The appointment of SGV & Co. was approved by the Board of Directors on 18 March 2022.

The Corporate Secretary thereafter presented Resolution No. SH-2022-05, and based on the votes received, reported the approval by the stockholders of the following resolution which was shown on the screen:

RESOLUTION NO. SH-2022-05

“RESOLVED, That SGV & Co. be appointed as the External Auditor of the Corporation for calendar year 2022.”

	FOR	AGAINST	ABSTAIN
Number of Shares Voted	1,379,066,930	7,200	0
Percentage of Outstanding Shares	72.93%	0.0004%	0%

XI. OTHER MATTERS

The President advised the stockholders that the Corporation did not receive any queries on or before the 6 May 2022 deadline. He stated that the Corporation’s Investor Relations Officer will address any questions submitted after the deadline. He also informed the stockholders that they may submit additional questions regarding the meeting by sending an email to asmquery@macroasiacorp.com on or before 31 May 2022.

XII. ADJOURNMENT

There being no other matters to discuss, upon motion duly made and seconded, the meeting was adjourned.

PRESIDENT’S REPORT

Dear Shareholders, Management, Staff, and Other Stakeholders of MacroAsia:

The COVID-19 pandemic is the single biggest challenge that MacroAsia has faced so far in its operating history. Beyond work, it has caused unprecedented and continuing disruptions even in our personal lives, with very few of us being spared of its destructive after-effects. Despite the difficulty of it all, this hardship somehow summoned extraordinary resilience in our operating teams, shaped by our culture of passionate service excellence throughout the years.

While bearing the brunt of financial losses due to diminished travel volumes in the various airports as well as the ever-present threat of contracting COVID, our people continue to serve in the airport terminals. This crisis tells the story of MacroAsia’s strength and fortitude as our people were continuously tested in their ability to deal with unforeseen situations, serve the public relentlessly, and emerge as one unit tougher.

Our transformation as a Group was abrupt yet necessary. The travel downturn saw us implement with a heavy heart, several tranches of retrenchment and retirement from 2020 to 2021. Labor linked directly to business activities is a key driver for our operating costs and success as a services provider. Before the crisis in December 2019, our workforce, including our outsourced personnel, numbered 13,645. By December 2021, this was trimmed to 7,851, a 42% reduction that tracks the severe downturn in our businesses. This 2022 though, as flight and passenger movements trend towards recovery, we have also started increasing again our workforce, hopefully reaching pre-pandemic levels within two years or less.

Revenues or top line numbers are the biggest challenge for MacroAsia. In 2019, our pre-pandemic baseline, we reached record revenues of Php6.16 billion, but this dropped to Php2.26 billion in 2020 due to the onset of COVID-19 restrictions in March 2020, and bottomed out to Php1.95 billion in 2021 as restrictions were in place for a full year. We foresee that 2022 revenues will be on an upward trend compared to 2021, as recent data shows travel movements have now increased.

In 2019, our bottom line or net income was Php1.19 billion, but in 2020, we booked a record net loss of Php1.80 billion, driven substantially by expected credit loss provisions for various airline clients due to the prevailing uncertainties in the aviation industry then. For 2021, such net loss was trimmed down to Php150 million, despite the lower revenue base compared to 2019. Our reversal of the prior year’s credit loss provisions, reduced labor costs, lower operating expenses and improved businesses outside of the aviation industry contributed to this recovery. The changes in the makeup of our workforce of our aviation-related companies contributed to a comprehensive income of Php161 million for 2021, as these companies benefitted from gains on defined retirement benefit plans due to a younger, lean and renewed workforce. Our financial statements are explained in more detail in the management report which forms part of our Information Statement and the audited financial statements as previously disclosed to the public through the PSE and MAC websites.

Our operating statistics for 2021 reflect the business downturn in our aviation services segments. Our maintenance, repair and overhaul business (MRO) through Lufthansa Technik Philippines (LTP) trended towards recovery and net income since August 2021. By the end of 2021, LTP's fleet portfolio for the line maintenance business was 78% of pre-pandemic level, although its heavy repair business or base maintenance activities were just 52% of 2019 level. For 2022, LTP forecasts that its base maintenance business will approximate 2019 levels, as it eyes the opening of added capacity through a newly-constructed hangar which commercially opened in April 2022.

In 2021, our food services group continued to face low demands for inflight meals, as meal volumes were merely 15% of pre-pandemic levels due to the low outbound passenger volumes of international travel from the Philippines during the year. However, the institutional and non-airline meal sales driven by our commissary that opened in 2019 saw a 10% year-on-year growth from 2020 to 2021, with major clients coming on board in 2022.

Like airline catering, our ground handling business has been constrained by low commercial flight volumes, although charter, cargo and repatriation flights provided some relief in various airports. The flight movements that we serviced in 2021 remained at 36% of pre-pandemic levels. With the Philippines having most areas now at COVID-19 Alert Level 1 status according to the Philippine Inter-Agency Task Force for the Management of Emerging Infectious Diseases (IATF), most locations in the country have eased up on travel restrictions. This has caused domestic carriers to recently forecast that they will reach domestic travel volumes on par with pre-pandemic levels within 2022. However, international flight movements may still take a year or more to return to pre-pandemic volumes.

One segment that grew for us in 2021 is the water business, as our volumes in terms of cubic meters sold jumped by 137% compared to 2019, mainly due to the bigger client base in our Cavite operations and in our startup in Nueva Vizcaya. Our billed water volume in 2019 was 4.5 million cubic meters, compared to 10.6 million cubic meters in 2021. Due to the momentum of our business development efforts, we expect this segment to grow further in 2022.

As for mining, it may be recalled that through government grant, the MAC Parent Company held Mineral Production Sharing Agreement (MPSA) Nos. 220-2005-IVB and 221-2005-IVB covering 1,113.98 and 410.00 hectares respectively in Brooke's Point Palawan. The said MPSAs granted MAC the exclusive right to explore, develop and commercially utilize nickel, chromite, iron and other associated mineral deposits within the contract area. In line with plans to spin-off mining, MAC Parent assigned said rights to its wholly-owned subsidiary, MacroAsia Mining Corporation (MMC). In 2021, MAC received from the DENR the Notice of Issuance of an Order for the Deed of Assignment dated June 7, 2019 executed by and between MAC and MMC. Consequently, the MPSAs are now being recorded in the name of MacroAsia Mining Corporation, and during MAC's Special Board Meeting on July 23, 2021, the Board approved the signing of a Memorandum of Agreement (MOA) between MMC and Calmia Nickel, Inc. for the Infanta nickel mine in Brooke's Point Palawan. In exchange for royalties to MacroAsia, the agreement allows Calmia to explore and operate the Infanta Nickel Mine as covered by the MPSA of MMC in Brooke's Point, Palawan.

Plans and Prospects

While waiting for the return of travel volumes to pre-pandemic levels, our operating teams will continue to focus on “Scaling The Edges” – growing our non-airline related business through water concessions, non-airline food business, resource development and the like. These entail our focus on three key areas:

- A. **Growth in institutional and commissary food business:** MacroAsia SATS Food Industries (MSFI), which started operations in March 2019, will continue to increase its client portfolio for its Muntinlupa commissary, but will also commence studies on potential expansion for commissaries outside of Luzon due to the business opportunities presented by its major clients.
- B. **Expansion of our water businesses:** While our concession areas grew in 2021, we expect further growth in coverage for potable water supply in other locations in 2022. We will continue to work closely with our current partners to grow what we already have, while pursuing new projects that will deliver returns within a short development period. Beyond potable water supply, this will include wastewater treatment and septage management systems.
- C. **Revisiting our Mining Assets (MPSAs):** Through MacroAsia Mining Corporation, an unlisted subsidiary, we believe that we can achieve a market valuation of the MPSAs in due time. MacroAsia Corporation also has subsidiaries like Bulawan Mining Corporation and MMC Management and Development Corporation that also have mining rights that offer development potentials, which we will continue to explore together with other partners.

While our aviation-services businesses’ topline progress continue to move in line with the return of airline travel, we foresee that our progress in the aforementioned non-airline segments will strengthen our cash generation capability during critical incidents that impact on the aviation industry. Our defensive strategy of “Scaling The Edges” will make MAC stronger and more resilient, beyond surviving the COVID-19 crisis.

Our efforts towards the transformation of MacroAsia beyond aviation services can only be strengthened by your continuing support and confidence in us and our operating teams. On behalf of the executive and management teams, we thank the Directors of the various boards for their valuable feedback, guidance and motivation. We also thank our partners, our staff and our host communities for their collective passion to work together so that we can all survive and do better in these difficult times. And last, but definitely not the least, we thank our shareholders for their trust and confidence in our leadership and stewardship as we move onward and upward to bring MacroAsia to new heights.

2021 Financial Report

Dear MAC stakeholders,

2021 is a full year of operations constrained by COVID-19 restrictions, not only in the Philippines but regionally where sources of international passengers into the Philippines come from. The aviation-related revenue squeeze for the MacroAsia Group resulted into the adjustment of our overall strategy from one of “**Focusing on the Core Businesses**” to “**Scaling the Edges**”. With this key direction, our teams have underpinned two strategic priorities:

Firstly, **CASH GENERATION** – requiring a keen focus on sales to cash conversion and accelerating growth, whether organic or inorganic, on those areas with highest business potential notwithstanding the pandemic;

Secondly, **CASH CONSERVATION** – an asset-light approach for new projects are pursued, and for existing businesses, we leverage our scale and operating capabilities, streamlining business processes to eliminate activities that are not valued by end customers as we sustain a culture of expense efficiency to drive sustainable growth.

In 2021, we had to cope with continuing mobility restrictions, especially with the Delta Variant hitting the country. In NAIA, average flight movements per day for 2021 was 17% of 2019 pre-pandemic average, although there were indicative increases of passenger and flight movements as we moved into the last quarter of 2021. In hindsight, our internal assessments follow the general feeling that the volume trendline forecast reflects prolonged recovery, until we reach the baseline levels of 2019.

The Group’s top-line consolidated revenues stood at Php1.95 billion, 14% lower than the Php2.26 billion revenues in 2020. The bottom line reflects a Net Loss of Php150.9 million, a significant decline from the net loss of Php1.8 billion in 2020.

In the fourth quarter comparisons, the Q4 income for 2021 of Php352.4 million is mainly due to the contribution of our MRO segment, which has returned to profitability starting in the third quarter of 2021.

The Group ended 2021 with a total consolidated comprehensive income of Php161.8 million, compared to a comprehensive loss of Php2.03 billion in 2020. This improvement in 2021 reflects the lower operating loss level, aided by other comprehensive income gains from remeasurement of retirement obligations mainly due to lower staff numbers and to foreign currency translation adjustments.

In 2021, while the Group’s core aviation-related business units experienced a continuing revenue downturn, the water segment has reported a 25% increase in revenues. One driver is the revenue contribution of Aqualink Resources Development Inc. (ARDI), a new JV of our fully-owned Naic Water Services Corporation with Lancaster New City’s developer, PRO-FRIENDS. This JV is managing the water system of Lancaster New City, a huge real estate development in Cavite.

Our ground handling business continued to be impacted by the decline in flight volumes, but as travel restrictions were relaxed in line with the government's success in its vaccination efforts and to spur the reopening of the economy, travel volumes in the airports started to return slowly by the second half of 2021.

Our airline catering business faced substantial meal volume downturn as commercial passenger travel was restricted. Towards the third quarter of 2021, travel and inflight meal volumes started to grow, especially in the PAL Kitchen operated by MacroAsia. In the latter part of 2021, our non-airline catering company, MacroAsia SATS Food Industries, has been successful in acquiring key accounts for servicing, enabling a significant revenue portfolio growth that will benefit future operating periods from 2022 and onwards.

During 2021, the Group has also re-evaluated accounting provisions related to impairment of non-financial assets and expected credit losses in line with the prevailing business conditions. With the issuance of E.O. 130 lifting the nine-year moratorium on granting new mining permits in the Philippines, and as the Infanta Nickel Mine generated advanced royalty receipts from a mining operator, management reversed the previously recognized mining-related impairment loss amounting to P217.1 million. With the agreement signed with the mine operator, it is expected that the nickel mine will reopen soon, providing recurring cash inflow through royalty payments.

Total direct costs amounted to P1.99 billion, a 16% decrease from the P2.36 billion costs in 2020, as direct labor was reduced in line with business volumes. Consolidated operating expenses decreased by Php 464.1 million or 50% from 2020's Php931.66 million, mainly due to cost saving measures implemented, and to also reflect the reversal of accounting impairment provisions.

Financing charges increased to Php159.71 million from Php132.52 million in 2020, due to the interest on lease liabilities from the long term leased water facility of Aqualink Resources - the Lancaster New City JV. This JV leases its water facilities comprised of pumps and pipeline systems from the real estate developer, and a portion of the lease payment to the lessor is being amortized as interest expense over the lease term. Finance charges pertaining to the loans payable of the Group decreased as loan payables were reduced through periodic payments.

Our investments in three JVs where MAC holds a minority stake resulted into a share in net income of associates amounting to Php317.8 million, in contrast to a share in net loss of associates amounting to Php639.8 million in 2020.

Share in net income of Lufthansa Technik Philippines, which MAC owns 49%, amounted to Php350.6 million compared to share in net loss of Php616.3 million in 2020.

Cebu Pacific Catering Services, which MAC owns 40%, resulted into a loss contribution share of Php6.0 million in 2021, compared to loss contribution of Php1.73 million in 2020.

MAC's 30% share in net loss from JASCO which performs groundhandling in Narita, Japan amounted Php42.95 million in 2021 compared to Php30.4 million in 2020.

Financial Position

The Group's consolidated total assets stood at Php10.47 billion, a 1% increase from 2020's Php10.39 billion, due to movements in the Investment in Associates account which is recognized under the equity method of accounting, and increase in right of use asset for the long-term lease of a water facilities by Aqualink, but offset by the decline in cash and cash equivalents and receivables and other contract asset.

Receivables and contract assets declined by Php397.8 million or 23%, due to collection of trade receivables and decrease in provisions for doubtful accounts and expected credit losses.

Property and equipment of Php2.35 billion decreased by Php89.15 million compared to Php2.44 billion in 2020, due to straight-line depreciation of assets, offset by capital expenditures mainly in the water subsidiaries and the aviation training school.

Loans payable of Php1.56 billion refers to outstanding local bank loans availed before 2020 by several subsidiaries to finance their asset acquisition. The 13% net decrease in loans payable is due to loan amortization payments.

The standalone listed Parent Company's Total Assets declined by 4% to Php5.8 billion, from Php6.0 billion in 2020, mainly due to the decrease in its Cash from Php904.7 million to Php220.0 million in 2021. The cash decreased due to debt-servicing and bridge financing for subsidiaries for some of their projects.

By end of 2021, MAC Parent's retained earnings available for dividends amount to Php2.37 billion. This can be used for future dividends, whether cash, stocks or property dividends to separate the mining or water assets into different holding companies.

Buyback Program

No buyback transactions happened in 2021 in line with the cash conservation program of the Company. As of December 31, 2021, we have 42,347,600 treasury shares in MAC. In the Annual Shareholders' Meeting last year, Management was authorized by the shareholders to sell such treasury shares for fund raising purposes if needed, but no such related actions were pursued after that annual meeting.

By end of 2021, the Group is in a Net Debt position of Php1.08 billion, as a result of previous pre-pandemic borrowings to fund capital expenditures, mainly to complete the huge Sucat Commissary, the sewage treatment plants in Boracay Island, and the airport vehicles and equipment needed in the expansion of groundhandling in several airports.

The current loans stood at Php651.2 million as of December 2021. This pertains to portions of long-term debt falling due in 2022. Companies with long-term loans are MacroAsia-SATS Food Industries (commissary), MacroAsia Airport Services (GSE), Boracay Tubi (STP), and Summa Water (WTP). These companies continue to have recurring cash flow to settle their obligations, despite the tough operating environment.

MAC, the listed parent company on a stand-alone basis, is in a net debt position of Php64.5 million as of December 2021. Its short-term borrowings of Php275 million, which was used as

bridge financing for various projects of subsidiaries is down to Php265 million today, as payments have been made.

With the looming turnaround of aviation-related businesses, increased capacity in its property, plant and equipment (PPE), and the cash inflow from new projects, the Group stands on solid financial ground to continue operating in the challenging environment, while meeting the selected programs for expansion in some segments.

The Group's cash stood at Php503.6 million by year-end 2021. The principal movements in cash were driven by loan settlements, capital expenditures and funding of operating cash flow requirements.

Consolidated capital expenditure in 2021 was restrained to Php157 million, consistent with the strategic direction. It is forecasted that CAPEX spending will double in 2022, funded partially by debt for new water projects in Cavite that will generate immediate cash flow.

2021 Outlook

While the effects of the worldwide pandemic are severe for air travel and tourism, flights and passenger movements now trend towards recovery. In the meantime, our business units in the aviation sector will continue to implement the cash conservation and cost containment strategies, while we will also pursue new revenue streams in other areas.

While initial trends early in 2022 point to return to profitability for some key units as breakeven points are breached because of increased travel volumes, we remain very cautious in our perspective of the aviation services business, but bullish on the other non-airline activities that have shown sustainability and resiliency during the pandemic period. The impact of external factors, like another COVID-19 spike or the Russian-Ukraine conflict are hovering dark clouds for aviation travel.

Our teams commit to drive our recovery towards profitability, although we know that external factors continue to burden us against an immediate rebound. At this point, we thank you for your support as we continue to adapt and grow further in this difficult period.

CERTIFICATION OF INDEPENDENT DIRECTOR

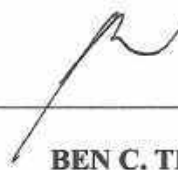

I, **Ben C. Tiu**, Filipino, of legal age and a resident of GSC Corporate Tower Upper Penthouse, Lot 21 & 22, Block 33, Triangle Drive, BGC, Taguig City, after having been duly sworn in accordance with law do hereby declare that:

GUIDELINES FOR PARTICIPATING VIA REMOTE COMMUNICATION AND VOTING *IN ABSENTIA*

The 2023 Annual Stockholders' Meeting (ASM) of MacroAsia Corporation (the "Corporation") will be held on May 11, 2023 at 3:00 P.M. The Board of Directors of the Corporation has fixed April 11, 2023 as the record date for the determination of stockholders entitled to notice of, to attend, and to vote at the ASM and any adjournment thereof.

The Board of Directors of the Corporation has approved and authorized stockholders to participate in the ASM via remote communication and to exercise their right to vote *in absentia* or by proxy. This is in view of the community quarantine currently implemented in various areas of the country and in consideration of health and safety concerns of everyone involved.

REGISTRATION

The Annual Stockholders' Meeting will be streamed live.

Stockholders who wish to attend the ASM through remote communication must register on or before May 2, 2023 through the webpage portal available at <http://www.macroasiacorp.com/asm>.

Stockholders who intend to vote by proxy must also register through the webpage portal at <http://www.macroasiacorp.com/asm> and submit their duly accomplished proxy forms via email to macasm@macroasiacorp.com, not later than April 26, 2023.

For registration purposes, the link will require stockholders to upload the following requirements and documents, subject to verification and validation:

1. Individual Stockholders

- 1.1. Clear digital copy of the front and back portion of a valid government-issued identification card/s (ID/s), which include the passport, driver's license, SSS ID, senior citizen ID, among others in order to validate the registration of the stockholder
- 1.2. Active e-mail address/es
- 1.3. Active contact number/s, with area and country codes

2. Multiple Stockholders or with joint accounts

- 2.1. Clear digital copy of the front and back portion of a valid government-issued identification card/s (ID/s), which include the passport, driver's license, SSS ID, senior citizen ID, among others in order to validate the registration of the stockholders
- 2.2. Active e-mail addresses of the stockholders
- 2.3. Active contact numbers, with area and country codes
- 2.4. Digital copy of an authorization letter executed by all named holders, authorizing a holder to vote for and on behalf of the account

3. Corporate Stockholders

- 3.1. Digital copy of the Secretary's Certificate (or equivalent for non-resident) attesting to the authority of the representative to vote for and on behalf of the corporation
- 3.2. Clear digital copy of the front and back portion of a valid government-issued identification card/s (ID/s), which include the passport, driver's license, SSS ID,

senior citizen ID, among others to validate the registration of the authorized representative

3.3. Active e-mail address/es of the authorized representative

3.4. Active contact number of an authorized representative, with area and country codes

4. PCD Participants/Brokers

4.1. Digital copy of the Secretary's Certificate (or equivalent for non-resident) attesting to the authority of the representative to vote for and on behalf of the PCD participant/broker

4.2. Digital copy of the certificate of shareholdings issued by the PCD/broker

4.3. Clear digital copy of the front and back portion of a valid government-issued identification card/s (ID/s), which include the passport, driver's license, SSS ID, senior citizen ID, among others to validate the registration of the authorized representative

4.4. Active e-mail address/es of the authorized representative

4.5. Active contact number of the authorized representative, with area and country codes

The documents will be validated by the Office of the Corporate Secretary, in coordination with PNB Trust, the Stock and Transfer Agent of the Corporation. Successfully registered stockholders will receive an email containing a link to the voting portal, log-in details, and other relevant information and instructions.

ONLINE VOTING

1. **Online voting must be completed on or before May 5, 2023.**

2. A successfully registered stockholder may access the voting portal through the link and using the log-in details emailed to them.

3. Upon accessing the portal, the stockholder can vote on each agenda item. A brief description of each item for stockholders' approval will be appended to the Notice of Meeting.

3.1 A stockholder has the option to vote "For", "No", or "Abstain" on each agenda item for approval.

3.2 For the election of directors, the stockholder has the option to vote for all nominees, withhold vote for any of the nominees, or vote for certain nominees only.

Note: A stockholder may vote such number of his/her shares for as many persons as there are directors to be elected or he may cumulate said shares and give one candidate as many votes as the number of directors to be elected multiplied by the number of his shares shall equal, or he may distribute them on the same principle among as many candidates as he shall see fit, provided, that the total number of votes cast shall not exceed the number of shares owned by the stockholder.

4. Once the stockholder has finalized his vote, he can proceed to submit his vote by clicking the "Submit" button. The stockholder cannot change and re-submit votes.

5. The Office of the Corporate Secretary shall tabulate all votes cast *in absentia*. SGV & Company, as the external auditor of the Corporation, will validate the results.
6. Stockholders who register on the website for voting *in absentia* are hereby deemed to have given their consent to the collection, use, storing, and processing of their personal data by the Corporation and any other relevant third party for the purpose of electronic voting *in absentia* during the Annual Stockholders' Meeting. Kindly refer to the attached Annual Stockholders' Meeting Privacy Statement.

ASM LIVESTREAM

The ASM will be broadcasted live and stockholders who have successfully registered will be provided access to participate via remote communication. Instructions on how to access the livestream will be posted at <http://www.macroasiacorp.com/asm>.

Pursuant to SEC Memorandum Circular No. 6, Series of 2020, please be informed that there will be an audio and video recording of the ASM, and will be made available to participating stockholders upon request.

OPEN FORUM

During the virtual meeting, the Corporation will have an Open Forum, during which, the meeting's moderator will read queries submitted by the stockholders in advance. Representatives of the Corporation shall endeavor to answer as many of the questions and comments received from stockholders as time will allow.

Stockholders should send their questions in advance by clicking the **Queries** tab found in the Annual Stockholder's Meeting page (<http://www.macroasiacorp.com/asm>) not later than May 5, 2023.

Questions/comments received but not entertained during the Open Forum due to time constraints will be addressed separately by the Corporation's Investor Relations Officer.

For any concerns, please contact the Corporation's Investor Relations Department at (+632) 8840-2001 local 219 or via email at macasm@macroasiacorp.com.

For complete information on the 2023 Annual Stockholders' Meeting, please visit <http://www.macroasiacorp.com/asm>.

SIGNATURES

Pursuant to the requirement of Sec 17 of the Code and Sec 141 of the Corporation Code of the Philippines, this report is signed on behalf of the registrant by the undersigned, thereunto duly authorized, in the City of Makati on March 23, 2023.

**STATEMENT OF MANAGEMENT'S RESPONSIBILITY
FOR CONSOLIDATED FINANCIAL STATEMENTS**

The management of MacroAsia Corporation and its Subsidiaries (collectively referred to as "the Company") is responsible for the preparation and fair presentation of the consolidated financial statements including the schedules attached therein, for the years ended December 31, 2022 and 2021 and for each of the three years in the period ended December 31, 2022, in accordance with Philippine Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

The Board of Directors reviews and approves the consolidated financial statements including the schedules attached therein, and submits the same to the stockholders.

SyCip Gorres Velayo & Co., the independent auditor appointed by the stockholders, has audited the consolidated financial statements of the Company in accordance with Philippine Standards on Auditing, and in its report to the stockholders, has expressed its opinion on the fairness of presentation upon completion of such audit.

INDEPENDENT AUDITOR'S REPORT

The Stockholders and the Board of Directors
MacroAsia Corporation
12th Floor, PNB Allied Bank Center
6754 Ayala Avenue, Makati City

Opinion

We have audited the consolidated financial statements of MacroAsia Corporation (the Company) and its subsidiaries (collectively as the Group), which comprise the consolidated balance sheets as at December 31, 2022 and 2021, and the consolidated statements of income, consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended December 31, 2022, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2022 and 2021, and its consolidated financial performance and its consolidated cash flows for each of the three years in the period ended December 31, 2022 in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Revenue Recognition

The Group's revenue from ground handling and aviation which amounted to ₱2,049.5 million comprise 42% of the Group's total consolidated revenues for the year ended December 31, 2022. We considered revenue recognition from these sources as a key audit matter because of the significant amount and volume of transactions being processed and recorded, management's use of assumptions in estimating revenue based on service agreements, and the corresponding risk of not recognizing revenue in the proper period.

Refer to Notes 2 and 3 to the consolidated financial statements for the discussion of the relevant accounting policies and discussion of significant judgments and accounting estimates, and Note 19 to the consolidated financial statements for the discussions on revenue recognition.

Audit Response

We tested the relevant controls within the Group's revenue recognition process for ground handling and aviation. On a sampling basis, we compared the recorded revenue during the year to supporting evidence, such as invoices, service agreements and other related documents and assessed whether the related revenue is recognized and measured in accordance with PFRS 15, *Revenue from Contracts with Customers*. We selected sample manual journal entries related to revenue recognition and inspected the supporting documentation such as journal vouchers and credit memos. Furthermore, we evaluated the correlation of revenue, trade receivables and cash collections.

Recoverability of trade receivables

As of December 31, 2022, trade receivables amounting to ₱1,733.7 million, net of allowance for expected credit loss of ₱9.3 million, account for 91% of the total receivables and contract assets of the Group. For trade receivables without significant increase in credit risk, the Group applies the simplified approach in computing the expected credit loss (ECL). Under this approach, the Group recognizes a loss allowance based on lifetime ECLs at reporting date. The Group utilizes a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to debtors and the economic environment. Meanwhile, the Group applies the general approach in computing the ECL on trade receivables with significant increase in credit risk from the point of their initial recognition. Under this approach, the Group recognizes a loss allowance over the remaining life of the trade receivables, irrespective of timing of the default (a lifetime ECL). Any addition to or reversal of the allowance for ECL is recognized in profit or loss.

We considered the recoverability of trade receivables as a key audit matter because of the significance of both the amount involved and the exercise of management judgment in the use of ECL model. Key areas of judgment in calculating ECL include: segmenting the Group's credit risk exposures; defining default; assessing significant increases in credit risk of trade receivables from initial recognition; determining the other assumptions to be used in the ECL model such as timing and amounts of expected net recoveries from defaulted accounts; and incorporating forward-looking information, including the economic recovery from the COVID-19 pandemic.

Refer to Notes 2 and 3 to the consolidated financial statements for the discussion of the relevant accounting policies and discussion of significant judgments and accounting estimates, and Note 6 to the consolidated financial statements for the the detailed discussion on receivables.

Audit Response

We updated our understanding of the methodologies and models used for the Group's different credit exposures and assessed whether these considered the requirements of PFRS 9, *Financial Instruments*. We (a) evaluated the Group's assessment of the significant increase in credit risk of trade receivables from initial recognition; (b) assessed the Group's segmentation of its credit risk exposures based on homogeneity of credit risk characteristics; (b) tested the definition of default against historical analysis of accounts and credit risk management policies and practices in place; (c) tested historical loss rates by inspecting historical recoveries and write-offs; (d) compared the classification of outstanding exposures to their corresponding aging buckets; and (e) evaluated the forward-looking information used for overlay through statistical test and corroboration using publicly available information and our understanding of the Group's receivable portfolios and industry practices, including the economic recovery from the COVID-19 pandemic.

To the extent that the loss allowance analysis is based on credit exposures that have been disaggregated into subsets with similar risk characteristics, we traced or re-performed the disaggregation from source systems to the loss allowance analysis. We also recalculated impairment provisions on a sample basis.

Impairment of goodwill, intangible assets with indefinite useful lives, service concession rights and non-financial operating assets

As at December 31, 2022, the total of the carrying values of Group's goodwill attributable to the cash generating units (CGUs) that are expected to benefit from the business combination, the intangible assets with indefinite useful life (right-to-use assets), the service concession rights and the non-financial operating assets amounted to ₱6,658.4 million. Under PFRSs, the Group is required to annually perform impairment testing of goodwill and intangible assets with indefinite useful lives. Further, PFRSs require that the Group assess at the end of each reporting period whether there is any indication that the service concession rights and non-financial assets are impaired, and if any impairment indicators exist, the Group should estimate the recoverable amount of these assets.

We considered the impairment testing of goodwill, intangible assets with indefinite useful life, service concession right and non-financial operating assets as a key audit matter because their carrying values are material to the consolidated financial statements and the management's impairment assessment process requires significant judgment and assumptions, specifically the anticipated revenue growth and forecasted volume of flights serviced and meals ordered, annual water consumption, tariff rate, growth rates and discount rates.

Refer to Notes 2 and 3 to the consolidated financial statements for the relevant accounting policies and a discussion of the significant judgments, and Notes 11, 13, 15 and 28 for the detailed discussion on goodwill, intangible assets with indefinite useful lives, service concession rights and non-financial operating assets.

Audit Response

We involved our internal specialist in evaluating the methodologies and the assumptions used to estimate the projected cash flows of the CGUs. We compared the key assumptions used against the historical performance of the CGUs, industry/market outlook and other relevant external data. We also inquired of management about their plans in support of the assumptions used.

We tested the parameters used in the determination of the discount rates against market data. We also reviewed the Group's disclosures about those assumptions to which the outcome of the impairment test is most sensitive, specifically those that have the most significant effect on the determination of the recoverable amount of goodwill, intangible assets with indefinite useful life, service concession rights and non-financial operating assets.

Accounting for Investment in a Significant Associate

The Group's 49% interest in Lufthansa Technik Philippines, Inc. (LTP) is accounted for under the equity method and amounted to ₱1,649.3 million as of December 31, 2022 representing 14% of total consolidated assets. For the year ended December 31, 2022, the Group's share in the net earnings of LTP amounted to ₱499.8 million representing 108% of consolidated net income. LTP's net earnings are significantly affected by the amount of provisions for claims and losses since LTP is also a party to certain claims by third parties in the normal course of its business. The determination of whether or not a provision should be recognized, and the estimation of provision for losses arising from such claims require significant management judgment.

Refer to Notes 2 and 3 to the consolidated financial statements for the relevant accounting policies and a discussion of significant judgments, and Note 9 for the detailed discussions on the investment in LTP.

Audit Response

We obtained an understanding of LTP's revenue, cost and expense recognition policies and procedures and tested the relevant controls on the information system and manual processes. We obtained the audited financial performance of LTP as at and for the year ended December 31, 2022 and recomputed the Group's share in LTP's net earnings.

We inquired of LTP's management about the progress and status of significant claims against LTP, its potential exposure to the related losses and LTP management's assessment of the likely outcome. We further reviewed the minutes of meetings of LTP's Board of Directors and other documents supporting LTP management's assessment of loss, contingencies and the significant judgments exercised in the estimation of recognized provisions for losses. We evaluated the position of LTP's management on each of the significant claims by considering the relevant documents and information.

Other Information

Management is responsible for the other information. The other information comprises the Philippine Securities and Exchange Commission (SEC) Form 17 A for the year ended December 31, 2022, but does not include the consolidated financial statements and our auditor's report thereon which we obtained prior to the date of the Auditor's Report, and the SEC Form 20 - IS (Definitive Information Statement) and Annual Report for the year ended December 31, 2022, which are expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements.

We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

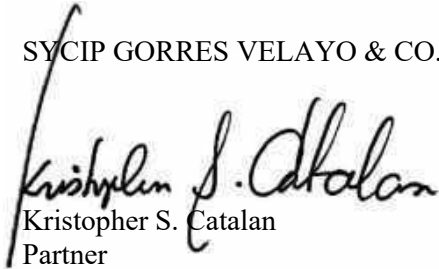

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in the independent auditor's report is Kristopher S. Catalan.

MACROASIA CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information and Business Operations

Corporate Information

MacroAsia Corporation (the Company or MAC), a publicly-listed corporation, was incorporated in the Philippines on February 16, 1970 under the name Infanta Mineral & Industrial Corporation to engage in the business of geological exploration and development. On January 26, 1994, its Articles of Incorporation was amended to change its primary purpose from exploration and development to that of engaging in the business of a holding company, and changed its corporate name to Cobertson Holdings Corporation. On November 6, 1995, the Company's Articles of Incorporation was again amended to change its corporate name to its present name. On August 7, 2018, the Company's Articles of Incorporation was further amended for the extension of the Company's corporate life for another 50 years, from and after February 15, 2020. However, under the Revised Corporation Code of the Philippines, MAC shall have perpetual corporate life. Its registered office address is at 12th Floor, PNB Allied Bank Center, 6754 Ayala Avenue, Makati City.

Business Operations

The principal activities of the Company and its subsidiaries (collectively referred to as the Group) are described in Note 4. The Company, through its subsidiaries and associates (see Note 9), is primarily engaged in aviation-support businesses at the Ninoy Aquino International Airport (NAIA), Manila Domestic Airport (MDA), Mactan-Cebu International Airport (MCIA), Kalibo International Airport (KIA), Davao International Airport and the General Aviation Areas. It provides in-flight catering services, ground handling services for passenger and cargo aircraft, and helicopter charter flight services. It also operates/develops the sole economic zone within the NAIA.

Through MacroAsia Catering Services Corporation (MACS) and its subsidiaries, the Company also provides food requirements of some passenger terminal lounges in NAIA. MACS and its subsidiaries have also ventured into the provision of the food service requirements of non-airline institutional clients outside the airport. Through MacroAsia Properties Development Corporation (MAPDC), the Company started pursuing projects related to reclaimed water supply, bulk water supply using surface water sources, and water distribution in areas outside of Metro Manila. Further, considering the expertise of staff gained through the exploration of the Company's Infanta Nickel Project in Palawan, the Company has rendered nickel exploration services for other mining companies, through MacroAsia Mining Corporation (MMC), a wholly-owned subsidiary.

Through Lufthansa Technik Philippines, Inc. (LTP), an associate, which has a maintenance, repairs and overhaul facility in the Philippines, the Company provides globally competitive heavy maintenance and engineering services for specific models of Airbus and Boeing aircraft for airline clients all over the world.

The consolidated financial statements of the Group as of December 31, 2022 and 2021 and for each of the three years in the period ended December 31, 2022 were authorized for issuance by the Board of Directors (BOD) on March 23, 2023.

2. Summary of Significant Accounting and Financial Reporting Policies

Basis of Preparation

The consolidated financial statements have been prepared using the historical cost basis, except for equity investments held at fair value through other comprehensive income (FVTOCI) which are carried at fair value. The consolidated financial statements are presented in Philippine peso (Peso), which is the Company's functional and presentation currency. Amounts are rounded to the nearest Peso except when otherwise indicated.

Statement of Compliance

The consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRSs).

The financial reporting framework includes all applicable PFRSs, Philippine Accounting Standards (PAS) and Philippine Interpretations issued by the Philippine Interpretations Committee and International Financial Reporting Interpretations Committee (IFRIC) including the Philippine SEC pronouncements.

Changes in Accounting Policies

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new standards effective as at January 1, 2022. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Adoption of these new standards did not have an impact on the consolidated financial statements of the Group.

- Amendments to PFRS 3, *Business Combinations, Reference to the Conceptual Framework*

The amendments are intended to replace a reference to the Framework for the Preparation and Presentation of Financial Statements, issued in 1989, with a reference to the Conceptual Framework for Financial Reporting issued in March 2018 without significantly changing its requirements. The amendments added an exception to the recognition principle of PFRS 3 to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of PAS 37, *Provisions, Contingent Liabilities and Contingent Assets* or Philippine-IFRIC 21, *Levies*, if incurred separately.

At the same time, the amendments add a new paragraph to PFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date.

- Amendments to PAS 16, *Property, Plant and Equipment: Proceeds Before Intended Use*

The amendments prohibit entities deducting from the cost of an item of property, plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the costs of producing those items, in profit or loss.

- Amendments to PAS 37, *Onerous Contracts - Costs of Fulfilling a Contract*

The amendments specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making. The amendments apply a “directly related cost approach”. The costs that relate directly to a contract to provide goods or services include both incremental costs and an allocation of costs directly related to contract activities. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

- *Annual Improvements to PFRSs 2018-2020 Cycle*

- Amendments to PFRS 1, *First-time Adoption of Philippines Financial Reporting Standards, Subsidiary as a First-time Adopter*

The amendment permits a subsidiary that elects to apply paragraph D16(a) of PFRS 1 to measure cumulative translation differences using the amounts reported by the parent, based on the parent’s date of transition to PFRS. This amendment is also applied to an associate or joint venture that elects to apply paragraph D16(a) of PFRS 1.

- Amendments to PFRS 9, *Financial Instruments, Fees in the ‘10 per cent’ Test for Derecognition of Financial Liabilities*

The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other’s behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

- Amendments to PAS 41, *Agriculture, Taxation in Fair Value Measurements*

The amendment removes the requirement in paragraph 22 of PAS 41 that entities exclude cash flows for taxation when measuring the fair value of assets within the scope of PAS 41.

Standards Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Group does not expect that the future adoption of the said pronouncements will have a significant impact on its consolidated financial statements. The Group intends to adopt the following pronouncements when they become effective.

Effective beginning on or after January 1, 2023

- Amendments to PAS 12, *Income Taxes, Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction*

The amendments narrow the scope of the initial recognition exception under PAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences.

The amendments also clarify that where payments that settle a liability are deductible for tax purposes, it is a matter of judgement (having considered the applicable tax law) whether such deductions are attributable for tax purposes to the liability recognized in the financial statements (and interest expense) or to the related asset component (and interest expense).

An entity applies the amendments to transactions that occur on or after the beginning of the earliest comparative period presented for annual reporting periods on or after January 1, 2023.

- Amendments to PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors, Definition of Accounting Estimates*

The amendments introduce a new definition of accounting estimates and clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, the amendments clarify that the effects on an accounting estimate of a change in an input or a change in a measurement technique are changes in accounting estimates if they do not result from the correction of prior period errors.

An entity applies the amendments to changes in accounting policies and changes in accounting estimates that occur on or after January 1, 2023 with earlier adoption permitted. The amendments are not expected to have a material impact on the Group.

- Amendments to PAS 1, *Presentation of Financial Statements* and PFRS Practice Statement 2, *Disclosure of Accounting Policies*

The amendments provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by:

- Replacing the requirement for entities to disclose their ‘significant’ accounting policies with a requirement to disclose their ‘material’ accounting policies, and
- Adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures

The amendments to the Practice Statement provide non-mandatory guidance. Meanwhile, the amendments to PAS 1 are effective for annual periods beginning on or after January 1, 2023. Early application is permitted as long as this fact is disclosed. The amendments are not expected to have a material impact on the Group.

Effective beginning on or after January 1, 2024

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*

The amendments clarify paragraphs 69 to 76 of PAS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The amendments are effective for annual reporting periods beginning on or after January 1, 2023 and must be applied retrospectively. However, in November 2021, the International Accounting Standards Board (IASB) tentatively decided to defer the effective date to no earlier than January 1, 2024. The Group is currently assessing the impact the amendments will have on current practice and whether existing loan agreements may require renegotiation.

- Amendments to PFRS 16, *Leases, Lease Liability in a Sale and Leaseback*

The amendments specify how a seller-lessee measures the lease liability arising in a sale and leaseback transaction in a way that it does not recognize any amount of the gain or loss that relates to the right of use retained.

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively. Earlier adoption is permitted and that fact must be disclosed.

Effective beginning on or after January 1, 2025

- PFRS 17, *Insurance Contracts*

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

On December 15, 2021, the FRSC amended the mandatory effective date of PFRS 17 from January 1, 2023 to January 1, 2025. This is consistent with Circular Letter No. 2020-62 issued by the Insurance Commission which deferred the implementation of PFRS 17 by two (2) years after its effective date as decided by the IASB.

PFRS 17 is effective for reporting periods beginning on or after January 1, 2025, with comparative figures required. Early application is permitted.

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial Reporting Standards Council deferred the original effective date of January 1, 2016 of the said amendments until the IASB completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

The significant accounting policies adopted in the preparation of the consolidated financial statements are summarized below.

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Group, its direct subsidiaries, the subsidiaries of MACS, MAPDC, Boracay Tubi Systems Inc. (BTSI) and the subsidiary of MMC, Watery Business Solutions, Inc. (WBSI) and Allied Water Services, Inc. (AWSI), which are all incorporated in the Philippines and registered with the Philippine SEC as of December 31 of each year.

⁽⁵⁾ Incorporated on December 5, 2017 and started commercial operations on May 19, 2019

⁽⁶⁾ Ownership interest effective October 1, 2018

⁽⁷⁾ Ownership interest effective November 15, 2018

⁽⁸⁾ Started commercial operations on March 16, 2019

⁽⁹⁾ Change in ownership interest starting December 5, 2019 (see Note 11)

⁽¹⁰⁾ Ownership interest effective March 2, 2020

⁽¹¹⁾ Ownership interest effective March 9, 2021

⁽¹²⁾ Ownership interest effective February 11, 2021

Subsidiaries are entities over which the Group has control. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if and only if the Group has:

- power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement with the other vote holders of the investee;
- rights arising from other contractual arrangements; and
- the Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. Adjustments, where necessary, are made to ensure consistency with the policies adopted by the Group.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company.

Inter-company transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated but are considered as an impairment indicator of the assets transferred.

Non-controlling Interests

Non-controlling interest represents the portion of the net assets of consolidated subsidiaries not held by the Group. Non-controlling interest is presented separately in the consolidated statement of income, consolidated statement of comprehensive income and within the equity section of the consolidated balance sheet, separate from the Company's equity. Profit or loss and each component of other comprehensive income are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. Any excess or deficit of consideration paid over the carrying amount of the non-controlling interests is recognized in equity of the Company in transactions where the non-controlling interests are acquired or sold without loss of control. This is recognized in the Company's "other reserves". If the Group loses control over a subsidiary, it: (a) derecognizes the assets (including goodwill) and liabilities of the subsidiary; (b) derecognizes the carrying amount of any non-controlling interests; (c) derecognizes the cumulative translation differences recorded in equity; (d) recognizes the fair value of the consideration received; (e) recognizes the fair value of any investment retained; (f) recognizes any surplus or deficit in profit or loss; (g) reclassifies the parent's share of components previously recognized in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

The Group should re-attribute a proportion of the goodwill between the controlling and non-controlling interests when their relative ownership interests change. The proportion of goodwill that is attributable to the non-controlling interests is not necessarily equal to their ownership percentage.

Business Combination and Goodwill

Business combinations are accounted for using the acquisition method. As of the acquisition date, the acquirer shall recognize, separately from goodwill, the identifiable assets acquired, the liabilities assumed and any non-controlling interest in the acquiree. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value, and the amount of any non-controlling interest in the acquiree. The excess of consideration of an acquisition over the fair values of acquired identifiable assets and liabilities is recognized as goodwill. For each business combination, the acquirer has the option to measure the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

When a business is acquired, the financial assets and financial liabilities assumed are assessed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group as an acquirer shall report in its consolidated financial statements provisional amounts for the items for which the accounting is incomplete.

During the measurement period, the Group as an acquirer shall retrospectively adjust the provisional amounts recognized at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date and, if known, would have affected the measurement of the amounts recognized as of that date. During the measurement period, the Group as an acquirer shall also recognize additional assets or liabilities if new information is obtained about facts and circumstances that existed as of the acquisition date and, if known, would have resulted in the recognition of those assets and liabilities as of that date. The measurement period ends as soon as the Group as an acquirer receives the information it was seeking about facts and circumstances that existed as of the acquisition date or learns that more information is not obtainable. However, the measurement period shall not exceed one year from the acquisition date.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value as at the acquisition date through profit or loss. Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability will be recognized in accordance with PFRS 9, either in profit or loss or as a charge to other comprehensive income. If the contingent consideration is classified as equity, it shall not be remeasured until it is finally settled within equity. Goodwill is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interest over the fair values of net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units (CGU) that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill forms part of a CGU and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the CGU retained.

Common control business combinations

Where there are business combinations involving entities that are ultimately controlled by the same ultimate parent (i.e., controlling shareholders) before and after the business combination and that the control is not transitory ("business combinations under common control"), the Group accounts for such business combinations in accordance with the guidance provided by the Philippine Interpretations Committee Q&A No. 2011-02, PFRS 3.2 *Common Control Business Combinations*. The purchase method of accounting is used, if the transaction was deemed to have substance from the perspective of the reporting entity. In determining whether the business combination has substance, factors such as the underlying purpose of the business combination and the involvement of parties other than the combining entities such as the non-controlling interest, shall be considered. In cases where the transaction has no commercial substance, the business combination is accounted for using the pooling of interest method.

In applying the pooling of interest method, the Group follows the Philippine Interpretations Committee Q&A No. 2012-01, PFRS 3.2 - *Application of the Pooling of Interest Method for Business Combinations of Entities under Common Control in Consolidated Financial Statements*, which provides the following guidance:

- the assets and liabilities of the combining entities are reflected in the consolidated financial statements at their carrying amounts. No adjustments are made to reflect fair values, or recognize any new assets or liabilities, at the date of the combination. The only adjustments that are made are those adjustments to harmonize accounting policies;
- no new goodwill is recognized as a result of the combination. The only goodwill that is recognized is any existing goodwill relating to either of the combining entities. Any difference between the consideration paid or transferred and the equity acquired is reflected within equity as other equity reserve, i.e., either contribution or distribution of equity;
- the consolidated statement of income reflects the results of the combining entities for the full year, irrespective of when the combination took place; and
- as a policy, comparatives are presented as if the entities had always been combined.

Investments in Associates

Associates are entities over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but not control over those policies. The considerations made in determining significant influence are similar to those necessary to determine control over subsidiaries.

The Group's investments in its associates are accounted for using the equity method. Under the equity method, the investment in associates is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is neither amortized nor individually tested for impairment.

The profit or loss reflects the Group's share of the results of operations of the associates. Any change in other comprehensive income of the investee is presented as part of the Group's other comprehensive income. In addition, when there has been a change recognized directly in the equity of the associates, the Group recognizes its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealized gains and losses resulting from transactions between the Group and the associates are eliminated to the extent of the interest in the associates.

The aggregate of the Group's share of profit or loss of associates is shown in the profit or loss outside operating profit and represents profit or loss after tax and non-controlling interests in the subsidiaries of the associates.

After application of the equity method, the Group determines whether it is necessary to recognize an impairment loss on its investment in its associates. At each reporting date, the Group determines whether there is objective evidence that the investment in the associates is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associates and its carrying value, and then recognizes the loss in profit or loss.

Upon loss of significant influence over the associates, the Group measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the associates upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognized in profit or loss.

The financial statements of the associates are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group. Investments in associates pertain to the Company's investments in shares of stock of LTP, 49%-owned, Cebu Pacific Catering Services, Inc. (CPCS), 40%-owned, MacroAsia WLL, 35%-owned, Citicore Summa Water Corporation (CSWC), 24%-owned through SWRI and 30%-owned, Japan Airport Services Co., Ltd., (JASCO).

Foreign Currency-denominated Transactions and Translations

Each entity in the Group determines its own functional currency and the items included in the financial statements of each entity are measured using that functional currency. Transactions in foreign currencies are initially recorded in the foreign currency rate at the date of the transaction. Outstanding monetary assets and liabilities denominated in foreign currencies are translated at the foreign currency rate of exchange at end of reporting period. All differences are taken to profit or loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Various factors are considered in determining the functional currency of each entity within the Group, including prices of goods and services, competition, cost and expenses, and other factors including the currency in which financing deals are primarily undertaken. Additional factors are considered in determining the functional currency of a foreign operation, including whether its activities are carried as an extension of the Group rather than being carried out with significant autonomy.

The financial position and results of operations of associates in United States (US) Dollar (\$) and Japanese Yen (JPY) functional currency are translated into the Group's presentation currency using the following procedures:

- a. Assets and liabilities for each balance sheet presented are translated at the closing rate at the balance sheet date.
- b. Income and expenses for each statement of income and items recognized in other comprehensive income (except for the cumulative translation adjustments) are translated using the monthly average rate.
- c. Equity items other than those resulting from income and expense and other comprehensive income are translated at historical rates of exchange.
- d. All resulting exchange differences are recognized as part of other comprehensive income (loss) and as a separate component of equity presented as "Other components of equity" under "Share in foreign currency translation adjustments of an associate".

Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

At each reporting date, the Group analyzes the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies. For this analysis, the Group verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

As of December 31, 2022 and 2021, the Group's equity investments held at FVTOCI are carried at fair value (see Note 15). Also, fair values of financial instruments measured at amortized cost are disclosed in Note 32. The Group also discloses the fair value of its investment property with unrecognized fair value measurements (see Notes 12 and 32).

Financial Assets and Financial Liabilities

Financial assets are classified, at initial recognition, and subsequently measured at amortized cost, FVTOCI, and fair value through profit or loss (FVTPL).

Initial recognition

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain significant financing component or for which the Group has applied the practical expedient, the Group measures a financial asset at fair value plus, in the case of a financial asset not at FVTPL, transaction costs. Trade receivables that do not contain a significant financing component or which the Group has applied the practical expedient are measured at transaction price determined under PFRS 15, *Revenue from Contracts with Customers*.

In order for a financial asset to be classified and measured at amortized cost or FVTOCI, it needs to give rise to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at FVTOCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at FVTOCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at FVTPL

As at December 31, 2022 and 2021, the Group's financial assets consist of financial assets at amortized cost and financial assets at FVTOCI with no recycling of cumulative gains and losses upon derecognition.

Financial assets at amortized cost (debt instruments)

This category is most relevant to the Group. The Group measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are closely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

As of December 31, 2022 and 2021, the Group's financial assets at amortized cost includes cash and cash equivalents, receivables, net investment in lease, refundable deposits and restricted cash investments included under "Other noncurrent assets".

Financial assets designated at FVTOCI (debt instruments)

The Group measures debt instruments at FVTOCI if both of the following conditions are met:

- The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling.
- The contractual terms of the terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For debt instruments at FVTOCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognized in profit or loss and computed in the same manner as for financial assets measured at amortized cost. The remaining fair value changes are recognized in OCI. Upon derecognition, the cumulative fair value change recognized in OCI is recycled to profit or loss.

As of December 31, 2022 and 2021, the Group does not have debt instruments designated at FVTOCI.

Financial assets designated at FVTOCI (equity instruments)

Upon initial recognition, the Company can elect to classify irrevocably its equity instruments as equity instruments designated at FVTOCI when they meet the definition of equity under PAS 32, *Financial Instruments, Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as other income in profit or loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at FVTOCI are not subject to impairment assessment.

The Company elected to classify irrevocably its equity instruments under this category.

As of December 31, 2022 and 2021, the Group's equity instruments at FVTOCI include golf club shares and equity shares.

Impairment of financial assets

The Group recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to debtors and the economic environment.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual cash flows in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Other financial liabilities

This category pertains to financial liabilities that are not held for trading or not designated as FVTPL upon the inception of the liability. These include liabilities arising from operating and financing activities.

Borrowings are recognized initially at fair value, net of any transaction cost incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowing using the effective interest method. Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the end of reporting period.

Accounts payable and accrued expenses are recognized in the period in which the related money, goods or services are received or when a legally enforceable claim against the Group is established. These are measured at amortized cost, normally equal to the nominal amount.

Other financial liabilities are recognized initially at fair value and are subsequently carried at amortized cost, taking into account the impact of applying the effective interest method of amortization (or accretion) for any related premium or discount and any directly attributable transaction costs.

The Group's accounts payable and accrued expenses (except for statutory payables), lease liabilities, notes payable, long-term debts and dividends payable are classified as other financial liabilities.

Derecognition of Financial Assets and Financial Liabilities

Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of an entity of similar financial assets) is derecognized when:

- the right to receive cash flows from the asset has expired;
- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to third party under a "pass-through" arrangement; or
- the Group has transferred its right to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Where the Group has transferred its right to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset.

Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or has expired.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in profit or loss.

“Day 1” Difference

Where the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value (a “Day 1” difference) in profit or loss unless it qualifies for recognition as some other type of asset. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the “Day 1” difference amount.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset (i.e., rights that are not dependent on the occurrence of a future event) the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. The Group assesses that it has a currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default and insolvency or bankruptcy of the Group and all of the counterparties.

Current versus Non-Current Classification

The Group presents assets and liabilities in the consolidated balance sheet based on current/non-current classification.

An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realized within 12 months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

All other assets are classified as non-current.

A liability is current when it is:

- Expected to be settled in normal operating cycle
- Held primarily for the purpose of trading
- Due to be settled within 12 months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred income tax assets and liabilities are classified as non-current assets and liabilities.

Cash and Cash Equivalents

Cash consists of cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less from dates of acquisition and are subject to an insignificant risk of changes in value.

Cash and cash equivalents which are restricted in use are not presented as part of cash, but presented separately as part of “Other current assets” or “Other noncurrent assets” depending on the maturity.

Inventories

Inventories are stated at the lower of cost and net realizable value (NRV). Cost, which includes purchase price and costs incurred in bringing the product to its present location and condition, is determined on the basis of the moving average method.

NRV of food and beverage is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale. In the case of materials and supplies, NRV is the recoverable value of the inventories when disposed of at their current condition.

Value-Added Tax (VAT) and Tax Credit Certificates (TCCs)

Revenue, expenses, assets and liabilities are recognized net of the amount of VAT, if applicable. When VAT from sales of goods and/or services (output VAT) exceeds VAT passed on from purchases of goods or services (input VAT), the excess is recognized as payable in the consolidated balance sheet. When VAT passed on from purchase of goods or services (input VAT) exceeds VAT from sales of goods and/or services (output VAT), the excess is recognized as an asset in the consolidated balance sheet to the extent of the recoverable amount. Receivables and payables are stated with the amount of VAT included. For sale or purchase of services, related VAT is deferred until the related receivable or payable from the transaction has been collected or paid.

The unamortized portion is included input taxes account under “Other noncurrent assets” in the consolidated balance sheet. The Group maintains an allowance for any possible disallowance of conversion of input VAT to TCC. A review of input VAT is made on a continuing basis to determine the adequacy of allowance for probable losses at each reporting date.

The net amount of VAT recoverable from, or payable to taxation authority is included in “Other current assets” and “Accounts payable and accrued liabilities”, respectively, in the consolidated balance sheet.

TCCs pertain to amount of tax credit for which the Group is allowed or entitled to in accordance with applicable laws and can be used to settle the Group’s obligations due to the national government.

Creditable Withholding Taxes

Creditable withholding taxes are deducted from income tax due on the same year the revenue was recognized, with excess recognized as current asset.

Property, Plant and Equipment

Property, plant and equipment, except land, are stated at cost less accumulated depreciation and amortization and any impairment in value. Land is stated at cost less impairment in value, if any.

The initial cost of property, plant and equipment comprises its purchase price, including import duties, taxes, borrowing costs and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the property, plant and equipment have been put into operation, such as repairs and maintenance and overhaul costs, are normally charged to profit or loss in the period when the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property, plant and equipment.

Construction in progress, which is included in property, plant and equipment, is carried at cost. This includes cost of construction, equipment and other direct costs. Construction in progress is not depreciated until such time as the relevant assets are completed and become available for use.

Each part of an item of property and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets as follows:

	No. of years
Building	5 to 25
Kitchen and other operations equipment	3 to 10
Transportation equipment	5
Aviation equipment	2 to 10
Plant and technical equipment	10 to 20
Water pumps and machineries	10 to 20
Water pipelines	10
Drilling equipment	5
Office furniture, fixtures and equipment	3 to 7

Building and leasehold and land improvements are amortized over the respective lease term or the lives of the assets (which range from 2 to 25 years), whichever is shorter.

Depreciation and amortization of an item of property, plant and equipment begins when the asset becomes available for use, i.e., when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. Depreciation and amortization ceases at the date that the item is classified as held for sale (or included in a disposal group that is classified as held for sale) in accordance with PFRS 5, *Non-current Assets Held for Sale and Discontinued Operations* or the date the asset is derecognized, whichever is earlier.

The useful lives and depreciation and amortization methods are reviewed periodically to ensure that the residual values, periods and methods of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property, plant and equipment.

When property, plant and equipment are sold or retired, their cost, related accumulated depreciation and amortization and any accumulated impairment in value are removed from the accounts. Any gain or loss resulting from their disposal is included in profit or loss.

Fully depreciated property, plant and equipment are retained in the accounts until these are no longer in use.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for a consideration.

Net investment in the lease

The Group recognizes assets held under a finance lease as net investment in the lease. The net investment in the lease is the gross investment discounted at the interest rate implicit in the lease. The gross investment in the lease is the aggregate of the minimum lease payments receivable by the Group,

and any guaranteed and unguaranteed residual value. Initial direct costs are in the measurement of the net investment in the least at inception. The lease payments received from the lessee are treated as repayments of principal and finance income.

Right-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received and estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognized right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term as presented below:

	In Years
Land	5 to 50
Office space	5 to 35

Right-of-use assets are subject to impairment. Refer to the accounting policies in section impairment of non-financial assets.

Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognized as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery, equipment, office space and staff house (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the leases of low-value assets recognition exemption to leases of office equipment that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

The Group as lessor

Leases where the Group does not transfer substantially all the risks and rewards of ownership of the assets are classified as operating leases. Initial direct costs incurred in negotiating operating leases are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as the rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Leases where the Group retains legal title to assets but passes substantially all the risks and rewards of ownership to the lessee in return for a stream of rentals are classified as finance leases. The Group recognizes assets held under a finance lease as an amount equal to the net investment in the lease as “Finance lease receivables.” The net investment in the lease is the gross investment discounted at the interest rate implicit in the lease. The gross investment in the lease is the aggregate of the minimum lease payments receivable by the Group, and any guaranteed and unguaranteed residual value. Initial direct costs are included in the measurement of the net investment in the lease at the date of inception. The lease payments received from the lessee are treated as repayments of principal and finance income.

Investment Property

Investment property, which pertains to a parcel of land held for appreciation in value and land and building held for rentals, are measured at cost less any impairment in value.

Investment property is derecognized when it has either been disposed of or when the investment property is permanently withdrawn from use and no future benefit is expected from its disposal. Any gains or losses resulting from the derecognition of an investment property is recognized in profit or loss in the year of derecognition. Transfers are made to investment property when, and only when, there is a change in use, evidenced by cessation of owner-occupation, commencement of an operating lease to another party or completion of construction or development. Transfers are made from investment property when, and only when, there is a change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale.

Service Concession Arrangements

The Group accounts for its service concession arrangements in accordance with Philippine Interpretation IFRIC 12, *Service Concession Arrangements*, under the intangible asset model as it receives the right (license) to charge users of public service (see Note 13).

Revenue and cost recognition. The Group recognizes and measures revenue and cost in accordance with PFRS 15, for the services it performs. When the Group provides construction or upgrade services, the consideration received or receivable by the Group is recognized at its fair value. The revenue and cost from these services are recognized based on the percentage of completion measured principally on the basis of estimated completion of a physical proportion of the contract works, and by reference to the actual costs incurred to date over the estimated total cost of the project. The construction revenue and construction cost are reported as part of “Other income” in the consolidated statement of income.

Contract assets ongoing construction. During the construction phase of the arrangements, the Group’s contract assets (representing its accumulating right to be paid for rehabilitation works) are presented as part of “Service concession assets” (SCA) for intangible asset model.

Service concession right. The service concession right is recognized initially at the fair value of construction works incurred, which include professional and consultancy fees, structural costs, etc. The Group applies PAS 38, *Intangible Assets*, on measuring the intangible assets. Following initial recognition, the service concession right is carried at cost less accumulated amortization and any impairment losses. Amortization period is based on the concession period.

The service concession right will be derecognized upon turnover to the grantor. There will be no gain or loss upon derecognition as the service concession right, which is expected to be fully amortized by then, will be handed over to the grantor with no or minimal consideration.

Intangible Assets

The Group recognizes an intangible asset acquired in a business combination if it is identifiable and distinguishable from goodwill. The Group considers an intangible asset as identifiable if:

- it is separable, i.e., there is evidence of exchange transactions for the asset or an asset of a similar type, even if those transactions are infrequent and regardless of whether the Group is involved in those transactions; or
- it arises from contractual or other legal rights, regardless of whether those rights are transferable or separable from the entity or from other rights and obligations (“contractual-legal” criterion).

The Group’s intangible assets recognized from business combination pertain to customer relationship, customer contracts and right to use asset (i.e., extraction and distribution of water in certain provinces in the Philippines). The estimated useful life of the intangible assets follows:

	No. of years
Customer relationships	22
Customer contracts	18

The right-to-use of water permits is assessed to have an indefinite useful life.

Deferred Mine Exploration Costs

Expenditures for mine exploration works on mining properties (i.e., acquisition of rights to explore, topographical, geological, geochemical and geophysical studies, exploratory drilling, trenching, sampling, and activities in relation to evaluating the technical feasibility and commercial viability of extracting the mineral resource) are deferred as incurred, carried at cost less any impairment in value and presented as “Deferred mine exploration costs” in the consolidated balance sheet. When, as a result of the exploration work, recoverable reserves are determined to be present in quantities that can be commercially produced, exploration expenditures and subsequent development costs are capitalized as mine and mining properties and classified as part of property and equipment. A valuation allowance is provided for estimated unrecoverable deferred mine exploration costs based on the technical assessment by the Group of the future prospects of each mining property. Full provision is made for the impairment unless it is probable that such costs are expected to be recouped through successful exploration and development of the area of interest, or alternatively, by its sale. If the project does not prove to be viable or when the project is abandoned, the deferred mine exploration costs associated with the project and the related impairment provisions are written off. Exploration areas are considered permanently abandoned if the related permits of the exploration have expired and/or there are no definite plans for further exploration and/or development.

Mining expenses, which are not related to establishing the technical feasibility and commercial viability of mineral resource extractions, are expensed outright.

Deferred Project Costs

Deferred project costs pertain to expenditures related to ongoing water projects where technical feasibility has been completed and the Group has the intention and ability (e.g., technical and financial) to complete the relevant activities to have grants from government authorities either to provide bulk or retail water services. Once grants from government authorities are awarded, the Group assesses

whether these assets shall be accounted for under Philippine Interpretation IFRIC 12 or property and equipment. Deferred project costs are not amortized until these are transferred as property, plant and equipment or either financial or intangible asset under IFRIC 12.

Nonrefundable Security Deposits

Nonrefundable security deposits are included as part of “Other noncurrent assets” which represent the difference between the face amount and the present value of refundable rental deposits made and are being amortized on a straight-line basis over the lease term. Amortization of nonrefundable security deposits is included under “Financing charges” account in the consolidated statement of income. Accretion of the refundable rental deposits using the effective interest method is included under “Interest income” account in the consolidated statement of income.

Impairment of Nonfinancial Assets

Nonfinancial assets other than goodwill and intangible assets with indefinite life

The Group assesses at each reporting date whether there is an indication that investments in associates, property, plant and equipment, right-of-use assets, investment property, deferred project costs, service concession right and intangible assets with finite life may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset’s recoverable amount. The Group also assesses its deferred mine exploration costs for impairment when facts and circumstances suggest that its carrying amount may exceed its recoverable amount. An asset’s recoverable amount is the higher of an asset’s fair value less costs to sell and its value-in-use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses of continuing operations are recognized in profit or loss in those expense categories consistent with the function of the impaired asset.

An assessment is also made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed and recognized in profit or loss only if there has been a change in the estimates used to determine the asset’s recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation or amortization, had no impairment loss been recognized for the asset in prior years. After such a reversal, the depreciation charge is adjusted in future periods to allocate the asset’s revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

Goodwill and intangible assets with indefinite life

Goodwill and intangible assets with indefinite life are reviewed for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. Impairment is determined by assessing the recoverable amount of the cash generating unit (or group of cash generating units) to which the goodwill relates or the intangible assets with indefinite life. Where the recoverable amount of the cash-generating unit to which goodwill has been allocated or the intangible assets with indefinite life is less than its carrying amount, an impairment loss is recognized immediately in profit or loss. Impairment losses relating to goodwill or intangible assets with indefinite life cannot be reversed for subsequent increases in its recoverable amount in future periods. The Group performs its annual impairment test at each end of the reporting date.

Revenue from Contracts with Customers

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods and services. The Group has generally concluded that it is principal in its revenue arrangements because it typically controls the goods and services before transferring them to the customer.

Sale of goods (beverage and dry store)

Sale of beverage and dry store is recognized at point in time upon delivery of goods to and acceptance by airline clients and other customers.

Rendering of services

Revenue from inflight and other catering, ground handling, aviation and administrative services, charter flights, water service (including provision of potable water and treatment of sewage water) and exploratory drilling services is recognized over time when the related services are rendered.

The Group, through BTSI, also provides operation and maintenance of sewerage treatment plant (STP) that is either performed separately or together with the construction of STP. The operation and maintenance of STP can be obtained from other providers and do not significantly customize or modify the construction of STP. Contracts for construction and operation and maintenance of STP comprise two separate and distinct performance obligations because each are capable of being distinct and separately identifiable.

In determining the transaction price for the construction and operation and maintenance of sewerage treatment plant, the Group allocates the transaction price based on relative stand-alone selling prices of the performance obligations. Further, the Group considers the effects of variable consideration and the existence of significant financing component.

Revenue from construction of STP is recognized over time as the construction of STP creates an asset that the customer controls as the STP is constructed. Revenue from operation and maintenance of STP is recognized over time as the customers simultaneously receive and consume the benefits provided by the Group.

Variable consideration

If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at the contract inception and is not constrained since it is not highly probable that a significant revenue reversal in the amount of cumulative revenue recognized will occur considering that the uncertainty on the variable consideration will be resolved within a short time frame.

Significant financing component

Generally, the Group receives the consideration within the normal credit terms from its customers. Using the practical expedient in PFRS 15, the Group does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of promised good or service to the customer will be one year or less.

The Group receives the consideration for BTSI's construction of STP over three to four years. The transaction price for such contracts is discounted using the rate that would be reflected in a separate financing transaction between BTSI and its customers at contract inception to take into consideration the significant financing component.

Interest Income

Interest income is recognized as the interest accrues using, where applicable, the effective interest method, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial assets to the net carrying amount of the financial assets.

Dividend Income

Dividend income is recognized when the Group's right as a shareholder to receive the payment is established.

Contract Balances

Contract assets

A contract asset is the right to consideration in exchange for goods and services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration before payment is due, a contract asset is recognized for the earned consideration that is conditional.

Trade receivables

A receivable represents the Group's right to an amount of consideration that is unconditional. Refer to accounting policies of financial assets in section Financial Assets and Financial Liabilities - initial recognition and subsequent measurement.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods and services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Group performs under the contract.

Direct Costs, Selling Expenses and General and Administrative Expenses

Direct costs, which include expenses incurred by the Group for the generation of revenue from rendering of in-flight and other catering services, rental and administrative services, ground handling and aviation services, water treatment and distribution, exploratory services and charter flights are expensed as incurred.

Selling expenses, which include costs of advertising and promotion, and general and administrative expenses, which include the cost of administering the business, are not directly associated with the generation of revenue and are generally expensed as incurred.

Other Comprehensive Income

Other comprehensive income comprises items of income and expense (including items previously presented under the consolidated statement of changes in equity) that are not recognized in profit or loss for the year in accordance with PFRSs. Other comprehensive income of the Group includes share in foreign currency translation adjustments on investment in associates, unrealized changes in fair value of financial assets held at FVTOCI, remeasurements in the Group's defined benefit plans and the Group's share in associates' remeasurements on defined benefit plans.

Employee Benefits

Retirement benefits costs

Retirement benefits costs are actuarially determined using the projected unit credit method. This method considers each period of service as giving rise to an additional unit of benefit entitlement and measures each separately to build up the final obligation. Retirement benefit costs comprise the following:

- Service cost
- Net interest on the net defined benefit liability or asset; and
- Remeasurements of net defined benefit liability or asset.

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in profit or loss.

Remeasurements comprising actuarial gains and losses, return on plan assets (excluding amounts included in net interest on the net defined liability) and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in other comprehensive income in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

Plan assets are assets that are held by a long-term employee benefit fund. Plan assets are not available to the creditors of the Group, nor can they be paid directly to the Group. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations).

The Group's right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

The amount recognized as accrued retirement benefits payable or plan asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets, if any, adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

Employee leave entitlement

Employee entitlements to annual leave are recognized as a liability when they are accrued to the employees. The undiscounted liability for leave expected to be settled wholly before 12 months after the end of the annual reporting period is recognized for services rendered by employees up to the end of the reporting period. For leave credits expected to be settled at the date of retirement or recognition, the liability is presented at its present value using assumptions consistent with those used to discount retirement benefits. The expense recognized in profit or loss comprise the service cost, net interest of the liability and remeasurements.

Short-term employee benefits

Short-term employee benefits include items such as salaries and wages, social security contributions and nonmonetary benefits, if expected to be settled wholly within 12 months after the reporting date in which the employees rendered the related services. Short-term employee benefits are recognized as expense as incurred. When an employee has rendered service to the Group during the reporting period, the Group recognizes the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service as a liability (accrued expense), after deducting any amount already paid.

Termination benefit

Termination benefits are employee benefits provided in exchange for the termination of an employee's employment as a result of either an entity's decision to terminate an employee's employment before the normal retirement date or an employee's decision to accept an offer of benefits in exchange for the termination of employment.

A liability and expense for a termination benefit is recognized at the earlier of when the entity can no longer withdraw the offer of those benefits and when the entity recognizes related restructuring costs. Initial recognition and subsequent changes to termination benefits are measured in accordance with the nature of the employee benefit, as either post-employment benefits, short-term employee benefits, or other long-term employee benefits.

Borrowing Costs

Borrowing costs are interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing costs are capitalized if they are directly attributable to the acquisition, production or construction of a qualifying asset. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale. Capitalization of borrowing costs commences when the activities to prepare the asset are in progress and expenditures and borrowing costs are being incurred. Borrowing costs are capitalized until the assets are substantially ready for their intended use. Borrowing costs not qualified for capitalization are expensed as incurred.

Income Taxes

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date. Current income tax for the current and prior period, shall, to the extent unpaid, be recognized as a liability and is presented as "Income tax payable" in the consolidated balance sheet. If the amount already paid, including the cumulative creditable withholding taxes, in respect of the current and prior period exceeds the amount due for those periods, the excess shall be recognized as an asset under "Other current assets" in the consolidated balance sheet.

Deferred income tax

Deferred income tax assets and liabilities are provided, using the balance sheet liability method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognized for all taxable temporary differences. Deferred income tax assets are recognized for all deductible temporary differences, carryforward benefits of excess minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that sufficient future taxable profits will be available against which the deductible temporary differences and the carryforward benefits of excess MCIT and unused NOLCO can be utilized. Deferred income tax however, is not recognized

when it arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit.

Deferred income tax liabilities are not provided on nontaxable temporary differences associated with investments in domestic subsidiaries, associates and interest in joint ventures. With respect to investments in other subsidiaries, associates and interests in joint ventures, deferred income tax liabilities are recognized except where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient future taxable profits will be available to allow all or part of the deferred income tax assets to be utilized. Unrecognized deferred income tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that sufficient future taxable profits will allow the deferred income tax assets to be recovered.

Deferred income tax assets and deferred income tax liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred income tax relating to items recognized directly in equity is recognized in equity and those directly in comprehensive income are recognized in the consolidated statement of comprehensive income. Deferred income tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred income tax assets and deferred income tax liabilities are offset if a legally enforceable right exists to set off the deferred income tax assets against the deferred income tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

Provisions and Contingencies

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pretax rate that reflects current market assessment of the time value of money and where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provisions due to the passage of time is recognized as an interest expense. The information usually required by PAS 37 is not disclosed as it may prejudice the Group's negotiation with the third party.

Contingent liabilities are not recognized in the consolidated financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is not recognized in the consolidated financial statements but disclosed when an inflow of economic benefits is probable.

Capital Stock and Additional Paid-in Capital

Capital stock is measured at par value for all shares issued and outstanding.

When the shares are sold at a premium, the difference between the proceeds and the par value is credited to the "Additional paid-in capital" account. When shares are issued for a consideration other than cash, the proceeds are measured by the fair value of the consideration received. In case the shares are issued to extinguish or settle the liability of the Company, the shares shall be measured either at the fair value of the shares issued or fair value of the liability settled, whichever is more reliably determinable.

Retained Earnings

Retained earnings consist of appropriated and unappropriated balances. Appropriated retained earnings are restricted for specific purposes and/or are not available for dividend declaration. Unappropriated retained earnings are not restricted and include the cumulative balance of net income or loss, any dividend distributions, prior period adjustments and effects of any change in accounting policy.

Dividend distributions

Cash dividends on common shares are recognized as liability and deducted from retained earnings upon declaration by the BOD.

Stock dividends on common shares are measured based on the total par value of declared stock dividend. Stock dividends are deducted from retained earnings when the BOD's declaration is ratified by the stockholders of the Parent Company. Unissued stock dividends are recorded as stock dividends distributable and credited to capital stock upon issuance.

Dividends for the year that are declared after the end of the reporting period but before the approval for issuance of the consolidated financial statements are dealt with as an event after the reporting period.

Treasury Shares

Own equity instruments, which are reacquired, are recognized at cost and deducted from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between the carrying amount and consideration, if reissued, is recognized in "Additional paid-in capital" account.

Earnings (Loss) Per Share

Basic earnings (loss) per share is computed by dividing net income (loss) for the year attributable to ordinary equity holders of the Company by the weighted average number of shares outstanding during the year.

Diluted earnings (loss) per share is calculated by dividing the net income (loss) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued upon conversion of all dilutive potential ordinary shares. The effect of stock dividends, if any, is accounted for retrospectively. The Company has no potentially dilutive shares as of December 31, 2022 and 2021.

Events After the Reporting Period

Post-year-end events that provide additional information about the Group's financial position at the reporting date (adjusting events), if any, are reflected in the consolidated financial statements. Post-year-end events that are not adjusting events are disclosed in the notes to consolidated financial statements when material.

Segment Information

The Group's operating businesses are organized and managed separately according to the nature of the aviation-support service provided by its four subsidiaries, maintenance, repairs and overhaul, mining-related activities and water treatment and distribution. This is the basis on which the Group reports its primary segment information. The Group also monitors the revenue and operating results of its associates. Information with respect to these subsidiaries, as well as the Group's associates, are disclosed in Notes 4 and 9. The Company, including its subsidiaries, operate and derive all its revenue from domestic operation. All associates except JASCO, which is operating in Japan, derive all its revenue from domestic operation.

3. Significant Judgments, Accounting Estimates and Assumptions

The preparation of the consolidated financial statements in accordance with PFRSs requires the Group to exercise judgments, make estimates and use assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. The estimates and assumptions used in the consolidated financial statements are based upon management's evaluation of relevant facts and circumstances as of the date of the financial statements. Future events may occur which will cause the assumptions used in arriving at the estimates to change. The effects of any change in estimates are reflected in the consolidated financial statements as they become reasonably determinable.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on amounts recognized in the consolidated financial statements.

Determination of the Group's functional currency

Judgment is exercised in assessing various factors in determining the functional currency of each entity within the Group. These include the prices of goods and services, competition, cost and expenses, and other factors including the currency in which financing is primarily undertaken.

The Group, based on the relevant economic substance of the underlying circumstances, has determined its functional currency to be Peso. It is the currency of the primary economic environment in which the Group operates. The functional currencies of LTP and JASCO, the Group's associated companies (see Notes 2 and 9), has been determined to be US\$ and JPY, respectively.

Revenue from contracts with customers

The Group applied the following judgments that significantly affect the determination of the amount and timing of revenue from contracts with customers:

- *Determination of the timing of satisfaction of performance obligation*

- In-flight and other catering, ground handling and aviation, and water services*

The Group assessed that performance obligation for inflight and other catering, except for dry store and beverage, ground handling and aviation and water services are rendered to the customers over time. As a result, the Group's revenue is recognized based on the extent of progress towards completion of the performance obligation. The selection of the method to measure progress towards completion requires judgment.

- Sale of dry store and beverage*

The Group assessed that performance obligation for sale of dry store and beverage are satisfied at a point in time. The Group uses its judgment on when a customer obtains control of the promised goods. The Group has assessed that the actual delivery of the goods to the customer is the point in time when the performance obligation has been satisfied.

- *Allocation of total transaction price between construction and operation and maintenance of STP*

Management determined that the contractually agreed price for construction of STP does not depict the amount the Group expects to receive for the performance obligation as the costs of STP are also expected to be recovered through the fees from operation and maintenance. Accordingly, the Group determined that the total transaction price of construction and operation and maintenance (i.e., the performance obligations) of STP needs to be allocated. This required the estimation of each of the performance obligation's stand-alone selling prices based on expected value method. The Group

estimates consideration from the construction of STP based on expected gross margin. On the other hand, the Group estimates the variable consideration from operation and maintenance of STP based on the historical patterns of water consumption and room capacity of the Group's customers.

The revenue recognized for the construction and the operation and maintenance of STP amounted to nil and ₱12.2 million in 2022, nil and ₱3.3 million in 2021, and nil and ₱8.5 million in 2020.

- *Recognition of contract asset*

The Group incurs certain costs in relation to the services provided to its major customer. Based on management's assessment, these costs are incremental cost in obtaining a contract. Accordingly, the Group recognizes contract asset which are amortized as expense throughout the contract period, which includes the renewal period as management believes that the contract with the major customer will be renewed considering that the Group is providing one of the required services in the operations of its major customer.

As of December 31, 2022 and 2021, the Group's contract assets amounted to ₱80.3 million and ₱94.5 million (see Notes 6, 15 and 19). This includes incremental cost incurred to obtain a contract amounting to ₱64.0 million and ₱78.2 million as of December 31, 2022 and 2021, respectively.

Assessment of control or significant influence over the investee

The Group makes an assessment whether or not it controls an investee by considering all relevant facts and circumstances which indicate that the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. A reassessment is made if circumstances indicate that there are changes in these control elements. The Group has significant influence over an investee if it only has the power to participate in the financial and operating policy decisions, but not control or jointly control over the investee. As of December 31, 2022 and 2021, the Group still determined that it controls its subsidiaries and has significant influence over its associates (see Notes 9 and 10).

Assessment of operators under Philippine Interpretation IFRIC 12

Management has assessed that memoranda of agreement with the Municipality of Solano, Nueva Vizcaya (Solano) to provide water distribution facilities and with the Municipality of Naic Cavite (Naic) to develop and operate water supply and distributions system are covered by the Philippine Interpretation IFRIC 12. The memoranda of agreement qualify under the intangible asset model with respect to the operation of the waterwork facilities as the Group has the right (license) to charge users of public service (see Note 13).

Classification of leases - the Group as a lessor

The Group has entered into short-term leases, which provide no transfer of ownership to the lessee. The Group has determined that, based on an evaluation of the terms and conditions of the arrangements, it retains all the significant risks and rewards of ownership of these equipment and accounts for these as operating leases.

Determining the lease term of contracts with renewal and termination options - the Group as a lessee

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has several lease contracts that include extension and termination options. The Group applies judgment in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customization to the leased asset).

The Group included the renewal period as part of the lease term for leases which are renewable at the option of the lessee. The Group typically exercises its option to renew for these leases because of significant permanent improvement introduced in the leased premises. The renewal periods for leases are not included as part of the lease term if option to renew is at lessor's discretion or leases which renewal depends on mutual consent of contracting parties as these are not reasonably certain to be exercised. Furthermore, the periods covered by termination options are included as part of the lease term only when they are reasonably certain not to be exercised.

Refer to Note 28 for information on potential future rental payments relating to periods following the exercise date of extension and termination options that are not included in the lease term.

Contingencies

The Group, in its normal course of business, is involved in various legal cases and claims. Based on management's assessment, the Group will be able to defend its position on these cases and that the ultimate outcome will not have a significant impact on the Group's consolidated financial statements. Accordingly, no provision has been recognized for these contingencies. LTP, the most significant associate of the Group also assesses the need to recognize the provisions based on the status of the claims (see Note 9).

Estimates and Assumptions

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised if the revision affects that period, or in the period of revision and future periods if the revision affects both current and future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing material adjustment to the carrying amounts of the Group's assets and liabilities follow.

Determination of fair value of financial instruments

When the fair values of financial assets and financial liabilities recorded in the consolidated balance sheet cannot be measured based on quoted prices in active markets, their fair values is measured using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these assumptions about these factors could affect the reported fair value of financial instruments (see Note 32).

Leases - estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no

observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the subsidiary's functional currency). The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the subsidiary's stand-alone credit rating).

The Group's lease liabilities amounted to ₱2,111.2 million and ₱2,152.7 million as of December 31, 2022 and 2021, respectively (see Note 28).

Provision for expected credit losses

The Group uses a provision matrix to calculate ECLs for financial assets at amortized cost. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns. The provision matrix is initially based on the Group's historical observed default rates. The Group calibrates the matrix to adjust the historical credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in forward-looking estimates are analyzed. For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of timing of the default (a lifetime ECL).

The assessment of the correlation between observed default rates, forecasted economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecasted economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of the customer's actual default in the future.

The Group has a segmentation of its credit risk exposures based on homogeneity of credit risk characteristics and credit risk management policies to identify defaulting customers using observable inputs such as historical loss rates, recoveries and write-offs. The Group has also applied forward-looking information for its overlay through statistical test and corroboration using publicly available information.

The Group's receivables and contract assets, net of allowance for the expected credit losses of ₱9.3 million and ₱63.4 million, amounted to ₱1,908.9 million and ₱1,369.1 million as of December 31, 2022 and 2021, respectively (see Note 6).

Determination of NRV of inventories

The Group estimates the NRV of inventories based on the most reliable evidence available at the time the estimates are made. These estimates consider the fluctuations of prices or costs directly relating to events occurring after the reporting date to the extent that such events affect the value of inventories. Other factors include the age of the inventories and the Company's experience on write-off and expirations.

The Group did not identify any factors which indicate inventory obsolescence based on the above discussions. Accordingly, no provision was recognized in 2022 and 2021.

The Group's inventories carried at cost as of December 31, 2022 and 2021 amounted to ₱139.3 million and ₱102.3 million, respectively (see Note 7).

Estimating allowances for probable losses on input taxes and TCCs

The Group estimates the level of provision for probable losses on input taxes and TCCs based on the experience of the Group and assessment of counsels assisting the Group in processing the claims and negotiating the realization of TCCs. As of December 31, 2022 and 2021, the carrying value of input taxes and TCCs amounted to ₱423.0 million and ₱367.8 million, respectively. Allowance for probable losses amounted to ₱12.5 million and ₱9.6 million, respectively (see Note 8).

Estimation of useful lives of property, plant and equipment

The Group estimates the useful lives of property, plant and equipment based on the internal technical evaluation and experience with similar assets. In cases where the use of property, plant and equipment is dependent on the grant of certain permits to conduct its business, management considers the probability of renewal of such permits based on past experience. In this situation, useful lives of property, plant and equipment are based on the economic useful lives rather than the currently effective period of the permits. Estimated useful lives are reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical and commercial obsolescence and other limits on the use of the assets. A reduction in the estimated useful lives of property and equipment, would increase depreciation and amortization expense and decrease noncurrent assets.

In 2021, the Company reassessed the remaining useful lives of its property and equipment. The effect of the change in estimate is recognized prospectively beginning January 1, 2021. Accordingly, the Group's depreciation and amortization expense in 2021 decreased by ₱5.0 million. The related depreciation and amortization expense for each of the remaining years of the said property and equipment is expected to be similarly affected by this change in accounting estimate. There was no change in the estimated useful lives of the Group's property, plant and equipment in 2022 and 2020.

The carrying value of property, plant and equipment subject to depreciation as of December 31, 2022 and 2021 amounted to ₱1,778.3 million and ₱1,892.6 million, respectively (see Note 11).

Estimation of useful life of service concession right

At the start of operation of the water work facilities, the service concession right is to be amortized over the concession period as provided in the agreements with relevant government units. The amortization period is reviewed when there are changes in the expected term of the contract or the expected pattern of consumption of future economic benefits embodied in the asset.

Amortization for the service concession right amounted to ₱21.9 million, ₱21.0 million and ₱20.3 million in 2022, 2021 and 2020, respectively. The carrying value of the service concession right amounted to ₱415.6 million and ₱418.8 million as of December 31, 2022 and 2021, respectively (see Note 13).

Estimation of useful life of intangible assets acquired as part of business combination

The assigned useful lives of intangible assets acquired as part of business combination are estimated based on the period over which the asset is expected to be available for use. Such estimation is based on collective assessment of similar businesses, internal evaluation and experience with similar assets. Further, management considers the probability of renewal of certain permits and the cost and efforts in renewing such permits based on past experience. The useful life of each asset is reviewed at each financial year and updated if expectations differ from previous estimates due to technical or commercial obsolescence and legal or other limits on the use of the asset. There were no changes in the estimated useful lives of customer contract and relationships, while right to use asset is assessed to have indefinite useful life due to minimal efforts required to renew certain permits to extract and distribute water in relevant provinces based on past experience.

The total carrying value of the customer contract and relationships, and the right-to-use of water permits amounted to ₱168.7 million and ₱164.2 million as of December 31, 2022 and 2021, respectively (see Note 13).

Determination of impairment indicators and impairment testing of nonfinancial assets

A. Nonfinancial assets other than goodwill and intangible assets with indefinite life

The Group assesses at each reporting date whether there is any indication that its nonfinancial assets other than goodwill and intangible assets with indefinite life (i.e., investments in associates, property, plant and equipment, right-of-use assets, investment property, service concession right, intangible assets, deferred project costs, deferred mine exploration costs) may be impaired. The factors that the Group considers important which could trigger an impairment review included the following, among others:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the overall business strategy; and,
- significant negative industry or economic trends.

If such indication exists, the Group performs impairment testing to estimate the recoverable amount of the related asset.

The carrying values of the nonfinancial assets are as follows:

	2022	2021
Investments in associates (Note 9)	₱2,450,890,710	₱1,850,408,800
Property, plant and equipment (Note 11)	2,222,562,943	2,352,762,320
Right-of-use assets (Note 28)	847,686,820	890,917,351
Investment property (Note 12)	143,852,303	143,852,303
Service concession right (Note 13)	415,627,486	418,804,041
Customer contract and relationships (Note 13)	51,475,042	54,865,447
Deferred project costs (Note 15)	42,783,267	42,783,267
Deferred mine exploration costs (Notes 14 and 15)	238,513,440	237,489,872

Investment in associates, property, plant and equipment, right-of-use assets

In 2022 and 2021, although the Group has started to recover from the impact of COVID-19, the aviation and tourism-related operations of the Group are operating below pre-pandemic levels.

For purposes of impairment testing of investment in associates, property, plant and equipment and right-of-use assets, recoverable amount has been determined based on the value-in-use calculations using cash flow projections. The projected cash flows were based on expectations on future outcomes, such as anticipated revenue growth and forecasted volume of flights serviced and meals ordered which are impacted by the COVID-19 pandemic, annual water consumption and operating expenses, taking into account past experiences. The discount rate is a pre-tax measure based on the weighted average cost of capital of listed entities with similar assets or similar in terms of potential risk. The discount rates used ranged from 8.7% to 11% and 13% to 20% in 2022 and 2021, respectively.

Refer to Notes 9, 11 and 28 on the discussions of assumptions which are most sensitive to impact the calculated value-in-use. Based on the impairment test, the recoverable amount of the investment in associates, property, plant and equipment and right-of-use assets exceeds their carrying values. Management believes that any reasonable possible change in any of the assumptions used would not cause the carrying values to exceed their respective recoverable amount.

Service concession right

In 2022 and 2021, SNVRDC's operating income and cash flows are lower than the expected level and has been operating at a loss since the start of its commercial operation. These are indicators that the service concession right may be impaired.

For the purpose of impairment testing of SNVRDC's service concession right, recoverable amount is determined based on the value-in-use using cash flow projections based on financial budgets as approved by management covering 17 years of projections, coterminous to the term of the concession agreement with the Municipality of Solano. The projected cash flows are based on expectations of future outcomes considering past experience, adjusted for anticipated revenue growth based on management's future plans. The discount rate is a pre-tax measure based on the weighted average cost of capital (WACC) of listed entities with similar assets or similar in terms of potential risk. The pre-tax discount rate used is 8.7% and 11.8% in 2022 and 2021, respectively.

Refer to Note 13 on the discussions of assumptions which are most sensitive to impact the calculated value-in-use. Based on the impairment test, the recoverable amount of the service concession right exceeds its carrying value. Management believes that any reasonable possible change in any of the assumptions used would not cause the carrying value to exceed its recoverable amount.

The carrying value of the service concession right subjected to impairment testing amounted to ₱230.5 million and ₱243.2 million as of December 31, 2022 and 2021, respectively (see Note 13).

Deferred Mine Exploration Costs

The recovery of deferred mine exploration costs depends upon the success of exploration activities and future development of the mining properties, as well as the discovery of recoverable reserves in quantities that can be commercially produced. In prior years, and although the Group's nickel mine is a reactivation of an existing mine that was operational in the 1970s, the Group recognized impairment loss amounting to ₱217.1 million due to the issuance of DENR Administrative Order No. 2017-10 which puts a temporary ban on new projects for open-pit method of mining for ores. In the Group's MPSAs for its Infanta Nickel Project has been affirmed as valid and subsisting by DENR-MGB, and with the recent issuance of E.O. 130 lifting the nine-year moratorium on granting new mining permits in the Philippines, hence, the Company reversed the previously recognized impairment loss amounting to ₱217.1 million in 2021. Management believes that the amount of deferred mine exploration cost is recoverable based on the estimation of value-in-use.

The carrying value of deferred mine exploration cost amounted to ₱238.5 million and ₱237.5 million as of December 31, 2022 and 2021, respectively (see Notes 14 and 15).

B. Goodwill and intangible assets with indefinite life

For goodwill and intangible assets with indefinite useful life, the Group performs impairment testing at least on an annual basis or more frequently, if events or changes in circumstances indicate that these may be impaired. For the purpose of impairment testing, goodwill has been allocated to BTSI group, NAWASCOR, SWRI and MACS in 2022 and 2021 as the cash generating units.

The recoverable amounts of the cash-generating units have been determined based on a value-in-use calculation using cash flow projections based on financial budgets as approved by management covering five years of projections. The projected cash flows are based on expectations of future outcomes taking into account past experience, adjusted for anticipated revenue growth based on management's future plans. Cash flows beyond the forecast period are extrapolated into perpetuity assuming four percent (4%) growth rate for impairment test purposes. The discount rate is a pre-tax measure based on the WACC of listed entities with similar assets or similar in terms of potential risk. The pre-tax discount rate used ranged from 8.7% to 11% in 2022 and 12.7% to 13.0% in 2021.

The carrying value of goodwill subjected to impairment testing amounted to ₱127.8 million as of December 31, 2022 and 2021 (see Note 13).

For the right to use of water permits, the recoverable amount is determined based on fair value less cost to sell calculations determined by discounting notional royalty savings after tax. These calculations use net sales projections and the related royalty savings based on a five-year projection. Net sales beyond the forecast period are extrapolated into perpetuity assuming four percent (4%) growth rate for impairment test purposes. Management considered the impact of cost to sell in the calculations of fair value less cost to sell as negligible. The royalty rate is the average of royalty rates for water distribution entities, while the discount rate was a pre-tax measure based on the WACC of listed entities with similar assets or similar in terms of potential risk. The royalty rate applied is 1.6% for both years while pre-tax discount rates used range were 8.7% and 10.7% in 2022 and 2021, respectively.

The carrying value of right-to-use of water permits amounted to ₱117.3 million and ₱109.3 million as of December 31, 2022 and 2021, respectively (see Note 13).

Management believes that no reasonably possible change in any of the assumptions used would cause the carrying values of the goodwill and right-to-use of water permits to exceed their recoverable amounts. Based on management's assessment, the recoverable amounts of these assets are higher than their carrying values, thus no impairment loss was recognized in 2022, 2021 and 2020.

Estimation of retirement benefits costs and obligation, and accumulating leave credits

The cost of defined benefit pension plans, as well as the present value of the pension obligation is, determined using actuarial valuations. The actuarial valuation involves making various assumptions. These include the determination of the discount rates and future salary increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, defined benefit obligations are highly sensitive to changes in these assumptions. All significant assumptions are reviewed at each reporting date. The calculation of accumulating leave credits follows the same assumptions as the defined benefit costs.

In determining the appropriate discount rate, management considers the interest rates of government bonds, adjusted to zero coupon rates, with term consistent with the obligation of the plan.

Accrued retirement and other employee benefits payable amounted to ₱125.6 million and ₱121.6 million as of December 31, 2022 and 2021, respectively (see Note 21). Pension asset amounted to ₱7.7 million and ₱21.0 million as of December 31, 2022 and 2021, respectively, and is included under "Other noncurrent assets" account (see Note 15). Retirement benefits cost amounted to ₱27.0 million, ₱31.3 million and ₱68.2 million in 2022, 2021 and 2020, respectively (see Note 21).

Recognition of deferred income tax assets

The Group reviews the carrying amounts of deferred income tax assets (gross of deferred income tax liabilities) at each reporting date and adjusts the balance of deferred income tax assets to the extent that it is no longer probable that sufficient future taxable profits will be available to allow all or part of the deferred income tax assets to be utilized. The determination of future taxable income, which will establish the amount of deferred income tax assets that can be recognized, requires the estimation and use of assumptions about the Group's future income and timing of reversal of temporary differences, unused NOLCO and excess MCIT over RCIT.

Gross deferred income tax assets recognized, which relate primarily to operating subsidiaries, amounted to ₱188.4 million and ₱183.2 million as of December 31, 2022 and 2021, respectively. The Group also has unrecognized deferred income taxes primarily on the non-operating subsidiaries' temporary differences, NOLCO and MCIT (see Note 25).

4. Segment Information

The Group's operating businesses are organized and managed separately according to the nature of the aviation-support services provided by the four subsidiaries, mining-related activities and water-related projects, which is the basis on which the Group reports its primary segment information. The Group also monitors its share in the results of operations of its associates (LTP, CPCS and JASCO) that are accounted for using the equity method.

The operations of the Group's segments are described as follows:

- In-flight and other catering segment, which is operated by MACS and through the Company's interest in CPCS, refers to servicing of meal requirements of certain foreign and domestic passenger airlines, as well as certain passenger terminal lounges at the NAIA and the MDA, and of certain non-airline institutional accounts.
- Ground handling and aviation segment, which is operated by MASCORP and MAATS, refers to both ramp and passenger handling and aviation services to foreign airlines and domestic carriers at NAIA, MCIA, KIA, Davao International Airport, Tuguegarao Airport and Clark International Airport. In 2019, the Company acquired 30% ownership in JASCO, a ground handling and aviation service company operating in Japan (see Note 9).
- Maintenance, repairs and overhaul (MRO), which is operated through the Company's interest in LTP, pertains to rendering of MRO services of Airbus and Boeing aircraft for certain airlines.
- Administrative segment, which is primarily operated through MAPDC, refers to the sub-lease of the MacroAsia Ecozone at NAIA (see Note 28), which MAPDC leases from Manila International Airport Authority (MIAA) with LTP as the anchor locator (see Note 18).
- Charter flights segment, was operated by MAATS up to 2016, refers to international and domestic chartered flights from its base at the General Aviation Area, MDA to any point within the Philippines, through alliances with other helicopter owners.

- Water treatment and distribution segment, which is operated through SNVRDC, BTSI, NAWASCOR and SWRI. The Group has on-going water related projects which pertain to the development (e.g., studies, surveys) and construction of water-treatment facilities activities, which are undertaken by MAPDC and its other subsidiaries. The Group, through BTSI, is also engaged in the construction, operation and maintenance of sewage treatment facilities.
- Mining segment, which is operated through MMC, refers to mining-related activities of the Group. This segment refers to revenues and expenditures for exploration activities and rendering of exploration-related services.

The Group has only one geographic segment. Of the Group's total revenue, ₱2,754.0 million (or 56%), ₱1,055.1 million (or 54%) and ₱1,209.1 million (or 54%) in 2022, 2021 and 2020, respectively, were derived from two customers which are entities under common control.

Segment assets include the operating assets used by a segment and consist principally of cash and cash equivalents, receivables, inventories, other current assets, and property, plant and equipment, net investment in the lease, and right-of-use assets, net of allowances, depreciation and amortization and any impairment in value. Segment liabilities include all operating liabilities and consist principally of notes payable, accounts payable and accrued liabilities and lease liabilities. Segment assets and liabilities do not include deferred income tax. Segment results pertain to operating income.

Financial information on the Group's business segments as of and for the years ended December 31 are presented below. The amounts disclosed were determined consistent with the measurement basis under PFRSs.

For the year ended December 31, 2022:

	Inflight and Other Catering	Ground Handling and Aviation	Maintenance, Repairs and Overhaul	Administrative	Water Treatment and Distribution	Mining	Eliminations, Adjustments and Others	Total
Segment revenue	₱2,288,520,288	₱2,049,535,189	₱-	₱30,443,040	₱515,009,510	₱-	₱-	₱4,883,508,027
Direct costs	(1,735,536,609)	(1,851,277,355)	-	(52,602,359)	(330,109,113)	(231,878)	-	(3,969,757,314)
Gross profit (loss)	552,983,679	198,257,834	-	(22,159,319)	184,900,397	(231,878)	-	913,750,713
Share in net earnings (losses) of associates	(5,243,171)	(35,854,919)	499,805,903	-	-	-	12,140,093	470,847,906

5. Cash and Cash Equivalents

	2022	2021
Cash on hand and cash in banks (Note 18)	₱361,104,509	₱321,102,282
Short-term deposits (Note 18)	106,914,224	182,545,556
	₱468,018,733	₱503,647,838

Cash in banks earn interest at the respective bank deposits rates. Short-term deposits are made for varying periods of up to three months and earn interest at the respective short-term deposit rates. Interest income earned amounted to ₱1.6 million, ₱2.0 million and ₱7.2 million in 2022, 2021 and 2020, respectively (see Note 22).

6. Receivables and Contract Assets

	2022	2021
Receivables:		
Trade:		
Third parties	₱897,538,994	₱449,023,999
Related parties (Note 18)	845,429,925	828,121,745
Advances to officers and employees	20,329,079	14,705,570
Interest receivable	4,061,901	3,251,087
Other receivables	147,670,825	120,043,633
Contract assets - current portion	3,135,481	17,352,100
	1,918,166,205	1,432,498,134
Less allowance for ECL	9,286,401	63,445,608
	₱1,908,879,804	₱1,369,052,526

Trade receivables arise from the revenue-generating activities of the Group. These are non-interest bearing with normal credit terms ranging from 30 to 90 days.

Long-term receivables

Included under trade receivables are monthly installments due from customers from the construction of STPs. Payment terms from the said contracts are beyond one year; thus, contains significant financing component. Interest income earned from installment receivables amounted to nil, ₱0.7 million and ₱1.3 million in 2022, 2021 and 2020, respectively (see Note 22).

As of December 31, outstanding receivables pertaining to construction of STPs are as follows:

	2022	2021
Gross installment receivables	₱20,595,874	₱35,067,500
Less unearned interest	69,902	468,652
	20,525,972	34,598,848
Less current portion	19,827,049	19,565,370
Noncurrent portion (Note 15)	₱698,923	₱15,033,478

In relation to the construction of STPs, the Group allocates the total transaction price earned between the construction of STPs and the operation and maintenance services for the STPs. The allocated amounts for the operation and maintenance services are recognized as contract assets. These contract assets are realized as receivables as the Group performs the operations and maintenance of STPs, which is the remaining performance obligation, over the contract period of about 10 years. Contract assets are

presented based on the timing of realization. Current and noncurrent portion of contract assets amounted to ₱3.1 million and ₱77.1 million as of December 31, 2022, respectively, and ₱17.4 million and ₱77.1 million as of December 31, 2021, respectively (see Note 15).

Advances to officers and employees pertain to cash advances that are subject to liquidation.

Other receivables include amounts due from third party insurance company and certain government agencies (e.g., SSS) and employee loans which are payable through salary deductions.

Allowance for ECL pertains to trade receivables. The rollforward analyses of the allowance for ECL as of December 31, 2022 and 2021 are as follows:

	2022	2021
Beginning balance	₱63,445,608	₱91,421,827
Net reversals (Note 20)	(54,159,207)	(27,976,219)
Ending balance	₱9,286,401	₱63,445,608

7. Inventories - at cost

	2022	2021
Food and beverage	₱70,342,129	₱43,611,846
Materials and supplies	69,003,514	58,686,804
	₱139,345,643	₱102,298,650

Cost of inventories recognized as expense and included as part of “Food” and “Supplies” accounts under “Direct costs” amounted to ₱1,163.8 million, ₱285.0 million and ₱397.6 million in 2022, 2021 and 2020, respectively (see Note 20).

8. Other Current Assets

Other current assets consist of:

	2022	2021
Input taxes - net	₱281,452,435	₱232,501,354
Creditable withholding taxes	202,860,744	141,092,723
Prepayments	24,110,538	20,058,769
Supplies	21,607,770	24,907,204
Other current assets	11,247,626	11,052,934
	₱541,279,113	₱429,612,984

Input taxes

	2022	2021
Gross input tax	₱435,465,208	₱377,390,714
Less allowance for probable losses	12,471,551	9,630,480
	422,993,657	367,760,234
Less noncurrent portion (Note 15)	141,541,222	135,258,880
Current portion	₱281,452,435	₱232,501,354

Input taxes represent VAT paid on purchases of goods and services that can be recovered as tax refund/credit from the Bureau of Internal Revenue (BIR) or the Bureau of Customs. The Group also has input taxes arising from acquisition of property and equipment and other assets and those which are not expected to be utilized in the next 12 months. Provision for losses on input taxes amounted to ₱7.7 million, ₱5.1 million and ₱6.3 million in 2022, 2021 and 2020, respectively (see Note 20). In 2022, the Group received tax refund amounting to ₱19.6 million from 2020 Input VAT claim application totaling ₱30.2 million, ₱4.8 million of which was provided for losses. In 2021, the Group received tax refund amounting to ₱59.6 million from 2019 Input VAT claim application totaling ₱89.1 million, ₱8.7 million of which was provided for losses.

CWTs represent creditable tax certificates from customers which can be applied against any related income tax liability of a company in the Group to which the *CWTs* relate.

Others mainly consist of prepaid insurance, rent and utilities.

9. Investments in Associates

*Effective ownership through SWRI

**Effective ownership interest through MACS

As of December 31, 2022 and 2021, the shares of stock of these associates companies are not traded in public and as such, have no publicly traded price quotation.

LTP

LTP is a joint venture between Lufthansa Technik AG (LHT), a corporation organized and existing under the laws of the Federal Republic of Germany and MAC, a corporation organized under the laws of the Republic of the Philippines. LTP was incorporated primarily to provide aircraft maintenance, aircraft overhaul, aircraft engine repair and overhaul and aircraft component repair and overhaul services in Manila, Cebu and other locations. LTP is also registered with the Philippine Economic Zone Authority (PEZA). The agreement provides for supermajority (i.e., two-thirds) vote of directors for the approval of the annual budget as well as other critical corporate acts of the agreement. The registered office address of LTP is LTP Technical Center, MacroAsia Ecozone, Villamor Airbase, Pasay City.

CPCS

CPCS is the Company's first in-flight catering venture, which started commercial operations in 1996. It is the only in-flight catering company at Mactan-Cebu International Airport and serves both domestic and international airlines. The registered office address of CPCS is 1st Ave. Extension, Block B6, MEZ I, Lapu-Lapu City.

JASCO

On November 5, 2019, MAC entered into a Share Purchase Agreement with Konoike Transport for the 7,200 ordinary shares or 30% ownership interest in Japan Airport Service Co., Ltd. (JASCO) for an aggregate amount of ₱853,799,023 (JPY 1,825,000,000). JASCO is a wholly-owned subsidiary of NKS Holding Co. Ltd., a Japanese company wholly-owned by Konoike Transport.

MacroAsia WLL

On June 5, 2012, MACS entered into a Shareholders' Agreement with individuals to establish MacroAsia WLL, a national institutional catering and laundry company in Doha, Qatar. As of December 31, 2022, MacroAsia WLL has not yet started its commercial operations.

As of December 31, 2022 and 2021, impairment allowance amounting to ₱0.2 million was recognized on the investment in MacroAsia WLL equivalent to its remaining carrying amount.

CWSC

CSWC is a joint venture between SWRI and another domestic corporation in the Philippines. CSWC has bulk water supply with the water district of Janiuay, Iloilo. The registered office address of CWSC is 9/F, 45 San Miguel, San Miguel Avenue, Ortigas Center, Pasig City.

In the normal course of business, LTP is involved in certain claims by third parties mainly related to damages, consignment of inventories, labor and other contingencies. These provisions for claims and losses pertain to management's best estimate of probable losses in connection with claims from third parties involving damages, consignment of inventories, and other issues. These provisions have been developed in consultation with LTP's legal counsels, advisors and are based upon an analysis of potential results. LTP recognized provisions amounting to ₱639.9 million and ₱520.4 million as of December 31, 2022 and 2021, respectively, which are included as part of "Current liabilities" in LTP's summarized financial information. The provision (reversal of provision) for probable losses and claims recognized in profit or loss amounted to ₱99.3 million, ₱107.4 million and (₱357.8 million) in 2022, 2021 and 2020, respectively, which are included as part of "General and administrative expenses" in LTP's summarized financial information.

Dividend received from LTP and CPCS amounted to ₱114.7 million, nil and ₱963.3 million in 2022 2021 and 2020, respectively.

Further, the Group has interest in two other associates. The financial information of these associates as of and for the years ended December 31, 2022 and 2021 is as follows:

	2022	2021
Total assets	₱160,889,004	₱103,079,800
Total liabilities	89,625,827	35,702,384
Equity	71,263,177	67,377,416
Net loss	2,407,340	6,293,101
Group's carrying amount of its investments	47,769,226	47,769,226

10. Subsidiaries with Material Non-controlling Interests

As of December 31, 2022 and 2021, MASCORP has a material non-controlling interest of 20%. On December 5, 2019, the Company entered into a share purchase agreement with Konoike Transport Co., LTD. ("Konoike") to sell 250,001 shares representing 20% of the total issued and outstanding capital stock of MASCORP. After the sale, MASCORP is 20% owned by Konoike. The transaction was accounted for as a sale of share in subsidiary without loss of control; thus an equity transaction (see Note 27).

As of December 31, 2022 and 2021, MACS has a material non-controlling interest of 33%.

Set out below are the summarized financial information of MASCORP and MACS. The amounts disclosed are based on those included in the consolidated financial statements before intercompany eliminations.

Summarized balance sheets:

	2022		2021	
	MASCORP	MACS	MASCORP	MACS

Management performed impairment tests for CGUs that are operating below the expected level and were significantly impacted by the COVID-19 pandemic. The recoverable amounts are computed based on value in use calculations using cash flow projections of three to five years as approved by management and discounted using a pre-tax discount rates ranging from 8.7% to 11.0% in 2022 and 13.0% to 16.4% in 2021. Management determined that the value in use exceeds the carrying amount of the CGUs with sufficient headroom as of December 31, 2022 and 2021.

The key assumptions used in determining the recoverable amounts as of December 31, 2022 of property plant and equipment are the same as with those used in the impairment testing of service concession rights. Further, management used 4.0% growth rate in the calculation of cash flows beyond the forecast period.

Management believes that no reasonably possible change in the assumptions would cause the carrying values of the CGUs to materially exceed their recoverable amounts.

Noncash additions as of December 31, 2022 amounted to ₱2.6 million.

Depreciation and amortization is distributed as follows:

	2022	2021	2020
Direct costs (Note 20)	₱175,741,173	₱172,479,934	₱189,445,680
Operating expenses (Note 20)	53,492,505	58,194,468	55,619,739
	₱229,233,678	₱230,674,402	₱245,065,419

12. Investment Property

The Group's investment property pertains to a parcel of land held for future development which amounted to ₱143.9 million as of December 31, 2022 and 2021. The fair value of the investment property amounted to ₱433.0 million which is based on the latest available appraisal report rendered by a Philippine SEC-accredited professional firm of independent appraisers as of March 26, 2021 (see Note 32). Management believes that there have been no significant activities in the areas where the investment properties are located which can indicate significant changes in the fair values of investment properties per appraiser reports.

The independent appraiser used the "Sales Comparison Approach" in valuing the property in 2021. This is a comparative approach to value that considers the sales of similar or substitute properties and related market data and establishes a value estimate by process involving comparison. Listings and offerings may also be considered.

Operating expense incurred in relation to investment property pertains to real property taxes (included as part of "Taxes and licenses") amounted to ₱0.4 million in 2022, 2021 and 2020 (see Note 20).

There are neither restrictions on the realizability of investment property nor contractual obligations to develop or maintain such property.

13. Service Concession Rights, Intangible Assets and Goodwill

Service Concession Rights

	2022	2021
Cost		
Beginning balance	₱528,713,798	₱511,384,549
Additions	18,752,113	17,329,247
Ending balance	547,465,911	528,713,796
Accumulated Amortization		
Beginning balance	109,909,757	88,938,202
Amortization (Note 20)	21,928,668	20,971,553
Ending balance	131,838,425	109,909,755
Net Book Value	₱415,627,486	₱418,804,041

The cost of service concession right pertains to incurred construction costs by SNVRDC in relation to the construction of water treatment plant and pipe laying activities in Solano, Nueva Viscaya and the fair value of NAWASCOR's water system and pipelines in Naic, Cavite (see Note 29). Pursuant to Philippine Interpretation IFRIC 12, the Group recognizes intangible assets in accordance with the accounting policies stated in Note 2.

The additions to service concession right in 2022 and 2021 pertain to costs of ongoing construction of water facilities and pipe laying activities. These are recognized as contract assets and are presented as part of service concession right in the 2022 consolidated balance sheet. Construction revenue and costs amounted to ₱0.4 million, ₱0.2 million and ₱2.4 million in 2022, 2021 and 2020, respectively (see Note 22).

In 2022 and 2021, management performed impairment test of SNVRDC's service concession right due to SNVRDC's continued losses since the start of commercial operations in 2016. SNVRDC is part of water treatment and distribution segment. SNVRDC's service concession right, which pertains to incurred construction costs, amounted to ₱230.5 million and ₱243.2 million as at December 31, 2022 and 2021, respectively. Management has determined based on the impairment test that the value-in-use exceeds the carrying value of the service concession right.

The calculation of value in use is most sensitive to the following assumptions:

- *Discount rate (8.7% in 2022 and 8.1% in 2021)* - Discount rate represents the current market assessment of the risk specific to the Company, taking into consideration the time value of money and individual risks of the underlying assets that have not been incorporated in the cash flow estimates. The discount rate calculation is derived from the WACC. The Group used WACC rate as affected by beta of companies with similar activities and capital structure. WACC is also affected by costs of debt and capital based on average lending rates for long-term loans.
- *Average volume of annual water consumption (2.3 million cubic meter)* - The average volume of annual water consumption is based on management's best estimate of water consumption per customer and increases in number of connections considering factors such as historical trend, market analysis, government regulations and other economic factors.

- *Average price per cubic meter (average annual increase of 3% until 2028)* - Price per cubic meter represents the management's forecast that the Company would charge its customers considering the estimated increase to be granted by the Municipality of Solano, the approved tariff rate of National Water Regulations Board, and the estimated yearly increase that is acceptable to the customers.

Sensitivity to Changes in Assumptions

Other than as disclosed above, management believes that any reasonable possible change in any of the above assumptions would not cause the carrying value to exceed its recoverable amount.

Goodwill and Intangible Assets

	2022	2021
Goodwill	₱127,842,231	₱127,842,231
Intangible assets		
Right-to-use of water permits	117,268,229	109,314,414
Customer contract and relationships	51,475,042	54,865,447
	168,743,271	164,179,861
	₱296,585,502	₱292,022,092

Goodwill

The goodwill recognized by the Group amounting to ₱127.8 million as of December 31, 2022 and 2021 resulted from the Group's acquisition of: (a) 13% non-controlling interest from a previous stockholder of MACS in 2006, (b) 67% of BTSI in 2016, (c) 100% of NAWASCOR in 2017 and (d) 60% of SWRI in 2018.

The carrying amount of goodwill is allocated to each of the CGUs (determined to be at the subsidiary level) as of December 31, 2022 and 2021 as follows:

MACS	BTSI	NAWASCOR	SWRI	Total
₱17,531,232	₱46,056,595	₱36,885,706	₱27,368,698	₱127,842,231

Management performs its annual impairment test of goodwill of CGUs. BTSI and NAWASCOR are part of the water treatment and distribution segment, while MACS is part of inflight and other catering services segment. The recoverable amounts are computed based on value in use calculations using cash flow projections as approved by management and discounted using a pre-tax discount rate of 8.7% in 2022 and 12.9% in 2021. Management determined, that the value in use exceeds the carrying amount of the cash generating units with sufficient headroom as of December 31, 2022 and 2021.

The key assumptions used in determining the recoverable amounts as of December 31, 2022 of goodwill allocated to BTSI and NAWASCOR and right-to-use assets are the same as with those used in the impairment testing of service concession rights. Further, management used 4.0% growth rate in the calculation of cash flows beyond the forecasted period. In addition, for impairment testing of goodwill allocated to MACS, management used sales growth rate based on MACS' five-year forecast and long-term growth rate of 4% and 5.0% in 2022 and 2021, respectively, based on forecasted growth in food industry.

Management believes that no reasonably possible change in the assumptions would cause the carrying values of the CGUs to materially exceed their recoverable amounts.

Right-to-use of water permits

The right-to-use of water permits allow BTSI and NEWS to extract and distribute water in certain provinces of the Philippines and for NAWASCOR to operate, manage, maintain water systems of certain subdivisions. Management believes that the right-to-use assets have an indefinite useful life due to the permanent nature of water permits and minimal time and effort required of BTSI and NEWS to renew certain operating permits in view of continued compliance with relevant regulations.

Customer contract and relationships

Customer contract and relationships pertain to Group's long-term water supply contract with a third party and established relationships with the existing customers through service contracts. These are identified intangible assets as part of the acquisition of BTSI group in 2016. The customer contract is amortized over the remaining contract term, while customer relationships are amortized over the estimated years where all the existing customers would have switched to other water distributors. The amortization of customer contract and relationships amounted to ₱3.4 million in 2022 and 2021.

14. Deferred Mine Exploration Costs and Mining-Related Activities

Deferred mine exploration costs amounts to ₱238.51 million and ₱237.49 million as of December 31, 2022 and 2021, respectively.

Infanta Nickel Project

Deferred mine exploration costs pertain to costs incurred by the Company in the exploration of its mining property located in Brooke's Point, Palawan, the Infanta Nickel Project (the Project).

The Project is the Company's tenement under MPSAs with the government, MPSA 220IV-B. It holds another mining property within the same Municipality denominated as MPSA No. 221-2005-IVB. The former MPSA is a consolidation of the Company's eight mining lease contracts with the Government that were granted under Commonwealth Act No. 137 and P.D. 463. In the 1970's, the Company operated the mine as an export producer of beneficiated nickel laterite. As such, it had sales and purchase agreements with Sumitomo Metal Mining Co., Ltd. of Japan, and thus, had made shipments of nickel ore to Japan in the 1970's until very low nickel prices forced the operations to be suspended. The previous quarry and road network within the tenement still exists and is currently being maintained for future use.

The MPSAs run for a term not exceeding 25 years from the dates of the grant, and are renewable for another term not exceeding 25 years under the same terms and conditions, without prejudice to changes that will be mutually agreed upon by the DENR and the Company. As provided under the MPSAs, the Company is allowed to conduct exploration activities within a certain period ("exploration period"), renewable for like periods but not to exceed a total term of eight years.

In 2008, the Supreme Court ruled with finality that the Company has vested legal rights to its MPSAs; and with the grant of the Environmental Compliance Certificate (ECC) in 2010 for operations by the DENR, the Company secured two major permits necessary to bring back the mine to operations. Further, in 2010, the exploration efforts of the Company resulted in the delineation of 10.8 million dry metric ton of measured mineral resource with average grade of 1.30% nickel (Ni) and 31.28% iron (Fe) at 1% Ni cut-off. The reserves calculation was validated by the Mines and Geosciences Bureau (MGB) to be acceptable. MGB's independent calculation revealed a measured mineral resource of 12.8 million dry metric ton with average grade of 1.29% Ni and 32.20% Fe at 1.0% Ni cut-off.

The recovery of deferred mine exploration costs depends upon the success of exploration activities and future development of the mining properties, as well as the discovery of recoverable reserves in quantities that can be commercially produced. In prior years, and although the Group's nickel mine is a reactivation of an existing mine that was operational in the 1970s, the Group recognized impairment loss amounting to ₱217.1 million due to the issuance of DENR Administrative Order No. 2017-10 which puts a temporary ban on new projects for open-pit method of mining for ores. In though, the Group's MPSAs for its Infanta Nickel Project has been affirmed as valid and subsisting by DENR-MGB, and with the recent issuance of E.O. 130 lifting the nine-year moratorium on granting new mining permits in the Philippines, hence, the Company reversed the previously recognized impairment loss amounting to ₱217.1 million in 2021.

On April 29, 2021, the Group received from the DENR the Notice of Issuance of an Order for the Deed of Assignment dated June 7, 2019 executed by and between MacroAsia Corporation and MacroAsia Mining Corporation under Mineral Production Sharing Agreement Nos. 220-2005-IVB and 221-2005-IVB. This DENR-approved Deed of Assignment documented MAC Parent's assignment of all its rights and interests under the MPSAs to its fully-owned subsidiary, MacroAsia Mining Corporation.

On July 23, 2021, the BOD approved the signing of a Memorandum of Agreement (MOA) between its 100% wholly owned subsidiary, MMC and Calmia Nickel, Inc. (Calmia) for the nickel mine in Brooke's Point Palawan. This operating agreement allows Calmia to explore and operate the mining tenement of MMC in Brooke's Point, Palawan, in exchange for payment of royalties to the Group. Currently, the mine operator is working on the permits needed to re-open and operate the mine.

As of December 31, 2022, MMC is waiting for the release of the Certification Precondition (CP) from NCIP. It was approved last December 27, 2022 and recommended for issuance. MMC subsequently received the certificate in February 2023. For MMC to conduct business in full, there are permits that are currently being secured to meet the timeline to operate.

Administrative expenses related to the mining exploration activities are expensed as incurred and presented under "Mining expenses" under "Operating expenses" account. These amounted to nil, ₱2.3 million and ₱6.3 million in 2022, 2021 and 2020, respectively (see Note 20).

Deeds of Assignment with Bulawan Mining Corporation (BUMICO)

In 2012, the Company entered into two deeds of assignment with BUMICO. The first deed of assignment covered BUMICO's rights, title to, interests and obligations under the former's application for exploration permit with the MGB of the DENR over certain properties in Basay, Negros Oriental under Exploration Permit Application No. 000103 VII. In consideration, the Company paid BUMICO ₱16.0 million, which is recorded as "Deferred mine exploration costs" under "Other noncurrent assets" account in the consolidated balance sheets. The said assignment was approved by the Regional Director of the MGB on January 28, 2013.

The second deed of assignment covered BUMICO's rights, interests and obligations under an Operating Agreement with Philex Mining Corporation (PHILEX). The Operating Agreement granted PHILEX the exclusive right and privilege to take over, as an independent contractor, the working and operation of Mineral Claims as defined in the Operating Agreement for a period of 25 years. In consideration, the Company offered its technical services for BUMICO to tie up with PHILEX. The said deed of assignment was consented by PHILEX. Currently, PHILEX has no operations over the Mineral Claims. Once PHILEX resumes the operations of and generates income from the Mineral Claims, the Company shall be entitled to royalty payments and that BUMICO shall be entitled to a certain percentage of such royalties.

15. Other Noncurrent Assets

	2022	2021
Installment receivables - net of current portion (Note 6)	₱698,923	₱15,033,478
Finance lease receivable - net of current portion (Note 6)	12,077,793	12,627,370
Contract assets - net of current portion (Note 6)	77,139,974	77,139,974
Advances to contractors and suppliers	62,062,497	48,351,454
Input VAT (Note 8)	141,541,222	135,258,880
Equity investments designated at FVTOCI	105,155,800	83,155,800
Deferred project costs	42,783,267	42,783,267
Deposits	45,669,001	40,315,667
Deferred mine exploration costs (Note 14)	238,513,440	238,513,440
Deferred rent expense	25,567,429	25,785,880
Pension asset (Note 21)	7,741,764	21,024,539
Others	22,782,016	32,700,116
	₱781,733,126	₱772,689,865

Advances to contractors and suppliers

Advances to contractors pertain to advance payments to contractors which primarily serve as mobilization fee and are diminished through progress billings, and down payments for major capital expenditures.

Equity investments designated at FVTOCI

The Company's investments in golf club share and other proprietary and equity shares are carried at fair value based on published club share quotes that are publicly available from local dailies and from the website of club share brokers. As of December 31, 2022 and 2021, equity investments designated at FVTOCI amounted to ₱105.2 million and ₱83.2 million, respectively.

Below is the movement of reserve for fair value changes of financial assets investments at FVTOCI, which is presented as part of "Reserve for fair value changes of financial assets investments" in the consolidated statements of changes in equity.

	2022	2021
Beginning balance	₱51,019,999	₱38,269,999
Changes in fair value of equity investments held at FVTOCI, net of tax effect	18,700,000	12,750,000
Ending balance	₱69,719,999	₱51,019,999

Deferred income tax liabilities on the fair value changes of the equity investments designated as FVTOCI amounted to ₱3.3 million and ₱2.3 million as of December 31, 2022 and 2021, respectively (see Note 25).

Finance lease receivable

The Group has a long-term lease agreement with a third party which stipulates for a minimum volume of cubic meter to be delivered daily. This is accounted for under finance lease with the related receivables classified as part of “Installment receivables” of the Group. The gross investment in the lease and the present value of minimum lease payments as of December 31 are shown as follows:

	2022	2021
Not later than one year	₱1,030,346	₱1,030,346
Later than one year and not later than five years	4,121,385	5,151,732
Later than five years	12,020,708	12,020,707
Gross finance lease receivable	17,172,439	18,202,785
Less unearned interest	(4,545,069)	(5,046,743)
Present value of minimum lease payments	12,627,370	13,156,042
Current portion (Note 6)	(549,577)	(528,672)
Finance lease receivable - noncurrent portion	₱12,077,793	₱12,627,370

Deferred project costs

Deferred project cost as of December 31, 2022 and 2021 pertain to the following:

Maragondon Bulk Water project costs	₱34,067,350
Engineering designs, consultancy, development and geodetic surveys costs	8,715,917
	₱42,783,267

- a. Maragondon Bulk Water project costs pertain to the cost of feasibility study acquired as part of WBSI acquisition in 2011. Prior to acquisition, WBSI had contractual joint venture agreement with Maragondon Water District (MWD) when WBSI submitted an unsolicited proposal to develop a bulk water supply project to be sourced from the Maragondon River, to install and operate the water treatment plant and deliver treated water at the off-takers tapping point. As part of the agreement, MWD assigned its water permits for the use of the raw water from Maragondon River to WBSI. As of December 31, 2022 and 2021, the Group is working with the local government to execute the Bulk Water Supply Agreement which will contain the terms and conditions to operate the water treatment facility, as well as the corresponding tariffs and royalty fees.

In January 2019, the Group entered into a Supplemental Agreement to clarify the terms of the contractual joint venture agreement and agree on the implementation timeline of the project.

- b. In relation to the Group’s water-related projects, the Group incurs expenditures related to the technical feasibility studies which include engineering designs, consultancy fees, development and geodetic surveys and other project costs.

Others include software and restricted time deposits placed by the Group to guaranty an institutional catering contract amounting to ₱7.5 million and ₱16.6 million as of December 31, 2022 and 2021, respectively. The Group recognized amortization related to software amounting to ₱1.6 million, ₱4.1 million, and ₱6.4 million in 2022, 2021 and 2020, respectively (see Note 20).

16. Notes Payable and Long-Term Debts

Notes payable

Entity	Facility	Terms	Outstanding Balance	
			2022	2021
Parent Company	One-year loan agreement	Principal payable at maturity; interest payable quarterly, interest rate of 5.75%.	₱-	₱275,000,000
BTSI	6 months short-term loan agreement	Principal and interest payable at maturity; interest rate of 6.00%.	39,000,000	45,000,000
MSFI	180 days short-term loan agreement	Principal and interest payable at maturity; interest rate of 6.0% (Note 18).	50,000,000	50,000,000
NAWASCOR	6 months short-term loan agreement	Principal payable at maturity; interest payable quarterly, interest rate of 4.5%.(Note 18)	50,000,000	50,000,000
			₱139,000,000	₱420,000,000

Long-term debts

Entity	Facility	Terms	Outstanding Balance	
			2022	2021
MSFI	Eight-year term loan agreement	Principal and interest payable quarterly; interest rate equivalent to the benchmark rate plus 100 basis points per annum or 4.00%, whichever is higher (Note 18).	₱203,703,704	₱277,777,778
	Eight-year term loan agreement	Principal and interest payable quarterly; interest rate equivalent to 7.10% per annum (Note 18).	173,571,429	212,142,857
MASCORP	Five-year term loan agreement	Principal and interest payable monthly; interest rate of 2.49% per annum subject to quarterly re-pricing (Note 18).	90,270,007	115,597,737
	Five-year term loan agreement	Principal and interest payable monthly; interest rate of 3.84% per annum subject to quarterly re-pricing (Note 18).	76,326,531	106,857,143
	Five-year term loan agreement	Principal and interest payable monthly; interest rate of 3.01% per annum subject to quarterly re-pricing (Notes 18 and 23).	10,268,209	18,062,145
	Five-year term loan agreement	Principal and interest payable monthly; interest rate of 3.30% per annum subject to quarterly re-pricing (Notes 18 and 23).	892,080	12,647,754
BTSI	Fifteen-year term loan agreement	Principal and interest payable monthly; interest rate of 6.0% per annum.	19,843,200	19,843,200
	Fifteen-year term loan agreement	Principal and interest payable monthly; interest rate of 6.0% per annum.	6,736,800	6,736,800
	Ten-year term loan agreement	Monthly principal repayment to commence one year after the drawdown date, and bears interest rate of 6.0% per annum	242,411,296	252,950,917
	Fourteen-year term loan agreement	Monthly principal repayment to commence at the two years after the drawdown date, and bears interest rate of 6.0% per annum	10,000,000	-
SWRI	Nine-year term loan agreement	Principal and interest payable monthly; interest rate of 8.0%.	15,964,775	18,844,778
	Five-year term loan agreement	Principal and interest payable quarterly; interest rate of 6.5% per annum.	536,176	688,634
NAWASCOR	Three-year term loan agreement	Principal and interest payable quarterly, interest rate of 6.25% per annum	200,000,000	-
NAWASCOR	Five-year term loan agreement	Principal and interest payable semi-annually, interest rate of 5.00% per annum	1,054,167	1,150,000
FAA	Five-year term loan agreement	Principal and interest payable quarterly; interest rate of 7.5% per annum.	80,152,317	100,000,000
			1,131,730,691	1,143,299,743
Unamortized transaction costs			(2,475,623)	(3,048,107)
			1,129,255,070	1,140,251,636
Less current portion			298,122,652	210,277,717
Noncurrent portion			₱831,132,418	₱929,973,919

The aforementioned notes payable and long-term debts are obtained from local banks.

The MSFI loan was specifically availed to finance the construction of its kitchen facility (see Note 11). In accordance with the loan agreement, MSFI is required to maintain debt-to-equity ratio of not more than 70:30 and debt service coverage ratio (DSCR) of at least 1.2 times. In December 2021, the lender-bank approved to defer the effectivity of the financial loan covenants until December 31, 2022.

In accordance with the loan agreements, MASCORP is required to maintain a debt-to-equity ratio of not greater than 2.33 times and debt service coverage ratio of not lower than 1.0x. In December 2021, the lender-bank approved to defer the effectivity of the financial loan covenants until December 31, 2022.

BTSI is required to maintain certain financial ratios, such as current ratio, debt service cost coverage and debt equity ratio, and comply with non-financial covenants for bank loan applicable a year after the grant of the loan. In 2022, the lender-bank approved to defer the effectivity of the financial and non financial loan covenants until December 31, 2022.

Total interest expense incurred amounted to ₱94.1 million, ₱86.1 million and ₱105.1 million in 2022, 2021 and 2020, respectively (see Note 22). There was no capitalization of interest expense in 2022, 2021 and 2020.

17. Accounts Payable and Accrued Liabilities

	2022	2021
Trade accounts payable:		
Third parties	₱897,480,909	₱532,799,469
Related parties (Note 18)	174,349,452	183,508,489
Nontrade accounts payable (Notes 18 and 29)	321,685,799	286,519,632
Accrued:		
Rental	80,105,525	47,511,972
Service fees (Note 29)	66,827,456	34,238,416
Personnel cost	36,295,125	29,222,780
Outside services	13,588,691	9,797,099
Interest (Notes 16 and 18)	9,706,555	4,442,284
Utilities and others (Note 20)	170,706,241	137,783,515
Unearned revenue	83,395,122	78,474,938
Retention payable	8,068,447	17,691,389
Output VAT	166,056,361	75,551,678
Payable to government agencies	77,135,202	54,976,545
	₱2,105,400,885	₱1,492,518,206

Trade payables are incurred in the conduct of the Group's business with normal credit terms ranging from 30 to 45 days. Nontrade payables include concession privilege fee payable and payable to mine surveyor and subcontractor.

Retention payable pertains to the portion of the contractors' billings on the various construction projects retained by the Group and will be released upon acceptance of the completed projects and submission by the contractors of the certificate of completion and guarantee bond.

Deferred output VAT, which is included as part of "Output VAT", pertains to output VAT of uncollected receivables from the rendering of the Group's services.

Payable to government agencies include other tax-related payable such as withholding tax and payable to Social Security System, Philippine Health Insurance Corporation and Pag-IBIG Fund Contributions.

18. Related Party Transactions

Parties are considered to be related if one party has the ability to control, directly or indirectly, the other party or exercise significant influence over the other party in making financial and operating decisions. It includes companies in which one or more of the directors and/or shareholder of the Company either has a beneficial controlling interest or are in a position to exercise significant influence therein (i.e., affiliates).

Transactions between the Company and its subsidiaries and the related balances are eliminated at consolidation and are no longer included in the disclosures.

Transactions disclosed below pertain to the following related parties:

Relationship	Name
Affiliates	Philippine National Bank Philippine Airlines, Inc. (PAL) Air Philippines Corporation (APC)
Associates	LTP CPCS

The following tables summarize the transactions with the Group's related parties and their account balances:

Nature of Transaction	Outstanding balance		Terms and conditions
	2022	2021	
	<i>(In millions)</i>		
Affiliates			
Deposits and cash equivalents	₱433.6	₱328.7	On demand; prevailing interest rate
Rental deposit	4.2	4.2	To be refunded at the end of lease term; non-interest bearing
Trust fund retirement plan (Note 21)	91.3	92.7	Based on trustee agreement

Outstanding balances at year-end are to be settled in cash. There have been no guarantees provided or received for any related party receivables or payables. As of December 31, 2022 and 2021, allowance for ECL were recognized for the receivables from affiliates amounting to nil and ₱54.4 million, respectively.

Ground handling and catering arrangements

Transactions with PAL and APC include ramp, passenger, cargo and other ground handling services and catering services. The Group also provides catering services to an airport lounge of PAL.

As of December 31, 2022 and 2021, the Group's trade receivables from related parties amounted to ₱845.4 million and ₱787.5 million, net of allowance amounting to nil and ₱40.6 million, respectively.

Loans

In 2017, MSFI availed an eight-year term loan facility amounting to ₱400.0 million with the local affiliated bank (see Note 16). The loan was availed to finance the MSFI's construction of kitchen facility. In 2019, the Group availed an eight-year term loan facility amounting to ₱250.0 million with the local affiliated bank. These loans were availed to finance the Group's construction of kitchen facility. The carrying value of the loan as of December 31, 2022 and 2021 amounted to ₱377.3 million and ₱489.2 million, respectively. Interest expense incurred amounted to ₱22.5 million in 2022, ₱34.7 million in 2021 and ₱38.3 million in 2020 (see Notes 11 and 16).

In 2017, the MASCORP availed of two five-year term loans totalling ₱94.2 million with PNB for working capital and to finance the acquisition of ground handling service equipment. The carrying value of the loan as of December 31, 2022 and 2021 amounted to ₱11.2 million and ₱30.7 million, respectively. Interest expense amounted to ₱1.2 million in 2022, ₱1.5 million in 2021 and ₱1.9 million in 2020 (see Notes 11 and 16).

In 2019, MASCORP obtained five-year term loans from PNB amounting to US\$3.5 million equivalent to ₱183.6 million and ₱165.0 million payable in 60 equal and successive monthly amortizations commencing at the end of the first month from initial draw down date of the loans. Interest rate is subject to quarterly repricing. These loans were availed to refinance the short-term loans drawn against the omnibus credit line with PNB and for the purchase of various equipment which are mostly ground support equipment for the MASCORP's operations in various stations. The carrying value of the loan as of December 31, 2022 and 2021 amounted to ₱166.6 million and ₱222.5 million, respectively. Interest expense amounted to ₱8.1 million in 2022 and ₱7.3 million in 2021 (see Notes 11 and 16).

The Group also has outstanding short-term loans which amounted to ₱100.0 million and ₱75.0 million as of December 31, 2022 and 2021, respectively (see Note 16).

As of December 31, 2022 and 2021, the accreted value of rental deposit are presented as part of “Other noncurrent liabilities” in the consolidated balance sheets amounting to ₱19.3 million. Accretion of interest (included as part of “Financing charges” account) amounted to ₱2.2 million in 2022, nil in 2021 and ₱1.5 million in 2020 (see Note 22). As of December 31, 2022 and 2021, unearned rent income from nonrefundable deposits amounted to ₱5.5 million.

	₱4,883,508,027	₱1,948,864,655	₱2,257,563,772

Contract Balances

The Group's gross trade receivables amounted to ₱1,748.2 million and ₱1,277.1 million as at December 31, 2022 and 2021, respectively (see Note 6).

As of December 31, 2022 and 2021, the Group's contract assets amounted to ₱80.3 million and ₱94.5 million (see Notes 6 and 15). This includes incremental cost incurred to obtain a contract amounting to ₱64.0 million and ₱78.2 million as of December 31, 2022 and 2021, respectively. The Group does not have contract liabilities as of December 31, 2022 and 2021.

20. Direct Costs and Operating Expenses

Others include quality control related expenses (e.g., hygiene and sanitation), company activities and projects, and personnel training costs.

21. Employee Benefits Costs

Accrued retirement and other employee benefits payable consists of the following:

	2022	2021
Accrued retirement benefits payable	₱103,027,142	₱99,696,635
Other employee benefits	22,581,026	21,877,773
	₱125,608,168	₱121,574,408

Retirement Benefits Cost

The Group has funded, non-contributory defined benefit group retirement plans, covering all of their permanent employees. The retirement benefit is equal to a certain percentage of the monthly final salary for every year of service. The fund is administered by a trustee bank which is responsible for investment strategy of the plan, in consultation with the Group's Management.

Under the existing regulatory framework, Republic Act No. 7641, *Retirement Pay Law*, requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity, provided however that the employee's retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law does not require minimum funding of the plan.

The components of retirement benefits cost recognized in profit or loss follow:

	2022	2021	2020
Current service cost	₱23,627,939	₱21,989,674	₱83,960,850
Net interest cost	3,360,664	9,351,366	4,124,610
Past service cost due to employee reduction	-	-	(44,847,817)
Past service cost due to plan amendment	-	-	25,005,210
	₱26,988,603	₱31,341,040	₱68,242,853

Retirement benefits cost recognized in profit or loss	19,406,301	(7,582,302)	21,965,338	(9,375,702)
Remeasurements in other comprehensive income	(12,559,208)	(5,700,473)	(74,252,777)	62,553,943
Contributions	(3,000,000)	-	(33,700,000)	1,000,000
Benefits directly paid by the Company	(516,586)	-	(354,154)	-
Reclassification	-	-	(34,354,405)	(34,354,405)
Ending balance	₱103,027,142	₱7,741,764	₱99,696,635	₱21,024,539

Changes in present value of defined benefit obligation are as follows:

	2022	2021
Beginning balance	₱169,613,284	₱358,273,209
Current service cost	23,627,939	21,989,674
Interest cost	7,633,942	13,548,480
Actuarial loss (gain) on retirement obligation	(11,045,582)	(141,704,809)
Benefits directly paid from company's fund	(188,859)	-
Benefits paid out of the Group's plan assets	(1,567,649)	(82,493,270)
Ending balance	₱188,073,075	₱169,613,284

Changes in fair value of plan assets are as follows:

	2022	2021
Beginning balance	₱89,572,664	₱139,081,279
Interest income on plan assets	4,373,532	4,197,114
Contributions to the plan	3,000,000	34,700,000
Benefits paid	(1,097,884)	(82,139,117)
Remeasurement loss on plan assets	(5,502,860)	(3,173,797)
Ending balance	₱90,345,452	₱92,665,479
Actual return on plan assets	₱97,727,623	₱1,023,317

The major categories of plan assets are as follows:

	2022	2021
Cash and cash equivalents	₱3,087,101	₱5,905,161
Debt instruments - government securities	86,401,609	85,863,715
Receivables and others	856,742	896,603
	₱90,345,452	₱92,665,479

The plan assets have diverse investments and do not have any concentration risk.

The cost of defined benefit pension plans and the present value of the pension obligation are determined using actuarial valuations. The actuarial valuation involves making various assumptions. The principal assumptions used in determining retirement benefits cost and obligations as of January 1 are shown below.

	2022	2021
Average discount rates	5.14%	3.79%
Average future salary increases	3.0%	6.92%

The average discount rate and future salary increase as of December 31, 2022 is 7.25% and 3.00%, respectively.

The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the present value of defined benefit obligation as of December 31, assuming all other assumptions were held constant:

Assumptions:	2022	2021
Discount rate:		
+100 basis points	(₱14,205,366)	(₱12,312,465)
-100 basis points	16,312,090	14,152,021
Salary increase rate:		
+100 basis points	16,854,071	14,294,577
-100% basis points	(14,881,138)	(12,645,821)

There were no changes in the methods and assumptions from the previous periods used in preparing the sensitivity analysis.

Shown below is the maturity analysis of the undiscounted benefit payments:

Date of retirement:	2022	2021
1 year and less	₱-	₱52,844,369
More than 1 year to 5 years	131,567,555	100,013,412
More than 5 years	195,597,957	105,714,582

Additional funding is expected to be contributed in 2023. The Group does not currently employ any asset-liability matching strategies.

Other employee benefits

Employees can accumulate earned leave credits, which can be used anytime when needed by the employee or converted to cash, computed based on the employee's final rate upon separation (i.e., resignation or retirement). Accumulated leave credits are presented as "Other employee benefits"

which amounted to ₱22.6 million and ₱21.8 million as of December 31, 2022 and 2021, respectively. Provision for (reversal of) accumulating leave credits amounted to ₱0.7 million, (₱15.4 million) and ₱10.8 million in 2022 and 2021 and 2020 respectively.

22. Other Income (Charges)

a. Interest income was derived from:

	2022	2021	2020
Cash and cash equivalents (Notes 5 and 18)	₱1,551,961	₱2,047,795	₱7,245,031
Installment receivables (Note 6)	–	738,887	1,349,571
Accretion of refundable deposits (Note 18)	2,350,302	–	953,367
	₱3,902,263	₱2,786,682	₱9,547,969

b. Financing charges pertain to:

	2022	2021	2020
Notes payable and long-term debts (Notes 16 and 18)	₱94,062,806	₱86,072,570	₱105,134,587
Lease liabilities (Note 28)	52,687,133	41,259,528	25,934,673
Accretion of refundable deposits (Note 18)	2,204,846	–	1,455,230
Others	–	32,377,595	–
	₱148,954,785	₱159,709,693	₱132,524,490

Other financing charges pertain to the interest charged for the late payment of rental charges, repairs and maintenance and settlement of tax assessment.

c. Other income consist of:

	2022	2021	2020
Construction revenue (Note 13)	₱442,145	₱222,242	₱2,387,242
Construction costs (Note 13)	(442,145)	(222,242)	(2,387,242)
Connection and reconnection fees	1,626,869	1,286,383	1,321,062
Others - net	104,842,226	84,314,475	50,685,709
	₱106,469,095	₱85,600,858	₱52,006,771

Others include management fee charged to an associate amounting to ₱25.6 million, ₱52.8 million, and ₱22.1 million in 2022, 2021 and 2020, respectively (see Note 18), and items that are individually immaterial.

23. Foreign Currency-denominated Monetary Assets and Liabilities

The Group's foreign currency-denominated monetary assets and liabilities as of December 31 are as follows:

	2022		2021	
	US Dollar	Total Peso Equivalent	US Dollar	Total Peso Equivalent
Assets				
Cash and cash equivalents	\$3,441,632	₱192,355,470	\$20,169,863	₱1,028,461,314
Receivables	4,117,752	223,312,454	3,699,964	188,661,164
	7,559,384	415,667,924	23,869,827	1,217,122,478
Liabilities				
Accounts payable and accrued liabilities (Note 17)	588,558	32,821,234	219,397	11,187,053
Notes payable and long term debts (Note 16)	1,819,214	101,430,296	2,868,833	146,281,795
	2,407,772	134,251,530	3,088,230	157,468,848
Net foreign currency-denominated assets	\$5,151,612	₱281,416,394	\$20,781,597	₱1,059,653,630

As of December 31, 2022 and 2021, the exchange rates of the Peso to US\$ dollar were ₱55.76 and ₱50.99 to US\$1, respectively.

24. Registration with the Philippine Economic Zone Authority (PEZA), Mactan Cebu International Airport Authority (MCIAA) and Subic Bay Metropolitan Authority (SBMA)

The Group, through MASCORP and MAPDC, is registered with the PEZA and has commercial operations as the Ecozone Developer/Operator of the MacroAsia Special Ecozone at the Ninoy Aquino International Airport (NAIA) and at Mactan Cebu International Airport (MCIA). MacroAsia Special Ecozone is the only existing ecozone within NAIA.

In 2018, the Group, through FAA, was issued Certificate of Registration and Tax Exemption and was granted rights, privileges and benefits as a Subic Bay Freeport Enterprise in accordance with Republic Act No. 7227, Bases Conversion and Development Act of 1992, the rules of authority bestowed on the SBMA.

Under the terms of their registrations, the Group is entitled to certain tax benefits provided for under relevant rules and regulations which include, among others, exemption from payment of all national internal revenue taxes and all local government imposed fees, licenses or taxes. In lieu thereof, MAPDC and FAA shall pay a 5% final tax on gross income earned from their operations within the special tax zones.

25. Income Taxes

a. The current provision for income tax is as follows:

	2022	2021	2020
RCIT	₱58,083,209	₱8,062,848	₱5,942,539
MCIT	5,356,892	6,008,602	2,510,423
Final tax on interest	38,643	18,236	692,053
5% final tax on gross income	267,973	489,697	3,762
	₱63,746,717	₱14,579,383	₱9,148,777

The Parent Company's and subsidiaries' net deferred income tax assets (liabilities) as of December 31 are as follows:

	2022		2021	
	Net Deferred Income Tax Assets	Net Deferred Income Tax Liabilities	Net Deferred Income Tax Assets	Net Deferred Income Tax Liabilities
<i>Recognized directly in the consolidated statements of income:</i>				
Deferred income tax assets on:				
NOLCO	₱75,019,099	₱-	₱101,934,935	₱-
Allowances for:				
ECL	5,267,730	-	16,154,016	-
Probable losses	7,004,735	-	7,004,735	-
Accrued retirement benefits payable and other employee benefits	15,110,893	-	10,789,884	-
Accrued expenses	32,759,923	-	11,869,354	-
Lease liabilities	13,848,886	-	6,627,990	1,456,584
Unamortized past service cost	1,658,012	-	1,877,812	-
	150,669,278	-	156,258,726	1,456,584
Deferred income tax liabilities on:				
Contract assets	(4,127,494)	-	(5,321,011)	-
Unrealized foreign exchange gain	(30,853,605)	-	(183,594)	-
Right-of-use assets	-	(13,214,693)	-	(9,285,898)
Fair value adjustment on property, plant and equipment as a result of business combination	-	(119,740,201)	-	(119,740,201)
	(34,981,099)	(132,954,894)	(5,504,605)	(129,026,099)
<i>Recognized directly in equity:</i>				
Net deferred income tax assets on:				
Fair value changes of equity investments designated as FVTOCI	-	11,880,000	-	2,250,000
Remeasurement loss	-	25,840,940	15,710,461	7,507,913
	-	37,720,940	15,710,461	9,757,913
	₱115,688,179	(₱95,233,954)	₱166,464,582	(₱117,811,602)

- b. As of December 31, the deductible temporary differences, NOLCO and MCIT for which no deferred income tax assets were recognized in the consolidated balance sheets are as follows:

	2022	2021	2020
Deductible temporary differences on:			
NOLCO	₱1,113,043,232	₱620,329,857	₱846,716,039
Accrued retirement benefits payable	77,539,990	31,327,649	85,996,260
MCIT	6,682,847	13,250,095	10,311,475
Unrealized foreign exchange losses	(824,004)	4,233,040	-
Allowance for expected credit losses	(1,267,109)	8,947,585	-
Allowances for probable losses - Deferred mine exploration costs	-	-	217,070,924
Accrued rental expense	1,433,157	2,113,633	7,468,279

The Group did not recognize deferred income tax assets on these temporary differences, NOLCO and MCIT as management believes that certain companies in the Group may not have sufficient taxable income against which these temporary differences and NOLCO can be used or RCIT payable against which the MCIT can be applied.

- c. On September 11, 2020, the President signs into law the “Bayanihan to Recover as One Act” or “Bayanihan 2”, an Act in response to COVID-19 to accelerate the recovery and bolster the resiliency of the Philippine economy.

Unless otherwise disqualified from claiming the deduction, the business or enterprise which incurred net operating loss for taxable years 2020 and 2021 shall be allowed to carry over the same as a deduction from its gross income for the next five consecutive taxable years immediately following the year of such loss. The net operating loss for said taxable years may be carried over as a deduction even after the expiration of RA No. 11494 provided the same are claimed within the next five consecutive taxable years immediately following the year of such loss.

- d. Details of NOLCO is as follows:

Year Incurred	Available Until	Available NOLCO	Tax Effect
2022	2025	₱1,188,796,312	₱297,199,078
2021	2026	575,248,629	143,812,157
2020	2025	452,820,968	135,846,290

The Group has incurred NOLCO in 2021 and 2020 which can be claimed as deduction from the regular taxable income for the next five (5) consecutive taxable years pursuant to the Bayanihan to Recover As One Act.

- e. Details of excess of MCIT over RCIT as of December 31, 2022 are as follows:

Period/Year Incurred	Balance at Beginning of Year	Additions	Expired	Balance at End of the Year	Available Until
2022	₱-	₱6,692,735	₱-	₱6,692,735	2025
2021	₱7,403,299	-	-	7,403,299	2024
2020	1,488,826	-	-	1,488,826	2023
2019	4,357,970	-	(4,357,970)	-	2022
	₱13,250,095	₱6,692,735	(₱4,357,970)	₱15,584,860	

- f. The reconciliation of the provision for (benefit from) income tax at the statutory tax rates to the provision for income tax as shown in the consolidated statements of income is as follows:

	2022	2021	2020
Provision for (benefit from) income tax computed at the statutory tax rate	₱138,564,576	(₱60,697,484)	(₱542,853,134)
Adjustments resulting from:			
Share in net loss (earnings) of associates	(117,711,977)	(79,457,125)	191,942,324
Movements in deductible temporary differences, NOLCO and MCIT for which no deferred income tax assets were recognized	83,664,378	39,856,585	193,005,297
Interest income already subjected to final tax at lower rates or not subject to income tax	(98,763)	(24,109)	(827,419)
Effect of change in rate (impact of CREATE)	-	5,142,637	-
Others	(11,593,985)	3,314,548	149,431,770
Provision for (benefit from) income tax	₱92,824,229	(₱91,864,948)	(₱9,301,162)

- g. The President of the Philippines signed into law on March 26, 2021 the Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act to attract more investments and maintain fiscal prudence and stability in the Philippines. Republic Act (RA) 11534 or the CREATE Act introduces reforms to the corporate income tax and incentives systems. It takes effect 15 days after its complete publication in the Official Gazette or in a newspaper of general circulation or April 11, 2021.

The following are the key changes to the Philippine tax law pursuant to the CREATE Act which have an impact on the Company:

- Effective July 1, 2020, regular corporate income tax (RCIT) rate is reduced from 30% to 25% for domestic corporations.
- For domestic corporations with net taxable income not exceeding ₱5.0 million and with total assets not exceeding ₱100.0 million (excluding land on which the business entity's office, plant and equipment are situated) during the taxable year, the RCIT rate is reduced to 20%.
- Minimum corporate income tax (MCIT) rate reduced from 2% to 1% of gross income effective July 1, 2020 to June 30, 2023.
- Imposition of improperly accumulated earnings tax (IAET) is repealed.

26. Basic/Diluted Earnings (Loss) Per Share

Basic/diluted earnings per share are computed as follows:

	2022	2021	2020
Net income (loss) attributable to equity holders of the Company	₱446,084,259	(₱2,162,245)	(₱1,587,308,157)
Divided by weighted average number of common shares outstanding*	1,896,186,265	1,896,186,265	1,896,186,265
	₱0.235	(₱0.001)	(₱0.837)

*Computed as if the issuance of shares of stock of 315,159,739, and 368,146,293 shares declared in 2020 and 2018, respectively resulting from 20% and 30% stock dividends, respectively, have been recognized since January 1, 2018.

There are no potential common shares with dilutive effect on the basic earnings (loss) per share in 2022, 2021 and 2020.

27. Equity

Capital stock

a. Track record of registration of securities

On August 30, 1974, the Philippine SEC authorized the registration and licensing of the Company's securities with total par value of ₱20.0 million divided into 2,000,000,000 shares with a par value of ₱0.01 per share.

On December 10, 1993, the Company amended its articles of incorporation, increasing the par value of its shares from ₱0.01 per share to ₱1.00 per share.

On March 22, 2000, the Philippine Stock Exchange (PSE) authorized to list the Company's 750,000,000 shares, with a par value of ₱1.00 per share and 500,000,000 warrants divided into the following:

- i. 250,000,000 shares to cover the 1:4 stock rights offering to stockholders of record as of April 12, 2000 at an offer price of ₱2.00 per share;
- ii. 500,000,000 warrants to cover the 2:1 warrants offering attached to and detachable from the rights shares at a subscription price of ₱0.10 per warrant; and
- iii. 500,000,000 shares to cover the underlying shares of warrants at an exercise price of ₱6.00 per share. Actual listing of the underlying common shares of the warrants shall take effect upon the exercise of the warrants.
- iv. All warrants expired in 2005.

MAC's shares are listed and traded at the PSE and the number of holders of its common equity as of December 31, 2022 and 2021 is 845 and 843, respectively.

b. The Company's authorized capital stock is 2,000,000,000 shares with ₱1 per share. Movements in the Company's issued, treasury and outstanding shares are as follows:

	Issued	Treasury	Outstanding
As of December 31, 2010	1,250,000,000	(2,985,000)	1,247,015,000
Acquisition of treasury shares in 2011	-	(7,486,000)	(7,486,000)
As of December 31, 2011	1,250,000,000	(10,471,000)	1,239,529,000
Acquisition of treasury shares in 2012	-	(6,125,000)	(6,125,000)
As of December 31, 2012	1,250,000,000	(16,596,000)	1,233,404,000
Acquisition of treasury shares in 2013	-	(6,249,600)	(6,249,600)
As of December 31, 2015, 2016 and 2017	1,250,000,000	(22,845,600)	1,227,154,400
Stock dividend declaration	368,146,293	-	368,146,293
Acquisition of treasury shares in 2018	-	(3,949,100)	(3,949,100)
As of December 31, 2018	1,618,146,293	(26,794,700)	1,591,351,593
Acquisition of treasury shares in 2019	-	(12,845,600)	(12,845,600)
As of December 31, 2019	1,618,146,293	(39,640,300)	1,578,505,993
Acquisition of treasury shares in 2020	-	(2,707,300)	(2,707,300)
Stock dividend declaration	315,159,630	-	315,159,630
As of December 31, 2022, 2021 and 2020	1,933,305,923	(42,347,600)	1,890,958,323

Retained earnings

c. Restriction on retained earnings

The retained earnings as of December 31 is restricted for dividend declaration for the portion equivalent to the following:

- Undistributed earnings of subsidiaries and equity in net earnings of associates amounting to ₱850.0 million as of December 31, 2022 and 2021.
- Cost of treasury shares amounting to ₱459.4 million as of December 31, 2022 and 2021.
- Deferred income tax assets amounting to ₱150.7 million and ₱157.7 million as of December 31, 2022 and 2021, respectively.

d. Appropriation and reversal of appropriation of retained earnings

Appropriated retained earnings as of December 31, 2022 and 2021 amounted to ₱850.0 million.

e. Dividends declared by the Parent Company from the unappropriated retained earnings are as follows:

Type	Date Approved	Per share	Stockholder of Record Date	Date of Payment
Stock	July 17, 2020	20%	August 14, 2020	September 11, 2020
Cash	March 14, 2019	₱0.20	April 12, 2019	May 10, 2019
Stock	July 20, 2018	30%	August 17, 2018	September 12, 2018
Cash	December 13, 2017	₱0.14	January 5, 2018	January 31, 2018
Cash	December 14, 2016	₱0.08	January 6, 2017	February 1, 2017

f. Cash dividends received by non-controlling interest are as follows:

Entity	Date Declared	Amount	Per share	Dividends attributable to non-controlling interest (SATS)
MACS	December 27, 2019	₱80,000,000	₱64.0	₱26,400,000
MACS	December 6, 2018	75,000,000	60.0	24,750,000
MACS	November 28, 2017	70,000,000	56.0	23,100,000
MACS	December 8, 2016	50,000,000	40.0	16,500,000

As of December 31, 2022 and 2021, ₱32.0 million remained outstanding and presented as “Dividends payable” in the consolidated balance sheets.

Treasury shares

g. Treasury stock

On March 14, 2019, the Parent Company’s BOD approved the additional funding of ₱200.0 million for the 2017 Share Buyback Program of the Corporation.

On June 15, 2017, the Parent Company’s BOD approved to allot ₱210.0 million to repurchase shares of the Parent Company at market price. The mechanics of the 2017 Buyback Program is similar to the ₱50.0 million buyback program implemented in 2010. The Program commenced on June 20, 2017 and will run until the ₱210.0 million pesos authorized cash outlay is fully utilized, or until such

time that the Parent Company's BOD may direct, subject to appropriate disclosures to the PSE and the Philippine SEC.

On July 16, 2010, the Parent Company's BOD approved the Share Buyback Program (the Program) involving a total cash outlay of ₱50.0 million for the repurchase of the outstanding common shares of the Parent Company from the market, using the trading facilities of the PSE. The Program will not involve any active or widespread solicitation for stockholders to sell. Repurchase of shares of stock will be done during the period of the Program at such prices perceived by the Company to be lower than the inherent value of the share. The Program will run until the ₱50.0 million authorized cash outlay is fully utilized or until such time that the Company's BOD may direct, subject to appropriate disclosures to the PSE and the Philippine SEC.

As of December 31, 2022 and 2021, the Parent Company's cost and number of shares held in treasury are as follows:

Cost	₱459,418,212
Number of shares held in treasury	42,347,600

Other reserves

- h. The sale of 250,001 shares representing 20% of the total issued and outstanding capital stock of MASCORP to Konoike amounting to ₱1.1 billion (JPY 2.3 billion) was accounted for as a sale of share in subsidiary without loss of control, thus an equity transaction. The excess of consideration received over the carrying amount of the non-controlling interests amounted to ₱886.8 million, which is presented as part of "Other reserves" in the equity section of the consolidated balance sheets.
- i. In December 2015, the Group, through MAPDC, entered into a share purchase agreement with a third party wherein WBSI shall be owned by MAPDC and the third party at 51% and 49%, respectively. The transaction was accounted for as a sale of share in subsidiary without loss of control; thus an equity transaction. The excess of consideration received over the carrying amount of the non-controlling interests amounted to ₱24.3 million, which is presented as part of "Other reserves" in the equity section of the consolidated balance sheets.

In August 2020, a third party has entered into a deed of absolute sale of shares wherein WBSI shall now be fully owned by MAPDC. The transaction between parent and non-controlling interest is accounted for as an equity transaction. The excess of consideration paid over the Company amount of the non-controlling interests amounted to ₱27.0 million, which is presented as reduction to "Other reserves" in the equity section of the consolidated balance sheets.

- j. In July 2015, the Company signed a Sale and Purchase Agreement with SATS to sell 162,500 shares representing 13% of the total issued and outstanding capital stock of MACS. After the sale, MACS is 33% owned by SATS. The excess of consideration received over the carrying amount of the non-controlling interests amounted to ₱119.0 million, which is presented as part of "Other reserves" in the equity section of the consolidated balance sheets.

The following are the amounts recognized in the consolidated statements of income:

	2022	2021	2020
Depreciation expense of right-of-use assets (Note 20)	₱61,093,466	₱45,545,056	₱37,048,494
Interest expense on lease liabilities (Note 22)	49,122,009	41,259,528	25,934,673
Expenses relating to short-term leases (Note 20)	189,335,135	116,963,984	100,562,908
Total amount	₱299,550,610	₱203,768,568	₱163,546,075

The rollforward analysis of lease liabilities follows:

	2022	2021
At January 1	₱2,152,712,498	₱1,700,984,700
Additions	17,862,935	473,943,912
Interest expense (Note 22)	52,678,133	41,259,528
Payments	(112,006,096)	(63,475,642)
As at December 31	2,111,247,470	2,152,712,498
Current portion	40,657,306	15,607,124
Noncurrent portion	₱2,070,590,164	₱2,137,105,374

29. Significant Agreements and Commitments

Concession Agreements

The Group has concession agreements with MIAA, CAAP, LIPAD and GMR-Megawide Cebu Airport Corporation (“GMCAC”) (the airport authorities) to exclusively operate within the airport authorities’ premises at NAIA Terminal 1, 2 and 3, Davao, Clark and Cebu, respectively. The Group pays the airport authorities a monthly concession privilege fee equivalent to 7% of monthly gross revenue on catering services and groundhandling services, except Clark which is 4.9% of the gross revenue. For GMCAC, CPF is 7% and 10% effective July 1, 2018 for ground handling services rendered for the domestic and international flights, respectively.

Concession privilege fee amounted to ₱242.2 million, ₱97.5 million and ₱122.7 million in 2022, 2021 and 2020, respectively, which is presented under “Direct Costs” (see Note 20).

Leases

In 1997, MAC assigned all of its rights and obligations to MACS under the lease agreement it entered in the same year with MIAA for the use of a parcel of land where the catering concession facilities are located. The lease contract was for a period of 10 years from the start of the construction of the facilities, renewable every five years under such terms and conditions as may be agreed upon by both parties. Upon expiration of the lease agreement, both parties mutually agreed to continue the lease on a renewable, short-term basis using the terms in effect during the last year that the original lease agreement was in force.

The original lease contract between MACS and MIAA expired in July 2008. One of the provisions of the lease agreement is that MACS will transfer to MIAA all permanent improvements which MACS might have constructed in the leased premises upon the expiration of the original lease or upon cancellation of the lease agreement.

In 2004, the Supreme Court (SC) issued a decision declaring the current rental charges of MIAA at ₱35.55 per square meter (the current rate) as null and void, resulting into the applicability of the lower rental rates issued by MIAA in prior years, to be adjusted prospectively only until new lease rates are published by MIAA. MACS was paying the nullified rates from 1997 until August 2013, notwithstanding the SC's ruling on the validity of such rate in 2004.

In 2010, MIAA published their new rates for areas within the airport premises. In June 2010, notwithstanding the excess rental payments made by MACS in previous years, MIAA claimed from MACS an amount totaling ₱29.3 million, computed based on the new lease rates and retroactively computed with interest from February 7, 2007 (the expiration of the original lease agreement). In February 2023, the Group issued a letter to MIAA to resolve the issue and proposed to settle the estimated unpaid claims in the previous years. MACS recognizes additional provision amounting to ₱43.7 million (inclusive of VAT and interest) in 2022 as this is considered a subsequent event.

MACS' current contract with MIAA is for the period June 1, 2021 to May 31, 2024. This is the fifth renewal of the original lease agreement entered in 2013 with an initial term of three years renewable every third year. Future minimum lease payment for this lease agreement, all maturing within two years, amounted to ₱17.0 million and ₱7.1 million in 2023 (full year) and 2024 (five months), respectively.

In 2022 and 2021, lease expense relating to this lease agreement is included in "Other overhead" under "Costs of catering revenue" amounting to ₱3.7 million and "Operating expenses" amounting to ₱11.0 million in profit or loss.

Service Fee Agreement

The Group has a service fee agreement with SATS, the 33% owner of MACS. Service fee amounted to ₱14.9 million, ₱0.1 million and ₱0.1 million in 2022, 2021 and 2020, respectively (see Note 20).

Outstanding payable to SATS amounted to ₱70.7 million and ₱58.0 million as of December 31, 2022 and 2021, respectively (see Note 17).

Waterworks System Agreements

The Group has Memorandum of Agreements (Agreements) with various government municipalities to design, construct, commission and maintain a new and complete waterworks system, particularly in Mabini Pangasinan, Solano, Nueva Vizcaya and Naic, Cavite. The Agreements commenced in 2013, 2015 and 2017, and are for a period of 25 years to 40 years, as applicable, subject to renewal based on the provisions of the Agreements.

Certificate of Public Convenience (CPC)

BTSI is a holder of CPC, which allows BTSI to install, operate and maintain waterworks systems in certain barangays in Malay, Aklan. The CPC was granted by National Water Resources Board (NWRB) in 2014 and is valid until July 2017. In 2017, BTSI's CPC was renewed with validity until July 18, 2022.

Exploratory Service Agreements

MMC has various service agreements with third parties, wherein MMC will undertake exploratory drilling and sampling of nickel laterite services on the third parties, mining tenements.

Revenue recognized amounted to nil in 2022, 2021 and ₱4.16 million in 2020 (see Note 19).

30. Capital Management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit and healthy capital ratios in order to support its business and maximize shareholder value.

The Group manages its capital structure and makes adjustment to it, in light of changes in economic conditions. To maintain or adjust capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders repurchase or issue new shares. The Group is not subject to externally imposed capital requirements as of December 31, 2022 and 2021. Further, no changes were made in the objectives, policies or processes for each of the three years in the period ended December 31, 2022.

The Group monitors capital vis-à-vis after tax profit. The Group also monitors the return on equity ratio. Equity considered by the Group is total equity in the consolidated balance sheets, excluding items arising from other comprehensive income. The return on equity ratio is computed by dividing the after tax profit by total capital.

The following summarizes the total capital considered by the Group and the computation of the return on equity:

	2022	2021
Capital stock	₱1,933,305,923	₱1,933,305,923
Additional paid-in-capital	281,437,118	281,437,118
Retained earnings	2,626,463,313	2,180,379,054
Treasury shares	(459,418,212)	(459,418,212)
	₱4,381,788,142	₱3,935,703,883
Net income (loss)	₱461,434,075	(₱150,924,987)
Return on equity	10.53%	(3.83%)

31. Financial Risk Management Objectives and Policies

Risk Management Structure

Audit Committee

The Committee performs oversight role on financial management functions especially in the areas of managing credit, market, liquidity, operational, legal and other risks of the Group.

Risk Management Committee

The Committee assists the BOD in identifying and assessing the various risks to which the Group is exposed to. The Committee also ensures that the Group's management has implemented a process to identify, manage and report on the risks that might prevent the Group from achieving its strategic objectives.

BOD

The BOD is responsible for the overall risk management approach and for approval of risk strategies and principles of the Group.

Financial Risk Management

The Group's principal financial instruments comprise cash and cash equivalents and some external liabilities which were availed of primarily to fund operations. The Group has other financial assets and financial liabilities such as trade receivables and payables which arise directly from operations.

The main risks, arising from the Group's financial instruments are foreign currency risk, credit risk, interest rate risk and liquidity risk. The BOD reviews and approves policies for managing these risks and they are summarized as follows:

Foreign currency risk

The Group's transactional currency exposure arises from sales in currencies other than its functional currency and retaining its cash substantially in currency other than its functional currency. Approximately an average of 16% and 19% of Group's revenue are denominated in US\$ in 2022 and 2021, respectively. In addition, the Group closely monitors the foreign exchange rates fluctuations and regularly assesses the impact of future foreign exchange movements on its operations. Foreign currency monetary assets and liabilities are disclosed in Note 23.

The table below demonstrates the impact on the Group's income before income tax and equity of reasonably possible changes in the US\$, with all other variables held constant.

	Movement in US\$	Increase (decrease) in income before income tax <i>(In millions)</i>
2022	Increase of 5.0%	₱40.0
	Decrease of 5.0%	(40.0)
2021	Increase of 5.0%	20.5
	Decrease of 5.0%	(20.5)
2020	Increase of 5.0%	23.5
	Decrease of 5.0%	(23.5)

The Group reported net foreign exchange gain (loss) of ₱1.5 million in 2022, ₱21.5 million in 2021, and (₱60.0 million) in 2020 (see Note 23).

Credit and concentration risk

Credit risk is the risk that the Group will incur a loss because its customers or counterparties failed to discharge their contractual obligations under a financial instrument or customer contract, leading to a financial loss. The Group manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties and by monitoring exposures in relation to such limits.

The Group trades only with related parties and duly evaluated and approved creditworthy third parties. It is the Group's policy that all customers and counterparties that wish to trade with the Group, particularly on credit terms, are subjected to credit verification procedures. In addition, receivable balances are monitored on a continuous basis. The Group has major concentration of credit risk given that the majority of the Group's cash and cash equivalents are deposited in the local affiliated bank and major customers of MASCORP and MSISC include PAL and APC. Management assessed and believes that the carrying amount of the trade receivable from related parties are collectible and that the Group is not exposed to any significant risk since these companies are related parties. Further, the local affiliated bank is one of the country's reputable banks.

With respect to credit risk arising from financial assets, the Group's exposure arises from default of the counterparty, with a maximum exposure equal to the carrying values of these instruments. The Group only deals with financial institutions that have been approved by the BOD of the Company and those of its subsidiaries. The Group does not require any collateral and other credit enhancements. Consequently, an impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses (ECL). The provision rates are based on days past due for groupings of various customer

segments with similar loss patterns (i.e., by geographical region, product type, customer type and rating, and coverage by letters of credit or other forms of credit insurance).

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

- Probability of default (PD)* is an estimate of the likelihood of default over a given time horizon.
- Exposure at default (EAD)* is an estimate of the exposure at a future default date taking into account expected changes in the exposure after the reporting date.
- Loss given default (LGD)* is an estimate of the loss arising in the case where a default occurs at a given time.

For cash in bank, the Group applies the low credit risk simplification where the Group measures the ECLs on a 12-month basis based on the probability of default and loss given default which are publicly available. The Group also evaluates the credit rating of the bank and other financial institutions to determine whether the debt instrument has significantly increased in credit risk and to estimate ECLs.

For trade and other receivables, an impairment analysis is performed at each reporting date using a provision matrix, however for customers with significant increase in risks of default general approach is used to measure ECLs. The provision rates are based on days past due for groupings of customer segments with similar loss patterns. On the other hand, for general approach, the Group determines the cash shortfall for the difference between the average monthly collection and the average current monthly service billing. The calculation reflects the probability-weighted outcome, the time value of money, and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

In its ECL models, the Group relies on a broad range of forward looking information as economic inputs, such as:

- Gross Domestic Product (GDP) growth rates
- Unemployment rates
- Inflation rates
- Interest rates
- Foreign currency exchange rates

The inputs and models used for calculating ECLs may not always capture all characteristics of the market at the date of the financial statements. To reflect this, qualitative adjustments or overlays are occasionally made as temporary adjustments when such differences are significantly material. Based on the Group's credit risk experience, expected credit loss rate increases as the age of the receivables increase.

The aging per class of financial assets and contract assets, and the expected credit loss follows:

December 31, 2022

	Current	Past Due but not Impaired				ECL	Total, net of ECL

Impairment assessment

The main considerations for impairment assessment include whether any payments are overdue or if there are any known difficulties in the cash flows of the counterparties. The Group assesses impairment on an individual account basis for all stage 3 assets, regardless of the class of financial assets. Stage 1 and stage 2 assets are assessed on a collective basis.

Items considered when determining allowance amounts include the sustainability of the counterparty's business plan, its ability to improve performance once a financial difficulty has arisen, projected receipts and the expected dividend payout should bankruptcy ensue, the availability of other financial support and the realizable value of collateral, and the timing of the expected cash flows. The impairment losses are evaluated at each reporting date, unless unforeseen circumstances require more careful attention even at interim.

Credit quality per class of financial assets

The credit quality of financial assets is managed by the Group using internal credit ratings. The Group considers its cash and cash equivalents (including restricted cash investment) as high grade since these are placed in financial institutions of high credit standing. Accordingly, ECLs relating to cash and cash equivalents rounds to zero. The Group considers its advances to officers and employees as standard grade as collectability is assured through salary deduction. Accordingly, the LGD is considered low; thus, no ECLs are recognized on the advances to employees.

Interest rate risk

The Group's exposure to the risk for changes in market interest rates relates primarily to the Group's notes payable with floating interest rates. The Group has a practice of keeping its interest-bearing liabilities to third parties within a threshold that can be serviced through operating cash flows.

Management closely monitors the behaviour of interest rates to ensure that cash flow interest rate risk is kept within management's tolerable level. Finally, interest-bearing liabilities are ordinarily incurred on a short-term basis only.

The table below sets forth the estimated change in the Group's income before income tax (through the impact on the variable rate borrowings) due to parallel changes in the interest rate curve in terms of basis points (bp) as of December 31, 2022 and 2021, with all other variables held constant. There is no other impact on the Group's equity other than those already affecting the consolidated statements of income.

	Increase (decrease) in income before income tax	
	2022	2021
	<i>(In millions)</i>	
100 bp rise	(P10.59)	(P15.92)
100 bp fall	10.59	15.92
50 bp rise	(5.29)	(7.96)
50 bp fall	5.29	7.96

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its obligations when they fall due under normal and stress circumstances. To limit this risk, management manages assets with liquidity in mind, and monitors future cash flows and liquidity on a daily basis. This incorporates an assessment of expected cash flows which could be used to secure additional funding if required.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of operating cash flows and short-term bank loans.

The tables below summarize the maturity profile of the Group's financial liabilities based on contractual and undiscounted repayment obligations. Repayments which are subject to notice are treated as if notice were to be given immediately. The table also analyses the maturity profile of the Group's financial assets held for managing liquidity in order to provide complete view of the Group's contractual commitments and liquidity.

***** Inclusive of accretion of interest of ₱9,933,244. Presented as part of "Other noncurrent liabilities".

32. Fair Values

The table below provides the comparison of carrying amounts and fair values of the Group's assets and liabilities as at:

	Carrying value	Quoted prices in active markets (Level 1)	Fair value measurements using	
			Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
December 31, 2022				
<i>Assets measured at fair value:</i>				
Equity instruments designated at FVTOCI (Note 15)	₱105,155,800	₱–	₱105,155,800	₱–
<i>Assets for which fair value is disclosed:</i>				
Installment receivables (Notes 6 and 15)	20,525,972	–	–	20,525,972
Finance lease receivable (Note 15)	16,643,767	–	–	16,643,767
Investment property (Note 12)	143,852,303	–	–	432,952,000
Deposits (Note 15)	45,669,001	–	–	45,669,001
<i>Liabilities for which fair value is disclosed</i>				
Deposits (Note 18)	₱47,174,348	₱–	₱–	₱47,174,348
Long term debts (Note 16)	1,129,025,068	–	1,129,025,068	–
December 31, 2021				
<i>Assets measured at fair value:</i>				
Equity instruments designated at FVTOCI (Note 15)	₱83,155,800	₱–	₱83,155,800	₱–
<i>Assets for which fair value is disclosed:</i>				
Installment receivables (Notes 6 and 15)	34,598,848	–	–	34,598,848
Finance lease receivable (Note 15)	18,202,785	–	–	18,202,785
Investment property (Note 12)	143,852,303	–	–	432,952,000
Deposits (Note 15)	40,315,667	–	–	40,315,667
<i>Liabilities for which fair value is disclosed</i>				
Deposits (Note 18)	₱25,306,517	₱–	₱–	₱25,306,517
Long term debts (Note 16)	1,140,251,636	–	1,140,251,636	–

The Group determined that its investments in government bonds and golf club shares are categorized at Level 2 in the fair value hierarchy. The Group assessed that, while there is a market for these securities, transactions are infrequent.

There have been no transfers between Levels 1 and 2 in 2022 and 2021.

Cash and cash equivalents, receivables, accounts payables and accrued liabilities, and notes payable
The carrying values of cash and cash equivalents, receivables, accounts payable and accrued liabilities dividends payable and notes payable approximate their fair values due to their short-term nature.

Installment receivables and deposits

The carrying values of installment receivables and deposits are determined based on the present value of expected cash flows discounted at the Group's borrowing rate.

Dividends payable

The carrying value of dividends payable approximates its fair value since they are expected to be settled within a short period of time after its declaration.

Long-term debts

The carrying value of long-term debts approximate its fair value due to the re-pricing feature of the interest it carries.

Equity instruments designated at FVTOCI

The Group's investments in golf club share and other proprietary shares are carried at fair value based on published club share quotes that are publicly available from the local dailies and from the website of club share brokers.

Investment property

The Philippine SEC-accredited and independent appraiser used the "Sales Comparison Approach" in valuing the property. The Group has determined that the highest and best use of the property is its current use (i.e., industrial purpose).

33. Changes in Liabilities Arising from Financing Activities

The table below presents the changes in Group's liabilities arising from financing activities.

2022

	Beginning	Availments	Payments	Noncash activities*	Dividend declaration (Note 27)	Ending
Note payable (Note 16)	₱420,000,000	₱40,000,000	(₱321,000,000)	₱-	₱-	₱139,000,000
Long-term debt (Note 16)	1,140,251,636	200,000,000	(210,996,567)	-	-	1,129,255,069
Lease liabilities (Note 28)	2,152,712,498	-	(112,006,096)	70,541,068	-	2,111,247,470
Treasury shares (Note 27)	(459,418,212)	-	-	-	-	(459,418,212)
Dividend payable (Note 27)	9,528,020	-	-	-	-	9,528,020
Dividends payable to non-controlling interest (Note 27)	22,440,000	-	-	-	-	22,440,000
Total liabilities from financing activities	₱3,285,513,942	₱240,000,000	(₱644,002,663)	₱70,541,068	₱-	₱2,952,052,347

*Noncash activities pertain to discounting of lease payments and unpaid leases.

2021

	Beginning	Availments	Payments	Noncash activities*	Dividend declaration (Note 27)	Ending
Note payable (Note 16)	₱595,000,000	₱240,000,000	(₱415,000,000)	₱-	₱-	₱420,000,000
Long-term debt (Note 16)	1,192,101,245	128,540,000	(180,389,609)	-	-	1,140,251,636
Lease liabilities (Note 28)	1,700,984,700	-	(63,475,642)	515,203,440	-	2,152,712,498
Treasury shares (Note 27)	(459,418,212)	-	-	-	-	(459,418,212)
Dividend payable (Note 27)	9,528,020	-	-	-	-	9,528,020
Dividends payable to non-controlling interest (Note 27)	22,440,000	-	-	-	-	22,440,000
Total liabilities from financing activities	₱3,060,635,753	₱368,540,000	(₱660,766,583)	₱515,203,440	₱-	₱3,285,513,942

*Noncash activities pertain to discounting of lease payments and unpaid leases.

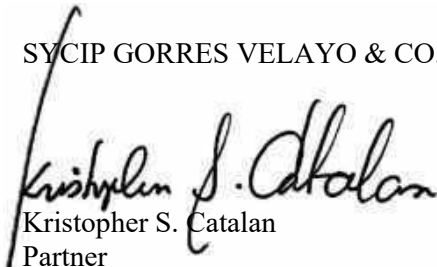

INDEPENDENT AUDITOR'S REPORT ON SUPPLEMENTARY SCHEDULES

The Stockholders and the Board of Directors
MacroAsia Corporation
12th Floor, PNB Allied Bank Center
6754 Ayala Avenue, Makati City

We have audited in accordance with Philippine Standards on Auditing, the consolidated financial statements of MacroAsia Corporation and its subsidiaries (collectively as the Group) as at December 31, 2022 and 2021, and for each of the three years in the period ended December 31, 2022, included in this Form 17-A and have issued our report thereon dated March 23, 2023. Our audits were made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The schedules listed in the Index to the Supplementary Schedules are the responsibility of the Group's management. These schedules are presented for purposes of complying with the Revised Securities Regulation Code Rule 68, and are not part of the basic consolidated financial statements. These schedules have been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and, in our opinion, fairly state, in all material respects, the financial information required to be set forth therein in relation to the basic consolidated financial statements taken as a whole.

INDEPENDENT AUDITOR'S REPORT ON COMPONENTS OF FINANCIAL SOUNDNESS INDICATORS

The Stockholders and the Board of Directors
MacroAsia Corporation
12th Floor, PNB Allied Bank Center
6754 Ayala Avenue, Makati City

We have audited in accordance with Philippine Standards on Auditing, the consolidated financial statements of MacroAsia Corporation and its subsidiaries (collectively as the Group) as at December 31, 2022 and 2021 and for each of the three years in the period ended December 31, 2022, and have issued our report thereon dated March 23, 2023. Our audits were made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The Supplementary Schedule on Financial Soundness Indicators, including their definitions, formulas, calculation, and their appropriateness or usefulness to the intended users, are the responsibility of the Group's management. These financial soundness indicators are not measures of operating performance defined by Philippine Financial Reporting Standards (PFRSs) and may not be comparable to similarly titled measures presented by other companies. This schedule is presented for the purpose of complying with the Revised Securities Regulation Code Rule 68 issued by the Securities and Exchange Commission, and is not a required part of the basic consolidated financial statements prepared in accordance with PFRSs. The components of these financial soundness indicators have been traced to the Group's consolidated financial statements as at December 31, 2022 and 2021 and for each of the three years in the period ended December 31, 2022 and no material exceptions were noted.

ENVIRONMENT

Resource Management

Energy consumption within the organization:

Disclosure	Quantity	Units
Energy consumption (renewable sources)	979.201	MWh
Energy consumption (gasoline)	5,223	GJ
Energy consumption (LPG)	3,914	GJ
Energy consumption (diesel)	73,511	GJ
Energy consumption (electricity)	37,636	MW

Note: Significant changes in the figures under MAC group's environmental data were due to normalization of operations, primarily in maintenance, repair, and overhaul business. Ground handling and catering service operations regularized as the flights increased (as compared to the previous year) and the implementation of business expansion in certain none-airline related clients. Meanwhile, operations for water group normalized after the effects of the pandemic. In addition, the effected business expansion program for water group resulted to the increase of active pumping stations from six (6) in 2017 to twenty (20) in 2022, which aid in the growth of operations.

Reduction of energy consumption

Disclosure	Quantity	Units
Energy reduction (gasoline)	n/a	Liters
Energy reduction (LPG)	n/a	Kgs
Energy reduction (diesel)	n/a	Liters
Energy reduction (electricity)	n/a	kWh
Energy reduction (gasoline)	n/a	Liters

(Others)	N	0%	0%

What is the impact and where does it occur? What is the organization's involvement in the impact?	Management Approach
<ul style="list-style-type: none"> <i>The company ensures that all benefits are available to its employees and all government mandated contributions are being processed on time as mandated by the Philippine law.</i> 	<ul style="list-style-type: none"> <i>Strict monitoring of the availment and administration of benefits.</i>

⁵ Employees are individuals who are in an employment relationship with the organization, according to national law or its application ([GRI Standards 2016 Glossary](#))

⁶ Attrition are = (no. of new hires – no. of turnover)/(average of total no. of employees of previous year and total no. of employees of current year)

<ul style="list-style-type: none"> Employee benefits motivate workers thus increasing productivity and loyalty towards the Company. It can help the company to differentiate business from its competitors. 	<ul style="list-style-type: none"> Strict monitoring in the payment of the monthly contributions in SSS, Philhealth, and Pagibig. Management addresses the concerns via the climate survey conducted yearly. Town hall meeting conducted every quarter to update employees of the company's performance. Management exercises open door policy.
What are the Risk/s Identified?	Management Approach
<ul style="list-style-type: none"> Employees have a tendency to be complaisant since the benefits are readily available to them. Tendency to exhaust all loan benefits resulting to low monthly income. Some employees are showing lack of interest or concern. Some employees are not well informed of the available benefits. 	<ul style="list-style-type: none"> Strict monitoring of the availment of benefits. Information dissemination on the available benefits to all employees.
What are the Opportunity/ies Identified?	Management Approach
<ul style="list-style-type: none"> To further improve employee benefit on top of what is already provided. Unilateral application of all employee benefits across all subsidiaries. 	<ul style="list-style-type: none"> To study and re-evaluate existing policy on employee benefits and look for areas to improve.

Employee Training and Development

Disclosure	Quantity	Units
Total training hours provided to employees		
a. Female employees	12,061.50	hours
b. Male employees	18,160.93	hours
Average training hours provided to employees		
a. Female employees	17.21	hours/employee
b. Male employees	16.79	hours/employee

What is the impact and where does it occur? What is the organization's involvement in the impact?	Management Approach
--	----------------------------

<ul style="list-style-type: none"> • <i>Providing training to employees ensures continuous learning and the acquisition of new skills on the part of the employees. The ultimate benefit will be to the organization if employees continuously learn new skills.</i> • <i>Classroom and actual training is being given to all employees prior to deployment as needed/required by client airlines in the aviation industry</i> • <i>Developing more skilled employees also increases the productivity of the company.</i> 	<ul style="list-style-type: none"> • <i>It is the obligation of the management to provide training and opportunity for the development of every employee.</i> • <i>It is the management’s responsibility to equip its employees by providing the best training possible needed in performing their jobs as part of their daily task.</i>
What are the Risk/s Identified?	Management Approach
<ul style="list-style-type: none"> • <i>It is highly possible that employees would be tempted to seek greener pastures if and when their skills are enhanced.</i> • <i>Some employees would want a salary increase to commensurate the new skills learned.</i> • <i>It was a challenge to provide training to employees because of the cost-cutting measures in place due to the financial effect of the pandemic to the company’s operations.</i> 	<ul style="list-style-type: none"> • <i>To discourage employees from seeking employment elsewhere after receiving training, management should make salary adjustments to maintain a competitive rate.</i> • <i>Company should give a clear vision on the career path of the employees.</i> • <i>Continued sourcing for external and internal candidates for succession planning purposes.</i>
What are the Opportunity/ies Identified?	Management Approach
<ul style="list-style-type: none"> • <i>Management will be assured that its employees are among the best in the industry with competitive salary package.</i> • <i>Employee will become more productive with less supervision.</i> • <i>With the professional and continual growth of the employees, the company is able to produce a well competent employee with the right learning support.</i> 	<ul style="list-style-type: none"> • <i>Management should consider employee training and development as part of its corporate goals.</i> • <i>Provide developmental assignments or projects to the employees to foster growth.</i>

Labor-Management Relations

Disclosure	Quantity	Units
% of employees covered with Collective Bargaining Agreements	N/A	%

Number of consultations conducted with employees concerning employee-related policies	20	#
---	----	---

What is the impact and where does it occur? What is the organization's involvement in the impact?	Management Approach
<ul style="list-style-type: none"> Since the Company is unorganized, a Collective Bargaining Agreement or CBA has no impact. 	<ul style="list-style-type: none"> To establish an open line of communication with the employees and to make sure that their grievances are properly addressed. Company policy rules and regulation must be clear to all employees to minimize or prevent confusion.
What are the Risk/s Identified?	Management Approach
<ul style="list-style-type: none"> An unorganized establishment would always be at risk of being organized anytime. 	<ul style="list-style-type: none"> Management should always be attentive to the sentiments of its employees. Management has an open-door policy.
What are the Opportunity/ies Identified?	Management Approach
<ul style="list-style-type: none"> Management and employees should continuously have an open communication and develop rapport and coherence with regards to the company's rules and regulations. 	<ul style="list-style-type: none"> Management should consider the creation of a Labor-Management Council or LMC to provide a venue for employees to air their grievances.

Diversity and Equal Opportunity
