## Item 9. Others

MacroAsia Corporation (“MacroAsia” or the “Company”) hereby advises the Securities and Exchange Commission (SEC), the Philippine Stock Exchange (PSE), and the investing public that its associate, Lufthansa Technik Philippines (“LTP”), reiterated today, 16 June 2026, the planned expansion of its Philippine operations through a new base maintenance facility at Clark International Airport, following its earlier disclosure on the signing of a lease contract in Clark.

The announcement was made during the State Visit of German Federal President Frank-Walter Steinmeier, who met with Philippine President Ferdinand R. Marcos, Jr. at Malacañang Palace. Both leaders welcomed the project as a milestone in Philippine-German economic cooperation.

The Clark facility upon its full completion will cover approximately 157,000 square meters and is designed to accommodate up to nine widebody aircraft bays, with initial operations targeted in 2028. It will complement LTP’s existing operations at the Ninoy Aquino International Airport (NAIA) in Manila and help establish the Philippines as a stronger widebody aircraft maintenance, repair, and overhaul (MRO) hub in the Asia-Pacific region.

The above information is being released in accordance with the disclosure rules of the Securities and Exchange Commission and the Philippine Stock Exchange.
